P-W'S MOUNTAIN GROWN SEEDS AND TREES ARE HARDIER

Shoemaker

## This is What Counts—23 Years in Business YOUR SATISFACTION GUARANTEED or Money Refunded

If such a rare circumstance should happen that your crop failed through the fault of the seed purchased from us, we will refull the order or refund the entire purchase price of the seeds in question. No seedsman in the world will do more, and most of them would do nothing after seed is accepted and planted. Of course, we cannot guarantee or assume any responsibility for the crop, as we cannot control the weather, soils, moisture, pests and other agents which make for success or failure.

It is not only our business, but our moral obligation as well, to furnish our customers with the right kind of fresh, vigorous, acclimated tested seed and nursery stock, the important beginning of all success in horticulture.

## **About Prices and Delivery**

(The Prices in This Catalog Cancel All Previous.)

All quotations, unless otherwise noted, are based on prepaid charges by us to your express or post office. Safe delivery is positively guaranteed. You are therefore, as close to us as your post office or railway station. These prices are as reasonable as we can sell in the quantities specified and will be adhered to during the season or as long as the stocks last.

Trees and seeds in quantity, poultry, supplies, etc, quoted "Not Prepaid" are F.O.B. Salt Lake City, and purchasers pay expenses of freight, express or parcel post. If wanted by parcel post, always send postage with the order. See back of "order blanks" to ascertain

the amount of postage.

The Order Blanks attached to this catalog will be convenient for customers and facilitate our filling orders (extra ones mailed free on request). Use the "Tree Order" sheet when ordering shrubs and trees—pages 3 to 20—these being filled at our Nurseries, though all can be shipped together when advisable. On all other items Seeds, Bulbs, Poultry and Miscellaneous Supplies, etc., listed on pages 20 to end of catalog inclusive, please use the "Seed" order blank. This will greatly help us in the dispatch of your orders.

### ORDER EARLY

In January and February, if possible, before the Spring rush begins. March and April are our busy months and our full force works almost day and night under high speed. We allow 5% discount for the privilege of filling you order BEFORE MARCH 1. On all orders from this catalog reaching us during January and February this discount will apply; thereafter no deductions allowable.

## Seed Testing

Aside from the field tests to maturity carried on at our Centerville trial grounds, testing for germination is done in our green-houses in soil. This is the fairest method possible since

only plants that actually grow and come above ground are counted.

Not only is everything tested as fast as it comes into the warehouse, but tests are made from month to month as stocks might be carried over. Thousands of these germination tests are made every year, all are carefully recorded and no stock of anything is used to supply our customers that does not show a satisfactory germination test.

It is not enough that we have the intent to please and satisfy our customers—we have

the system and organization that cut mistakes to a minimum and insure the best obtainable

anywhere for our customers.

Your patronage is solicited with the assurance that every packet, yes every tiny seed or anything else you receive labeled PORTER-WALTON has behind it the integrity and stability of a responsible house, characterized by dependable quality, high efficiency and a desire to please. Yours for a Wonderful Garden,

Seed Farm, Nurseries and Trial Grounds Centerville, Utah

A mid-season snapshot showing one of our fields of one-year-old Peach Trees at our Centerville Nursery the rest of our Fruit Stock, the above were budded from the choicest bearing trees, critically selected and carefully labeled by our expert nurserymen. The painstaking care in selecting scions is one of the reasons why Fruit Stocks wearing our label are so dependable.

At our Centerville Nurseries we have a particularly fine lot of strong, healthy fruit trees. This stock has been selected and critically grown to meet the requirements of orchardists planting for eastern or local markets. We believe, also, those of our patrons who are planting a small orchard for home use will find sufficient variety to amply fill every want in the fruit line.

Average weight of Fruit Trees packed for shipment ass an aid to determine carriage charges: The general run of fruit trees, either in bales or cases, average about as follows: 6 to 8 ft., 2 lbs. each; 4 to 6 ft., 1½ lbs. each; 3 to 4 ft., 1 lb. each; 2 to 3 ft. one-half of a lb. each. Grapevines, one-third of a lb. each.

### FULL DIRECTIONS FOR CARE AND PLANTING FREE WITH EACH ORDER

It is very easy to transplant trees successfully if these directions are followed:
With "Our Quality Trees" the most inexperienced men can set out orchards with the highest degree of success.
Experience has taught us that 90 per cent of the trees that die do so because the persons who planted them did not have directions for transplanting to follow, or did not follow the ones they had. Were it possible for us to plant and care for the stock we send out we would willingly insure the growth of every tree and plant. These directions are invaluable to you, for if they are followed your trees, plants, etc., can be set out with the surety of a reasonable degree of success

Certificate of Inspection, showing freedom of our stock from San Jose and other injurious insects and diseases, will

be attached to all shipments.

### **GUARANTEE OF GENUINENESS**

Our Fruit Trees are all budded or grafted from bearing trees, and every care and precaution is exercised to have them true to name. With all our caution, mistakes are liable to be made; but we hold ourselves in readiness, on proper proof, to replace all trees and other stock that may prove untrue to label, free of charge, or refund the amount paid. It is mutually understood and agreed to between the purchaser and ourselves, however, that our guarantee of genuineness shall, in no case make us liable for any greater sum than that originally paid by us for the trees, etc., which may prove untrue.

### **GUARANTEE OF SAFE ARRIVAL IN GROWING CONDITION**

Our trees and shrubs are most carefully inspected for vitality before orders are dispatched and carefully packed to endure the journey so they should reach you in "A-1" shape for planting. We are not responsible for damage to goods in transit, therefore you must examine at the express or freight office and have any damage noted upon your express or freight receipt. We are always glad to replace goods injured in transit, providing receipt showing damage is returned to us so that we may enter claim and reimburse ourselves.

After stocks have been received and planted, failure to grow is entirely at the risk of the purchaser as we have no control over the planting, soil, culture, or the enemies of plant life and therefore can assume no liability whatsoever regarding the continued growth and can make no replacements in case of failure.

#### "TEN COMMANDMENTS"

Here are the "Ten Commandments of Tree Planting" as given by an eminent horticultural authority:

- Do not allow roots to be exposed to the sun, drying winds or frost.
   Prune with a sharp, clean cut any broken or injured
- 3. Have the holes large enough to admit all the roots
- without cramping. Plant in fine loam, enriched with thoroughly decomposed manure.
- not allow any green unfermeted manure to come in contact with roots. 5. Do
- 6. Spread out the roots in their natural position and work fine loam among them, making it firm and compact.
- 7. Do not plant too deep. Let roots be set two or three inches lower than before.
- 8. Remove all broken branches and cut back at least one half of the previous year's growth of wood.
- 9. If the season lacks the usual rainfall water thoroughly twice a week,
- 10. Cultivate. Keep soil in dust mulch-cultivate.

### APPLES

"The King of Fruits"—"An Apple a Day Keeps the Doctor Away"
No other fruit succeeds over so wide a range of territory and under such diversified climatic conditions, and no other fruit brings so sure a return to the grower in r oportion to time and money expended upon its production. It has few wals among cultivated fruits. Its mild and plesant acid is a panacea for many of the ills that the human race is heir to. No fruit can be more pleasant to the palate or more beautiful to the eye than the rich, ripe apple when plucked from the tree, or more luscious and healthful when cooked. and healthful when cooked.

The grades and prices are as follows:

|             | Grade     | Age      | Caliper           | Each     | 10     | 100   |
|-------------|-----------|----------|-------------------|----------|--------|-------|

Winter Banana—Flesh golden-yellow; fine grained and julcy.

low; fine grained and juicy.

### Quince

Orange Quince—Large; roundish, with short neck; beautiful bright golden yellow; an old favorite for making jelly. Standard size, \$1.25 each; \$10.00 per 10.

### **Nut Trees**

Soft Shell Almonds—1.X.L.—Very popular variety s, large and plump. Each, \$1.00; \$9.00 per 10.

American Black Walnut—6-8 ft. Each, \$2.00; \$15.00

Utah English Walnuts-Hardy in any section or situa-

tion where apricots and peaches can be grown.

2-3 feet—Each, \$1.25; \$10.00 per 10, charges prepaid.

3-4 feet—Each, \$2.00; \$15.00 per 10, prepaid.

4-6 feet—Each, \$2.50; \$20.00 per 10, prepaid.

Every Orchardist is vitally interested in keeping his trees free from Insects, Pests and Diseases. We carry a most complete line of Insecticides, Fungicides, and Spray Pumps and Dusters for every purpose, pages 83-86 inclusive.

**Apricots** 

For canning, evaporating and drying purposes, as well as for use in the fresh state, the fruit can hardly be excelled

|           | Grade   | Caliper | Each   | 10     | 100   |
|-----------|---------|---------|--------|--------|-------|
| Extra     | 5-7 ft. | 11 /16" | \$1.00 | \$8.50 | \$    |
| Standard  | 4-6 ft. | 9 /16"  | .75    | 6.00   | 50.00 |
| Mail Size | 3-4 ft. | 7 /16"  | .65    | 5.50   | 45.00 |
| 66 66     | 2-3 ft. | 5 /16"  | .55    | 4.50   | 35.00 |
|           |         | ,       |        |        |       |

Chinese-Large, round, deep yellow. Late June. Moorepark—Very large, yellowish-green; best variety for no colder sections than Salt Lake. Late June.

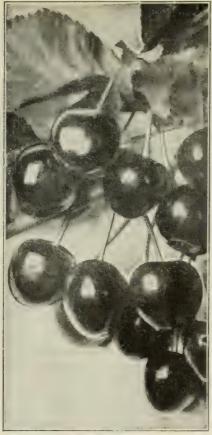

Superb—The most productive hardy apricot; medium size, light salmon color.

### NECTARINES

The Nectarine has a smooth skin like the plum. It is tike the peach in other ways and requires the same culture. Its pungent, sprightly flavor is remindful of both, but with an added deliciousness all its own. Set trees 16 to 18 feet apart.

Boston—Bright yellow, red cheek; flesh yellow, free-stone, fine flavor. Standard Size—Each, \$1.00; \$9.00 per 10. Mail Size—Each, 85c; \$7.50 per 10.

Transportation on all trees marked Mail Size will be prepaid at catalog prices. Larger sizes by Express or Freight at purchaser's expense.

Bing Cherries

### PLUMS

Plums will accommodate themselves to most situations not absolutely wet, but produces finest fruit and most certain crops on heavy, clayey soil.

|           | Grade   | Caliper  | Each   | 10     | 100   |
|-----------|---------|----------|--------|--------|-------|
| Extra     | 5-7 ft. | 11 /16"  | \$1.00 | \$8.50 | 8     |
| Standard  | 4-6 ft. | 9/16"    | .75    | 6.00   | 50.00 |
| Mail Size | 3-4 ft. | 7 /16"   |        | 5.50   | 45.00 |

| Improv    | ed French | h-This  | much   | larger   | than  |

the old well known brown French and superior

in every way. Fruit red and sweet.

Hungarian—A large dark red.

talian-Follemburg Prune—Large oval, dark
purple; flesh greenish-yellow; separates freely
from stone; best for drying on the market.

August-September. Best commercial sort.

### CHERRIES

Should be planted in light, well drained soils. There is always a brisk market demand, and in localities where they can be grown no home orchard is complete without a few "Sweet" and one or more "Sour" or Pie Cherry Trees. Prices according to grade are as

|           | Grade   | Caliper           | Each   | 10      | 100   |
|-----------|---------|-------------------|--------|---------|-------|
| Extra     | 5-7 ft. | 11 /16" and up    | \$1.25 | \$10.00 | \$    |
| Standard  | 4-6 ft. | 9 /16" to 11 /16" | 1.00   | 8.50    | 75.09 |
| Mail Size | 3-4 ft. | 7 /16" to 9 /16"  | .85    | 7.50    | 65.00 |
| 14 44     | 2-3 ft. | 5/16" to 7/16"    | .70    | 6.00    | 50.00 |

### SWEET CHERRIES

Bing-Very large, dark brown -almost black—rich and delici-is. Ripens in July. Lambert—Immense, deep rich ous.

Napoleon-Very large pale yellow, red cheek. June.

red; melting juicy.

May Duke-Fruit dark red; juicy and rich. June.

Black Tartarian—Very large, purplish-black, mild and sweet. Ripens first of July.

Winsor - Fruit large; heavy arer; beautiful dark color, albearer; beamost black.

### SOUR CHERRIES

Early Richmond-Medium, dark

Montmorency-Large red. Late

June to July.

Reine Hortense—Sweeter and larger than May Duke. Color deep red. Ripens in August.

### PEACHES

Probably the finest of our fruits, everybody delights in the flavor of a fine juicy Peach. Should plant in light soils, does not succeed well in low, heavy situations. Prices according to grades as follows:

|           | Grade   | Caliper           | Each   | 10     | 100   |
|-----------|---------|-------------------|--------|--------|-------|
| Extra     | 5-7 ft. | 11 /16" and up    | \$1.00 | \$8.50 | \$    |
| Standard  | 4-6 ft. | 9 /16" to 11 /16" | .70    | 5.50   | 45.00 |
| Mail Size | 3-4 ft. | 7 /16" to 9 /16"  | .55    | 4.50   | 35.00 |
| 66 66     | 2-3 ft. | 5 /16" to 7 /16"  | .40    | 3.50   | 25.00 |

Alexander—Handsome, crimson. Ripens about July 4, Freestone.

Crawford's Early — Freestone. Fruit very large, oblong, yellow with fine red cheek. Flesh yellow, juicy and sweet. August.

Greensboro—Double the size of Alexander, ripening at the same time. Flesh white, juicy and good. July.

J. H. Hale—Large orange-yellow, considered by many superior to Elberta. Freestone.

Orange Cling—Very large; yellow with dark crimson cheek; flesh golden-yellow.

Health Cling—Large oblong, creamy white, rich and luscious;

valuable canning peach.

May Flower — The earliest peach on the market; red all over; flavor excellent. Freestone.

Elberta—A leading market variety, large, handsome bright
yellow overspread with crimson;
juicy, fine shipper. Freestone,
Casman—Color creamy white
or pale yellow, with deep blush;
freestone. August to September.
Dal's Cling—New. Large, handsome, deep red of rich, luscious

flavor

Red Bird Cling—The earliest of the large clings. Color creamy-white, overspread with bright,

white, overspread with bright, glowing red.

Triumph — Ripens in early July; color greenish yellow, flesh vellow with red stains.

July; color greenish yellow, flesh vellow with red stains.

Tuscan Cling—Large; yellow; heavy bearer and one of our best Clings; fine shipper. In great demand by canners on account of its early ripening, being one of the first Clings to ripen.

### PEARS

The cultivation of this noble fruit is extending as its value is appreciated. One important point in the management of the pear is to gather fruit in the proper time. Summer pears should be gathered at least ten days before they are ripe; and August pears at least a fortnight. Winter varieties may be left until there is danger of frost. Place in a dark room until fully matured. The pear succeeds on most soils, but probably does better on rather sandy loam. Prices according to grade as fallows. according to grade as follows:

|           | Grade   | Caliper           | Each   | 10     | 100   |
|-----------|---------|-------------------|--------|--------|-------|
| Extra     | 5-7 ft. | 11 /16" and up    | \$1.00 | \$8.50 | 8     |
| Standard  | 4-6 ft. | 9 /16" to 11 /16" | .75    | 6.00   | 50.00 |
| Mail Size | 3-4 ft. | 5 /16" to 9 /16"  | .65    | 5.50   | 45.00 |
| 66 66     | 2-3 ft. | 5 /16" to 7 /16"  | .5.5   | 4.50   | 35 00 |

Bartlett — Fruit large, cl lemon yellow, highly flavor very juley. September. Beurre D'Anjou — Large, clear flavored:

vinous flavor; one of the leading late autumn varieties.

Keiffer's Hybrid — Rarely ever blights. Fruit of fine size, rich colorand good quality. October and November.

Parrish Favorite--New. tiful large winter pear, ripening

November-December keep until spring, retaining its captivating flavor. Never blights Best winter pear.

Clapp's Favorite -Summer pear, resembling Bartlett. Ripens in August.

Seckel — Small, yellowish-brown, tender, juicy, melting. Ripens in September.

Winter Nellis—A good winter variety of medium size.

Transportation on all Trees marked "Mail" size will be prepaid at catalog prices. Larger sizes by Express or Freight at purchaser's expense.

### ORNAMENTAL TREES

A city street is not attractive unless softened by the foliage and branches of trees. They shelter the home from excessive heat and dust, add charm to the finest buildings and hide the untidy and unsightly places. There is nothing that adorns a city more than fine shade trees. There is an untiring loveliness as they continually change with the seasons. At the first breath of spring, the swelling buds open into dainty flowers, often inconspicuous, but none the less beautiful. Then follows the delicate tints of expanding leaves that deepen into the richness of mid-summer greens. The chill of autumn brings new beauty into the myriad of gorgeous hues that come almost overnight.

Prices are for different sized trees, all f. o. b. our Nurseries or Salt Lake City, and in all cases good value will be given, socording to price charged. Ten per cent discount on orders of 5 trees or more of one variety and size. Special prices made on lots of 100 up.

### Allanthus (Tree of Heaven)

Glandulosa—A rapid growing, lofty tree, long, elegant foliage. Exempt from disease and insects. Useful tropical effects, withstands dust and smoke better than most any other three. 6-8 feet, \$2.00 each; 8-10 feet, \$2.50 each.

### Ash

American White (Fraxinus Americana)—A rapid growing native tree of fine symmetrical outline. A valuable street or park tree. Timber is largely used. Price, 6-8 ft., \$1.00 each; \$8.50 per ten; 8-10 ft., \$1.75 each; \$15.00 per ten.

Blue Ash (Fraxinus Quadrangulata) —Very shapely symetrical tree for Park or Avenue, Bark smooth of deep blueish green, leaves larger than other varieties of Ash, deep green changing in autumn to reddish purple. 6-8 ft., \$2.00; 8-10 ft. \$2.50.

Green Ash (Fraxinus Lanceolata)— Shapely round top with dark green foliage. Price, 6-8 ft., \$1.50 each; 8-10 ft., \$1.75 each.

European Mountain Ash (Sorbus Aucuparia) (Rowan Tree)—Handsome small tree of erect growth. Leaves pinnate, leaflets serrate. Flowers white, in flat clusters, four or five inches broad, followed by rather large, and begrings. red berries. Very handsome at any season. 6-8 ft., \$2.00 each; 8-10 ft., \$3.00 each; 10-12 ft., \$4.00 each

### Box Elder

Ash-Leaved Maple (Acer Negundo) Ash-Leaved Maple (Acer Negundo)

—A fine, rapid-growing avenue tree;
withstands both cold and drought,
thrives where other trees fail. 6-8 ft.,
\$1.00 each; 8-10 ft., \$1.50 each;
10-12 ft., \$2.00 each.

### Birch (Betula)

Cut-Leaved Weeping Birch (Betula alba pendula laciniata)—Very beautiful form of European White Birch. The main trunk, with snow-white bark, grows straight as an arrow. Branches ipread but slightly, while the fine slender shoots hang vertically. The foliage is fine and deeply cut. Many conage is fine and deeply cut. sider this the most beautiful deciduous tree in cultivation. 6 to 7 ft., \$3.50 each; 7 to 8 ft., \$4.50 each.

European White Birch (Betula Alba) ±uropean White Birch (Betula Abba)
—Of which Coleridge says "Most beautiful of forest trees, the lady of the
woods." Tall, upright, distinctive
white bark. 6-8 feet, \$2.00 each;
8-10 ft., \$2.50 each.

### Catalpa

Bungei (Umbrella Tree) beautiful globe-shaped tops being grafted high on clean straight stems form one of the most valuable trees for landscape designing especially for formal effects. One year head, \$2.00; two year old heads, \$2.50.

Speciosa (Western Catalpa)grower producing large panicles of fragrant flowers, delicately marked with violet and yellow. 6-8 ft., \$1.50 each; 8-10 ft., \$2.00 each; 10-12 ft., \$2.50 each.

Bechtels Double Flowering—Most beautiful of all the flowering Crabs; hardy, of medium size covered in early spring with large, beautiful double, fragrant flowers, resembling small roses of a delicate pink. Ideal for a small yard. 3-4 feet, \$1.50 each; 4-6 feet, \$2.00 each.

### Flowering Cherries

Double White Cherry (Prunus Avium Florepleno)—A charming small tree with branches completely covered with a mass of large double white flowers in May. 4 to 5 feet, \$2.00 each.

Double Pink Flowering Jananese (Prunus Pseudo cerasus florepleno)— Famous flowering cherries of Japan. Beautiful specimens, blooming in pro-fuse panicles. 4 to 5 feet, \$2.25 each.

### Cornus

#### ( Dogwood)

White Flowering Dogwood (Cornus Florida)—Flowers white, 3 to 3½ inches in diameter, produced in spring inches in diameter, produced in spring before leaves appear; very abundant, showy and durable. Foliage grayish green, glossy and handsome; in the autumn turning to deep red. Spreading, irregular form, growing 20 to 25 feet high. 6-8 feet, \$2.00 each.

### Elm (Ulmus)

American Elm (Ulmus Americana) -Tall and stately with a graceful, wide-spreading form vase-like, densely covered with a rich, bright green foliage. 6-8 ft., \$2.00 each; 8-10 ft.,

English Elm (Ulmus Campestria)
—A native of Europe; a noble rapidgrowing tree, forming a dense head;
a desirable tree for streets, avenues,
etc. 6-8 ft., \$2.00 each; 8-10 ft.. etc. 6-8 f \$3.00 each.

Moline Elm—This is a new attractive type which is propagated entirely by budding in order that the beauty of the original form may be retained. It was first discovered and propagated by Klehm's Nurseries, from a tree found growing near Moline, Ill. The young tree is very rapid and erect in growth, in shape somewhat like a Lombardy Poplar, with leaves often 6 inches across. The older trees become more spreading with more nearly horizontal branches. 6-8 ft., \$2.50 each.

Camperdown Elm (U. scabra pendula)—Always top grafted. Limbs grow outward and downward, glving the tree a remarkably picturesque aspect. 2 yr. Heads, \$3.75 each.

### Golden Chain (Laburnum Vulgare)

A rather small quick-growing tree with soft, deep green clover-shaped leaves retaining their color until late in Fail. Flowers fragrant, bright yellow, in long, drooping racemes, suggestive of yellow Wistaria borne on a tree. 4to 6 ft., \$1.75.

Catalpa Bungei

Linden

American (Tila Americana)—A stately tree, growing 60 to 80 feet tall, forming a fine, broad round head with large, shining cordate leaves. Valuable for its beautiful white wood. Its flowers appear in yellow drooping clusters intensely fragrant. 6-8 ft., \$2.75 each; 8-10 ft., \$3.75.

### Peach (Double Flowering)

Amygdatus Persica—Of all the spring flowering trees the Double Flowered Peaches are the most bril-Flowered Peacities. The entire tree liant and beautiful. The entire tree and every branch is simply a mass of an every branch is simply a mass of appearing before the blossoms, appearing before the leaves, making an immense bouquet of gorgeous color. Fast growing and very hardy, they should be more planted, but placed in the background as the tree is not especially desirable when the flowers are gone. Trim back after the flowers fall, to make plenty of new growth for next season's bloom. Double White, Double Pink, Double Red. 3ft., \$1.50; 4 ft., \$2.00

#### Hawthorne

(Flowering Thorns)
Handsome dwarf trees with shiny leaves of attractive shape and color; blooming in profusion late in spring with compact clusters of small, rose-like flowers. These are followed by large red fruits and autumnal color-

English Double Flowering White (Crataegus Oxyacantha fl. pl.—The double white form of the fragrant English Hawthorne; flowers in May and June. Color changes to pink and June. Color changes to pink before blossoms fall. 4-6 ft., \$2.50

Bolleana Poplar

Babylonian Weeping Willow

Free Landscaping Advice Cheerfully Given Upon Request.
Let Us Help You With Your

Paul's Double Scarlet (Crataegus Monogyna Pauli)—Flowers deep crimson scarlet; very double, followed by large red berries borne freely. This is one of the most attractive small trees for solltary specimens or groups, as showy in fruit as when in bloom. 4-6 ft., \$2.00 each; 6-8 ft., \$3.00.

#### Horse Chestnut

White Flowering (Aesculus hippocastanum) — The handsome European species; has magnificent spikes of white flowers borne in great profusion and sweetly scented. 5-6 ft., \$2.00 each; 6-8 ft., \$3.50 each; 8-10 ft., \$5.00 each.

#### Locust

Common or Black Locust (Robina pseudacacia)—A native American tree of extremely rapid growth, valuable for timber as well as quite ornamental. The flowers are in long, pendulous racemes, white and very fragrant, appearing in June. 4-6 ft., 50c each; 6-8 ft., 60c each; 8-10 ft., \$1.00 each; 10-12 ft. \$2.00 ft., 60c each: 10-12 ft., \$2.00.

Pink-Flowering Locust (Robina pseudacacia decaisneana) — Remarkable for its vigorous growth and fine, pink-colored flowers, which it produces in creat abundance. Entirely distinct from Rose Acacia. 6-8 ft., \$2.50 each; 8-10 ft., \$3.00 ft., \$3.00.

Honey Locust (Gleditala triacanthos)

—A large, vigorous tree, with widespreading branches, feathery, fern-like
leaves, and a stout armament of thorns.
Makes a fine defensive hedge. 4-6 ft.,
75c each; 6-8 ft., \$1.00 each; 8-10 ft., \$1.50 each.

#### Maples (Acer)

Silver (Dasycarpum)-A large tree with wide-spreading branches and drooping branchets. Very fast grower, makes dense shade and thrives in any soil. 6-8 ft., \$1.00 each; 8-10 ft., \$1.50 each; 10-12 ft., \$2.50 each.

Norway (A. handsome tree, (A. Platanoides)handsome tree, of spreading rounded form, with shiny, deep green foliage. Usually very symmetrical. One of the most desirable species for the street, park or lawn. 6-8 ft., \$2.25; 8-10 ft., \$3.50; 10-12 ft., \$4.50 each

Schwedleri—A red and purple, contrasts brightly with the delicate green of other trees in mid-summer they are purplish green, in autumn golden yellow. 6-8 ft., each, \$3.50; 8-10 ft., \$4.50 each.

Sugar—Straight, spreading, symmetrical. Rich autumn tints of clear-yellow and scarlet. 6-8 ft., \$3.00 each; 8-10 ft., \$4.00 each.

Sycamore (A. Pseudo platanus)— Rapid, upright growth; smooth, ash-gray bark; leaves large, five-lobed, deep green above and glaucous beneath. 6-8 ft., \$2.50 each; 8-10 ft., \$3.00 each; 10-12 ft.. \$4.00 each.

### Mulberry

Mulberry, Russian (Morus tatarica)— Rapid growth; round headed, profuse foliage; used to attract birds. 6-8 feet, \$1.50 each;8-1 0 ft., \$2.50 each.

Mulberry Tea Weeping (Morus aloa pendula)—The long, slender, drooping branches of this tree give it a very unusual and much admired appearance. Prized for lawn planting. 2 year heads \$3.75.

#### Olive

Russian (Elaeagnus angustifolia)— Its foliage is of a remarkable silvery hue, showing up in striking contrast to that of the green of other shrubs or trees. It is admirable for tall back-grounds where unusual color tones are desired. It also is useful for hedges, either trimmed or untrimmed. 5-6 ft., \$1.00 each; 6-8 ft., \$1.50 each. Plane Oriental

European Sycamore; Oriental Plane (P orientalis)—This splendid tree is almost perfection for street and avenue use. Without training it forms a fine, spreading, well-rounded head. Almost entirely free from disease or posts. entirely free from disease or pests. Leaves are large, dark green and deeply lobed. Bark flakes off from trunk and older limbs. Everything considered, we believe this is one of the very best street trees. 8-10 ft., \$4.50 each; 6-8 ft. \$3.00 each ft., \$3.00 each.

Poplar (Populus)

Poplar (Populus)

Bolleana (P. Boleana)—A tall columar rapid growing, hardy tree. Leaves triagular, the borders serrate, glossy green above and silvery beneath. 4-6 ft., 500 each; 10-12 ft., \$1.50 each.

Carolina (P. deitoides Carolinensis)—Of rapid growth. Very desirable when quick shade is wanted. 4-6 ft., 350 each; 10-12 ft., \$1.25 each.

Lombardy (P. nigra italica)—Widely known and esteemed for its decided individuality. Grows to a great height; narrow and columnar. Forms a strong contrast with most other trees, hence of great value in landscape work. 10-12 ft., \$1.50 each; 8-10 ft., \$1.00 each; 6-8 ft., 75c

Flowering Plum

Flowering Plum

Purple-Leaved (Prunus Pissardi)— Handsome form, with rich purple leaves. Covered in early spring with beautiful white flowers, later with wine-fed fruits. 3-4 ft., \$1.00; 4-5 ft., \$1.50. each.

Tribola (Double Flowered Plum) A charming shrub of vigorous growth. Very early in spring, before its leaves appear, the whole tree is decked in a fleecy cloud of very double light pink blossoms. Its effect on a still leafless landscape is very bright. 3 to 4 ft., \$1.25 each; 4 to 5 ft., \$1.75 each.

American Judas (Cercis Canadenals)
—Striking ornamental trees loaded with
a mass of pea-shaped pink blossoms in early spring, before the leaves appear. 3-4 ft., \$1.75; 4-5 ft., \$2.00 each.

Sycamore
See Plane Oriental—Do not stock

See Plane Oriental—Do not stock American (Platanus Occidentalis).

Tulip Tree
Lirlodendron tulipifera)—Tall, pyramidal habit; bluish green, glossy, fiddleshaped leaves; flowers tulip-like, greenish yellow. 3-4 ft., \$1.50; 4-6 ft., \$2.00

Walnut

Black (Jugians Nigra)—The trees become very large, shapely and make excellent lawn trees. They are of relatively quick growth. As nut producers, they are very prolific. 4-6 ft., \$1.50; 6-8 ft., \$2.00 each.

Willow

American Black (Salix nigra)—Hardy under most trying situations, thrives best where soils are moist and water plentiful. 6-8 ft., 65c; 8-10 ft., 85c; 10-12 ft., \$1.25 each.

Golden (Salix vitellina aurea)—Its brilliant colored twigs makes this variety very valuable in landscape work. Good for windbreaks. 6-8 ft., 75c; 8-10 ft., \$1.00; 10-12 ft., \$1.50 each.

Pussy Willow (Salix discolor)— A large shrub or small tree, very popular for all ornamental purposes because of American Black (Salix nigra)-

for all ornamental purposes because of the attractive catkins formed on the branches in early Spring. 4-6 ft., \$1.50; 6-8 ft., \$2.00 each.

Babylonian Weeping Willow (Sallx babylonica)—A tree of stately appearince with long, pendant branches sway-ing their silvery foliage in every breeze: quick to take hold when transplanted: will give a finish to a lawn not planted: Will kive a linish to a lawn how obtained in any other tree. This, too, makes a good screen, and whether planted on moist or dry grounds, thrives with unusual vigor. 8 to 18 ft., \$1.75 each; 6 to 8 ft., \$1.25 each.

## **Evergreen Shrubs and Trees**

Both Public and Home grounds should have some of these beautiful specimens to give that bit of color needed to

Both Public and Home grounds should have some of these beautiful specimens to give that bit of color needed to set off the rest of the planting.

Planting season for spring from March 1 to May 15, for fall from about September 15 to November 15, depending on season and locality. We can secure selected specimens in many varieties on which we would be glad to quote prices on receipt of list, stating kinds, sizes and numbers wanted.

All Evergreen Trees will be carefully dug with ball of earth about the roots and tightly sewed in burlap and will stand transportation with little risk of loss. In planting it is not necessary to remove the burlap. Place tree in properly prepared hole, cut burlap in seveal placs, firm earth tightly about ball of roots, water, and mulch.

Silver Blue Cedar

Arbor Vitæ (Thuya)

American (White Cedar) — Erect, pyramidal habit, with soft bright green foliage, dense from ground up; grows rapidly and soon forms a most beautirapidly and soon forms a most beautiful tree. Like other types of Arbor vitae, the American can be trimmed at will, or even closely sheared when sufficiently developed. 1½ to 2 ft., \$2.00; 2 to 3 ft., \$3.50; 3 to 4 ft., \$5.75 each.

Globosa—Forms a dense deep green, handsome globe 12-18 in., \$3.50; 18-24 in., \$5.00 each.

Pyramidalis -- Most compact and erect of the entire species, in form almost a counterpart of the Irish Juniper. Foliage a deep green, retaining color. 18-24 in., \$3.75; 2-3 ft., \$6.00; 3 to 4 ft., \$8.00 each.

### Box (Buxus-Boxwood)

Ideal for use in tubs at entrances, balconies, terraces and elsewhere around the home. They are for sumer decoration and must be moved inside, except in very mild climates.

Pyramidal—Very attractive. 1% ft., \$4.00; 2-3 ft., \$6.00; 3-4 ft., \$8.00

each.

Juniper (Juniperus)

lrish—Erect, slender and formal in
habit; foliage sage green, very compact; making a splendid column, sometimes 15 to 20 feet high; much used
in cemeterles. 2-3 ft., \$4.00; 3-4 ft., \$6.00 each.

Red Cedar (J. Virginia)-This is Red Cedar (J. Virginia)—This is the well known native tree, so much appreciated where the softnss in appearance is required in the landscape effect. 2 ft., \$3.00; 3 ft., \$4.50; 4 ft., \$6.00; 5 ft., \$7.50; 6 ft., \$10.00 each. Sliver Blue Cedar (J. Virginia Glauca)—The entire young growths of this beautiful variety, are silverywhite which changes as they develop to an attractive bluish green. The tree

Pfitzer Juniper (J. Chinensis Pfitzeriana) — One of the handsomest of the semi-dwarf creeping junipers. Of billowy form and elegant appearance. 1½-2 ft. spread, \$5.00; 2-3 ft. spread,

\$7.00.

Waukegan—A highly developed selection from Sabina Prostrata; ground-covering, closely compact. The beau-tirul silvery blue color assumes a rich ournle hue with the first autumn frosts. 1 1/2 -2 ft., \$6.00; 2-3 feet spread, \$7.50.

### Contoneaster

Franchetti—Spreading, drooping shrub, 5 to 6 ft., medium to large leaves, dark green with bronzy-sitvereverse. Pinkish-white flowers followed by well scattered, orange-red berries of good size. 18-24 in., \$2.00; 2-3 ft., \$2.50.

2-3 ft., \$2.50.

Horizontalis—Low, flat, spreading, bright glossy green, very attractive. Covered in April with masses of tiny pink flowers and the fall with minute, brillian scarlet berries. The foliage also turns scarlet and it is practically deciduous in winter. practically dec 18-24 in., \$2.00.

Euonymus

No collection of plants nor land-scape effect is quite complete without beautiful plants Admirably useful and attractive when used in groups, edgings, hedges, corner plantings and in

Japanese (E. Japonicus) - Fine, up right shrub of moderate size and rather compact growth. Foliage and bark are clear, dark green. Balled, 1-2 ft., \$1.75; 2-3 ft., \$2.50; 3-4 ft., \$4.50

Silver Variegated (E. Japonicus albo variegatus) -Of strong, erect growth. Wariegatus very light green. Leaves almost white around edges, changing to yellow as season advances. Balled, 2-3 ft., \$3.00; 3-4 ft., \$4.50 each.

Golden Wariegated Euonymus (E., Sanches Leaves al-

japonicus aures variegatus)—Branches green; leaves yellow in center, dark green around edges. Color about green around edges. Color about equally divided. Occasional leaves either all yellow or green. Balled, 12 to 18 in., \$1.75; 2 to 3 ft., \$3.00; 3 to 4 ft., \$4.50.

### Pine (Pinus)

Mugho (Dwarf Pine)—Leaves short, stin and formal, thickly distributed in tufts over the branches in a crowded way somewhat similar to Austrian, with an equal depth and richness of color; globular form. 15-18 inches, \$5.50 each.

Pyracantha (Firethorn)

Burning Bush, P. coccinea (Lalandli) Deservedly popular on account of its clean, upright growth, bearing a great profusion of small flowers in great profusion of small flowers in flat corymbs, followed by a mass of orange-red berries in early fall (which remain on the plant until spring) firm green foliage. It is closely allied to the Cotoneasters, but is easily distinguished because of its crenulate leaves and thorny branches. Attains height of 10 feet, but can be trimmed to any lower height desired. 1½-2 ft., \$1.50 each; 2-3 ft., \$2.00 each; 3-4 ft., \$3.25 each.

Mahonia Aquifolia (Oregon Grape of Holly-leaved Ashberry)—A beautiful ever-green shrub, with smooth shining holly

leaves; bright yellow flower clusters in May, and blue berries. The leaf color varies capriciously throughout the year, assuming all shades of green, with flecks of red and bronze. As-sociates well with dwarf and medium shrubbery, of special value in shady locations. 12-18 inches, \$1.75 each; 18-24 inches, \$2.50; 2-3 ft., \$3.50 each.

### Mountain Laurel

Kalmia Latifolia—One of the most attractive broad-leaved evergreens because of its splendid glossy green foliage and its masses of showy pink or rose colored flowers, which appear in profusion early in the Summer. The plants prefer a light, loose soil, free in profusion early in the Summer. The plants prefer a light, loose soil, free from lime, and will grow in either shade or sun, but flower more freely in the sunlight. Mulch the soil well with oak leaves or peat moss in the Fall, and dig them under in the Spring. I to 1½ ft., \$2.75 each; 1½ to 2 ft., \$3.75 each.

Spruce Colorado Blue Spruce (Picea Pungen Glanca—A most beautful variety discovered and disseminated from the Rocky Mountains; it is the rarest blue of any evergreen; very distinct in fol-lage and growth; fine, compact habit. in great demand as a lawn tree where fine specimens are established proving the best of all evergreen trees for the lawn. 1½-2 ft., \$5.00 each; 2-3 ft., \$7.50; 3-3½ ft., \$9.50 each.

Colorado Spruce (Picea Pungens) Similar to above except foliage is light green color 1-2 ft., \$3.50; 2-3 ft., \$5.00; 3-4 ft., \$7.50.

Engelmanni-Makes fine symmetrical specimens. Under side of leaves light blue. 2-3 ft., \$5.50; 3-4 ft., \$8.00.

Norway Spruce (P. excelea)—A compact, symmetrical tree; the branches assuming a graceful, drooping habit with age. Cones very large. Follage light green in this climate. Extremely hardy and of rapid growth. The original Christmas tree of northern Europe. 1½-2 ft., \$3.00 each; 2-3 ft., \$4.50: 3-4 ft., \$6.00 each.

Colorado Blue Spruce

## Hardy Ornamental and Flowering Shrubs

There is nothing which so quickly, and for so little cost, add so much to the beauty, cheerfulness and home-like appearance of a place as an assortment of hardy shrubs. They are permanent improvements which increase in size, value and beauty, year after year. Our price is for strong, healthy, field grown shrubs, two to four feet high, depending on the variety, some making higher growth than others.

For your convenience we have indicated in each description the height, spread, and blooming period. For example, "H 3-4, S 3-4, June." may be interpreted "height 3 to 4 feet, spread 3 to 4 feet, flowers in June." It is understood that the sizes given are only approximate, and will vary considerably according to soils and climate.

Shrubs marked (\*) can be grown in partial shade, but they will also thrive in full exposure to the sun.

### Flowering Almond

Amygdalus—A most beautiful shrub, is one of the lovellest. The flowers are borne on its slender branches during May, and are very fragrant. H 3-5, S 4. Double pink. Each, \$1.00 Double white. Each, \$1.00

### \*Althea (Rose of Sharon)

The Altheas are among the most valuable of our tail, hardy shrubs on account of their late season of blooming, which is from August to October, a period when few shrubs are in flower. They are extensively used as hedge plants, for which they are admirably adapted. We offer in four distinct colors. Red, Pink, White, and Purple. H 10-12, S 6-8.

### \*BERBERIS (Barbarry)

Japanese Barberry (E. Thunbergil)
—Beautiful shrub for hedges, border, screens or general purposes. Very compact and needs no attention with the shears. Foliage a rich green, changing in the autumn to brilliant scarlet and gold. Following the white flowers are scarlet oval berries which are borne into the winter. Two-year, 18-inch shrubs, 55c each; ten for \$5.00; \$40.00 per 100. H 3-4, S 3-4.

\*Box Barberry (Thunbergii Minor)
—A very dwarf form of the Japanese
Barberry. An admirable plant for low
hedges, borders, edgings and foreground planting.

### New Red Leaved Barberry

(B. Thunbergil Atropurpurea)—In habit of growth and in fruiting it is identical with the popular Japanese Barberry, but its foliage as soon as it develops in early spring assumes a rich bronzy-red color, this coloring becomes more intense and richer during the hot summer months Late in the autumn it takes on the varied brilliant high colors of the ordinary Japanese Barberry followed by the same brilliant scarlet berries which remain on the plant the entire winter. Each, \$1.00; 10, \$9.50.

### Buddlela variabilis Veltchlana

Butterfly Shrub, Summer Lilac One of the most desirable summer flowering shrubs, beginning to bloom in July, it continues until cut by severe frost. The flowers are of a pleasant shade of violet mauve, and are borne in dense cylindrical spikes from 12 to 15 inches in length by 3 inches in diameter; it succeeds everywhere and flowers freely the first season planted. H 5-6, S 4-5.

Caragana

Siberica (Siberian Pea Tree)—Compound leaves bright green; numerous small clusters of yellow flowers. H 8-10, S 8, May and June.

### \*Dogwood (Cornus)

Red Siberian (C. Sibirica)—Produces cream colored flowers in June light blue fruits, and bright red twigi and branches. H 6-8, S 6.

Golden Twig (C. Stoionifera, Lutea)
—Yellow stemmed. Clusters of white
flowers, stems and branches are yellow.

### Calycanthus

(Sweet Shrub) (C. floridus) — An old-fashloned shrub known to everyone. Its flowers are deep reddishbrown, sweet-scented; deep green, glossy foliage, free from disease, H 5-6, B 4-5.

### Cotoneaster

Simonsii—White, June, Semitevergreen, quite erect. Leaves are dark green and usually adhere late in the season Showy bright red fruit borne on the slender, erect branches all along the stems. H 6-7, S 5-6.

### Cydonia

Japan Quince (Japonica)—A single shrub on the lawn is very attractive; brilliant crimson flowers, among the first in the spring. H 4-5, S5. Each, \$1.00; ten for \$8.50.

### Currant (Ribes)

Aureum (Missouri Golden Currant)
—Grows to a height of from 4 to 7
feet. Flowers fragrant and useful for
cut-flowers. Cultivated for its many
pretty, spicy, sweet-scented, bright
yellow flowers in May, and its clean,
attractive foliage and bright autumnal
tints. H 4-5, S 5.

#### Deutzia

Hardihood, fine habit, luxuriant follage and profusion of attractive flowers render this among the most beautiful and most popular of flowering shrubs Flowers in June and through July and August.

Crenata (Rosea Piena)—Double light pink; very desirable tall shrub. H 6-8, S 6.

Gracilis — A favorite dwarf bush, covered with spikes of pure white flowers. H 2-3, S 3.

Pride of Rochester—Fine, tall growing double white flowering variety. H. 6-8, S 5 June.

### Exochorda

Pearl Bush—Vigorous grower; dazzling white flowers in numerous terminal racemes. A narrow, upright shrub which prefers a moist, fertile soil. H 6-8 S 4, May.

### Euonymus

Americana (Strawberry Tree) — American Burning Bush. Very showy in autumn when loaded witu scarlet seed pods, from which orange-colored berries hang on slender threads. If 8-10, S 6.

#### Forsythia (Golden Bell)

Fortunei — Strong, erect habit; bright golden-yellow flowers in early spring. H 6-8, S 6 April.

Suspensa (Weeping Golden Belt)— Tall willowy growth, branches gracefully arching, covered with golden yellow bells. H 6 April.

The shrubs offered in this list are strong two and three-year-old Field Grown, 2 to 4 feet, depending on variety. Unless otherwise specified, price 85c each; \$7.50 per ten; \$65.00 per 100.

Deutzia Gracilis

Fringe Tree

Purple (Smoke Tree). Rhus Cotinus.

—A conspicuous spreading shrub or small tree with large clusterly round leaves; overhung in midsummer by mist-like clouds of tiny flowers. These mist-like clouds of tiny flowers. These billowing panicles are a light lavender when fresh, very persistent, and give the impression of smoke at a distance. H. 8-10, 9 8. Each \$1.50.

White. Chionanthus Virginica—A very showy shrub, growing to large size; with large leathery, shiny leaves, and lace-like white flowers borne in gracefully drooning panicles. H. 8-10.

and lace-like white flowers borne in gracefully drooping panicles. H 8-10, S 8. Each \$1.50.

Honeysuckle Bush (Lonicera)

The upright Honeysuckle have bright and pretty fragnant flowers, followed by showy berries that last through the fall. Make very desirable and attractive shrubs.

Tartarian (Lonicera Tatarica) — Most

Tartarian (Lonicera Tatarica)—Most popular of the bush varieties. Foliage dark glossy green, blooms in June. H 8-10, S 6-8. Red, Pink, White. Fragrantissima, Winter Honeysuckle,—Small, deliciously fragrant, white flowers tinged with yellow in the early Spring before the leaves appear. Holds its green foliage until midwinter. H

Spring before the leaves appear. Holds its green foliage until midwinter. H 6, S 4-5, April.

Morrowl—A handsome Japanese variety with white flowers during May, but especially valuable for its bright and red fruit during the summer and autumn months. H 6-8, S 5-6.

\*Hydrangea

Aborescens Grandiflora (Hills

Aborescens Grandiflora (Hills of Snow or Snowball Hydrangea)—Snow white blossoms of largest size; flowering from early June until late July. H 3, S 3. Each, \$1.00; ten, \$8.50. Paniculata Grandiflora—Unsurpassed for lawn, hedge or cemetery planting; hardy in all localities, needs no protection in winter; blooms the first and every season in July and August and continues in bloom for two or three months; pure white to pink, and finally to a beautiful rich coppery red. H 5-6, S 5. Each, \$1.00; ten for \$8.50.

\*Hypericum

Prolificum — Shrubby St. John's-Wort. Bright yellow flowers are borne in branching terminal clusters. Narrow, lustrous dark green leaves cover the numerous compact branches. H 2-3, S 2-3 July.

\*Ligustrum (Privet)

Amurence Extremely hardy; upright grower, foliage glossy green, holds color until late. Each 50c; ten

for \$4.25.

Vuigaris (English) — Leaves small dark green. White flowers in June, followed by black, shiny berries. Each. 50c; ten for \$4.50.

For Hedge Shrubs see page 14.

Philadelphus (Mock Orange)

This old-fashioned sweet-scented shrub has long been a close rival of the lilac in popularity.

Coronarius (Garland Mock Orange)

This is a popular tall variety, refined and beautiful; large white flowers. H 6-8. S 4-6.

Grandiflorus (Large-flowered Syringa) — A very vigorous upright grower, attaining at times a height of 20 feet. Slender branches with an thundance of pure white, slightly fragrant flowers in June. H 8-10, S 8.

Rhus (Sumac)

Copalina 'Black or Shining Sumac)

A shrub or small tree, at times growing to a height of 20 feet, with shiny dark green leaves which turn a rich crimson in the fall. H 4-6, S 5.

Typhina (Staghorn Sumac)—One of the most brilliant plants in Autumn,

when the green foliage turns to red, and the showy red fruit is borne high above surrounding shrubs. H 10-12.

Typhinia laciniata (Shredded Sumac) Typninia laciniata (shredded Sumac)
—The branches are densely covered
with velvety hairy-like growth resembling the developing Elks Horn.
Flowers in white panicles. Deeply
serrated leaves whose deep crimson
color and persistent crimson fruit
makes it attractive for background.
July H 10-12, S 6-8.

Kerria (Corchorus)

One of the most graceful and beau-tiful of the lower-growing shrubs for the front of a shrubbery border, or in a mixed planting of low shrubs around

Japonica (Flore Plena)—Attractive golden yellow double flowers are borne continuously from June to October. H 4-5, S 3. Each, \$1.00.

Kerria Japonica

Robinia

Hispida (Rose acacia)—This beautiful shrub is much appreciated because of the abundance of its large, pink, pea-like flowers. H 4-5, S 5. Each, \$1.00.

\*Rosa Rugosa

See page 16-All varieties.

\*Symphoricarpus

Small shrubs much used in shaded places and in open masses. Grow in almost any soil; very ornamental when covered with berries.

covered with berries.

Racemosus (Snowberry) (B) — A graceful shrub, with slender branches. Flowers white or pinkish, in loose racemes, in summer. H 4-5, S 4.

Vulgaris (Coral-Borry or Indian Currant) (B)—A grand shrub, producing a wealth of red or purplish berries which remain on the branches all winter. Leaves ovate, bright green all winter. Leaves ovate, bright green H 4. S 3-4.

Sambucus

Canadensis Aurea (Golden Leaved Eider)—The best of all the colored leaved shrubs. A plant of this bush in a bed, or a border on the lawn is a conspicuous feature, the foliage being as yellow as gold. H 6-8, S 5.

Spireas

Of easy culture and rapid growth, and amply repay the grower in an abundance of beautiful flowers. Will grow in almost any moderately moist soil. As single specimens or in groups

soil. As single specimens or in groups on the lawn they are unsurpassed.

Anthony Waterer—Dwart, Dusny, of spreading type, with large corymbs brilliantly colored rosy crimson. Very free flowering at its best in late summer. This is practically the best showy red flowered shrub sufficiently dwarf to be used in foundation plantings or the low front row of shrub groups. H 2-3, S 3.

Callosa alba (White Jananess Soires)

Callosa alba (White Japanese Spirea)
—Similar to Anthony Waterer in habit
and growth, but flowers are white.
Froebeli (Froebel Spirea)—The bluish green leaves are purple when

Ish green leaves are purple when young. Deep rosy blooms are borne in abundance in the middle of Summer, and over a long period. H 3-4,

Douglasi (Douglas Spirea)—Deep pink spikes of flowers in July and August, a delightful contrast against

August, a delightful contrast against the white downy leaves. H 5-6, S 5.
Opulifolia Aurea (Virginia Guelder Rose)—Medium growth, golden-tinted follage, large white flowers in June.
Prunifolia (Double Bridal Wreath)—One of the best; a beautiful shrub medium stze, double white flowers in May. H 6-8, S 6.
Thunbergii—A graceful bush, beautiful at all seasons, with innumerable small white flowers. The tiny leaves turn to a brilliant orange-scarlet in the autumin.
\*Van Houittei (Bridal Wreath)—

the autumn.

\*Van Houittel (Bridal Wreath)

This is the most satisfactory shrub in cultivation. It is the best variety of Spireas. The bush is round and graceful with long, thin, arching branches The white flowers are in clusters, and are so numerous that when in full bloom the bush resembles a snowdrift H 6-8, S 6. May and June.

Tamarix

Amurense—Strong. slender, tall-

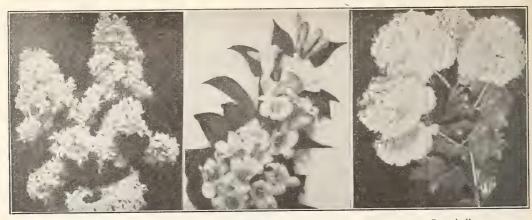

Amurense—Strong, siender, tall-growing shrub of irregular habit, with feathery foliage and small, delicate flowers, borne profusely on grace-fully-bending branches. The pink flowers are very attractive during May. H 8-10, S 6.

Gallica (French Tamarix—The flowers are pinkish; blooms from July to August. H 8-10, S 6.

Philadelphus Ceronaris

The shrube offered in this list are strong two and three-year-old Field Grown, 2 to 4 feet in height dependent lety. ...Unless otherwise specified. Prices, 850 each; \$7.50 per ten; \$65.00 per 100. variety. .. Unless otherwise specified.

Lilac (Syringa)

Weigelia Rosea **HARDY SHRUBS—Continued** 

Snowball

### Syringa, or Lilac

Vulgaris (Common)—A tall growing shrub (8 to 15 feet) having large clusters of fragrant purple flowers in the Spring.

Vulgaris Alba (Common White Lilac) — Similar in growth to purple variety.

-Habit more open and branches Persica (Persian Lilac)more slender and drooping than the Common Lilac. Flowers light purple. Grows 6 to 10 feet. 2 to 3 feet, each, 85c; to 4 feet, each, \$1.00.

Charles X—Magnificent clusters of single, rosy-purple flowers. 2 to 3 feet, each, \$1.50.

S. Villosa (Japan Lilac)—Large branching panicles of flowers, a pink lilac tint. Late-flowering. Bushes are stockler, shorter, of slower growth and more tree-like than other types. In assortment: 2 to 3 feet—\$1.00 each: \$9.50 for ten.

French Tree Lilacs-We have the tree form of these wonderful shrubs in white, satiny rose and violet blue. Size 2-3 ft., \$1.75 each.

WEIGELAS

Eva Rathke—Considered the finest Weigela in cultiva-tion, blooming continuously throughout the summer and autumn. The flowers are a rich ruby-carmine. H 4-5, S 5.

Each, \$1.00.

Candidi—White flowering, flowering throughout the summer. H 6-8, \$8.00

Rosea—A beautiful shrub with rose colored flowers.

-A beautiful shrub with rose colored flowers. H 5-6, S 5. Viburnum

Plicatum (Japan Snowball)—One of the choice hardy shrubs, with healthy dark green foliage. The perfect balls of pure white flowers are borne in great profusion in May. \$1.00 each. H 6-8, S 8.

May. \$1.00 each. H 6-8, S 8.

\*Opulus (High-Bush Cranberry)—The white flowers in June are followed in autumn by bright scarlet berries. which are very attractive until late in winter. H 10-12, S 10. Each, \$1.00

Opulus Steriils (Common Snowball)—This bush, so widely known and loved, is one of the most popular of spring blooming shrubs. Its flower clusters are ball like, pure white and produce no fruit or seeds. H 8-10, S 10. Each, \$1.00.

Price—Any of above, except where otherwise noted, each, 85c; ten for \$7.50; \$65.00 per 100. For strong two and three-year-old shrubs.

Hedges, Screens and Windbreaks

For the border of the lawn, park or farm, there is dignity, privacy, seclusion and defense in well chosen, well maintained fence of shrubs. It is often desirable to screen objectionable views, outbuildings and neighboring properties. This can be done in a more effective manner and with greater improvement inthe view by the use of ornamental plants of various kinds, than in any other manner. And for protecting the home or farm buildings from the sweep of bitter cold winds in winter, and from drifting snows, windbreaks and shelter belts of suitable plants frequently makes several degrees of difference in the temperature. makes several degrees of difference in the temperature.

Privet Hedges and Archway

On varieties not detailed we can furnish special sizes, and shall be glad to quote quantity prices. Under this heading we include the Poplar, Willows, Locusts, Western Catalpa, Thorns, Russian Mulberry, Russian Olive, Spruces and Arbor Vitaes. Correspondence solicited.

The decidious shrubs most popular for Hedges we list

below.

Althea (Rose of Sharon) (A)—When planted more compactly and occasionally pruned make serviceable and showy hedges. Mixed Colors—Special size 18-24 in., \$2.50 per ten; \$20.00 per 100.

Berberis Thunbergii (Japan Barberry)—Where a dwarf, deciduous hedge is wanted, nothing equals this beautiful Barberry. It requires but little pruning to keep it in shape. The leaves are small, light green, and towards fall assume rich, brilliant colors, the fruit or berries becoming scarlet. It is used extensively throughout the country and is perfectly hardy. Special size, it to 1% ft., packed in bundles of 10 or 25 at \$4.00 for 10; \$7.50 for 25; \$25.00 per 100

Hardy Privet (Ligustrum)—This is, perhaps, the most popular of all the hedge plants. Being absolutely hardy, it increases in beauty with each successive year. To get best results, plants should be set i foot apart in double rows in zigzag fashion, so that the plants are diagonally opposite each other. This practically places them 6 inches apart, which is desirable to get quick, dense growth. May be planted from March to May, or from October to frost. 18-24 inch. ten for \$1.00; 50 for \$4.50; \$8.00 per 100; 2-3 feet ten for \$1.25; 50 for \$5.50; \$10.00 per 100.

Rosa Rugosa, Rubra—Perfectly hardy, 4 to 5 feet high folinge large, beautifully crinkled, color dark green. Flowers single, rosy crimson, orange-scarlet fruits. Special 1-year size, \$4.50 per 10; \$40.00 per 100.

Rosa Rugosa, Alba—Foliage and habits, like "Rubra," flowers pure white, followed by orange-colored fruits Special 1-year size, \$4.50 per 10; \$40.00 per 100.

# Hardy Ornamental Vines and Creepers

Your home, outbuildings, fences and trunks of old trees can be made very attractive by the use of hardy vines. Such permanent improvements add greatly to the value of your property, and the value increases from year to year. We furnish strong two year old field plants at pr ices given below.

### **Ampelopsis**

Engelmanii (New Virginia Creeper)—A ne variety of American Ivy which has long been desired. It has shorter joints and very much sma..er and thicker foliage. It also is better equipped with tendrils, by which it will climb walls of stone or brick as closely as the Boston Ivy. Will grow in almost any soil and withstand drought and heat well. Each 60c; ten for \$5.50.

Quinquefolia (Virginia Creeper; American Ivy)—A strong, rapid grower; foliage large, dark green, in autumn, bronze and crimson. Valuable for covering back porches, outbuildings, arbors, etc. Perfectly hardy everywhere, and will grow in any soil and situation. Each, 60c; ten for \$4.50.

Veitchli (Boston or Japan Ivy)—One of the finest climbers for covering walls, as it clings firmly to the smoothest surface, covering it evenly with overlapping iteaves, which form a perfect mass of foliage. The color is fresh deep green in summer, changing to bright shades of crimson and yellow in autumn. Each, 75c; ten, \$6.50.

### Aristolochia Sipho

Dutchman's Pipe Vine—A vigorous and rapid-growing climber, bearing brownish colored flowers which resemble pipe in shape. This plant is, however, more admired for its light green leaves, which retain their c lor from early spring until the fall. 75c each; \$6.50 per ten.

### Bignonia Radicans

Scarlet Trumpet Vine—For covering unsightly places, atumps, rockwork or planting in crevices in ledges, the Bignonias will be found very useful. The flowers are large, attractive and showy, and borne profusely when the plant attains a fair size. 75c each; \$6.50 per ten.

### Celastrus Scandens

Bittersweet, or Waxwork—One of our native climbing plants of rapid growth, succeeding in almost any situation, aun or shade, with attractive light green foliage and yellow flowers during June, followed in the autumn by bright orange fruit which usually remains on the plant throughout the winter. 75c each; \$6.50 per ten.

### Euonymus

Radicans—This trailing form of Euonymus is particularly desirable for its dense deep green evergreen foliage. It is extremely hardy and useful for covering low foundatation walls or may be clipped the same as boxwood for an edging plant. Each, 75c; ten for \$7.00.

Radicans vegeta (Evergreen Bittersweet)—A strong-growing variety with larger leaves than the preceding, producing bright orange-red berries which remain on the plant the greater part of the winter. As a hardy evergreen plant for wall covering, this variety is unequaled. Each, 75c; ten for \$7.00.

### Hedera (helix)

English lvy—The well-known variety with small teaves which has proved perfectly hardy. Largely used covering walls, loose rocks, fences, or trellises. 75c each; \$6.50 per ten

Boston Ivy

Honeysuckle

Halliana (Hall's Japan Honeysuckie)—A strong, vigorous, almost evergreen sort; white flowers changing to yellow; very fragrant; flowering from July to December; holds its leaves nearly all winter. Extra-selected plants. Each, 75c; ten for \$6.50.

Scarlet Trumpet Honeysuckie—This and its varieties are the handsomest in cultivation. It is a strong, rapid grower and produces scarlet inoderous flowers.

grower and produces scarlet, inodorous flowers. Each. 75c; ten, \$6.50.

75c; ten, \$6.50.

Henryli—A recent introduction from China, where it has been found at an altitude of 6,000 feet; with almost ever-green foliage and distinct flowers of a peculiar bronzy-red color, produced in graceful panicles in early summer. Each, 75c; ten for \$6.50.

### Lycium (chinense)

Matrimony Vine—Excellent for trellises or banks. The small purple flowers in Summer are followed by scarled berries which cling long through the winter. Makes a vigorous growth; if desired, it may be trained as a shrub 75 each; \$6.50 per ten.

## Polygonum Aubertl (Silver Lace Vine)

One of the most desirable flowering climbers. The plant is of strong, vigorous growth, attaining the height of 25 feet or more, and producing through the summer and fall great foamy sprays of white flowers. Strong plants, \$1.00 each; \$9.50 per ten.

### Clematis

The Clematis are exceptionally fine, strong 2-year-old plants. We have reduced the number of varieties to such sorts as, from experience, we know to succeed best in our climate. Many failures are the result of too shallow planting. The crown of the roots should be set at least 3 inches below the surface of the soil.

Paniculata (Japanese Virgin's Bower)—This handsome hardy climber is one of the choicest and most satisfactory climbing flowering plants we know. The plant is of strong, rapid growth, with smail, dense, cheerful green foliage, giving it a grace and elegance possessed by no other hardy climber. The flowers appear in the greatest profusion during august, and continue until late in the fall, are white in color and most deliciously fragrant. Each, 75c; ten for \$6.50.

Jackmanii—The best known and most valued variety of this popular family. A perfect mass of bloom when in full nower. Color, dark, rich, royal purple. Each \$1; ten, \$8.50.

Ville de Lyon—Bright red, well-formed flowers; a very fine variety. Each, \$1.00; ten for \$8.50.

Wistarla

### Wistaria

Sinensis (Chinese Wistaria)—A most beautiful climber of rapid growth. When well established it makes a growth of 15 to 20 feet in a season. Flowers pale blue. \$1.00 each, \$8.50 per ten.

Sinensis, White—A white-flowering form of the above \$1.00 each; \$8.50 per ten.

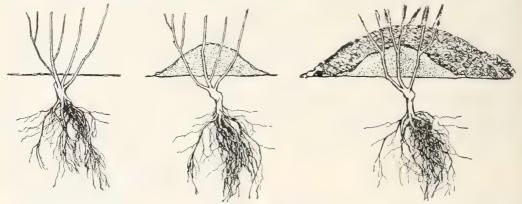

Clematis Jackinani.

Clematis Pameulate

## P.-W.'s GLORIOU

The Rose is the joy of the rich man's garden and the solace of the poor man's front yard—it gives forth its beauty and perfume to the woman of fashion as well as to the tollers in the factory and on the farm. Certainly there is no plant in Floral ingdom that will bring greater reward for cultivation than the Rose. Under the respective classes and types in the following collection, we have selected what we consider the cream of the many now in cultivation.

Proper Depth to Plant

November Protection

December Protection

### SOME THINGS TO OBSERVE FOR SUCCESS WITH ROSES

Unpacking—Should plants, when received, have a withered appearance, caused by an unusual delay in transit (which seldom occurs), soak them in water for an hour or more so as to restore their vitality.

Unpacking—Should plants, when received, have a withered appearance, caused by an unusual delay in transit (which seldom occurs), soak them in water for an hour or more so as to restore their vitality.

How to Plant—The rose delights in an open, airy situation; all types are partial to clay loam, but will succeed in any ordinary soil if enriched with well rotted barnyard manure. Dig up the soil throughly to a depth of twelve to fifteen inches. Dig a hole sufficiently large to accommodate the root, and pour a half pail of water into the hole; in filling, shake the plant lightly so that the soil may fall evenly all around the roots; this avoids cavities. Firm the soil well around the plant in order that it may be solid. Be sure that the buds or grafts, that is where the lower branches begin, are at least 2 inches below the surface of the soil. Bush Roses can be set 1½ feet apart, climbing varieties from 4 to 6 feet apart, and standard Roses 3 or more feet apart. Cultivate freely throughout the summer and apply a light top dressing of bonemeal or sheep-manure at least once a month throughout the growing season.

Pruning—This operation is best performed during the dormant season. Most roses do better if moderately pruned. We usually remove from one-third to two-thirds of the past year's growth, and all weak and decayed wood should be entirely cut out. As a rule the more vigorous the variety the more it should be pruned. Besides spring pruning, many of the Hybrid Perpetuals required to be pruned as soon as their first blossoming is over, in order to grow new wood for later blooming. It is always the new growth which gives flowers. Most people are apt to prune too sparingly, which retards rather than enhances the free-blooming of their plants.

Spraying in Roses—See pages 85-86 on Insecticides.

Time for Planting—In this intermountain region, the best time for planting is in the spring, immediately after the frost is out of the ground, and as soon as the ground can be worked nicely.

Winter Protection—We have found th

P.-W.'s Polyantha or Baby Roses

A class of dwarf habit all through summer and fall, for bedding or as edgings for borders they are very beautiful. They are useful, either for pot culture or bedding purposes or for hedge effects.

Culture or bedding purposes or for heage effects.

Baby Dorothy—A pure pink with all quality of the Crimson Baby Rambler Erna Teschendorf—A deep crimson flushed with carmine.

Madame Cecil Brunner—Color salmon-rose, the most beautiful and lovely of the miniature roses; very fragrant.

Lafayette—Bright red; large, semi-double flowers; as large as "Paul's Scarlet," good keeper. Very free flowering.

### Rosa Rugosa (Rugosa Roses)

The roses are very hardy and are chiefly valuable for their foliage and highly colored "hips" which follow the bloom. Show to good advantage in groups and hedges.

Rubra—4 to 5 feet high, foliage large, beautifully crinkled, color dark green. Flowers single, rosy crimson, orange-scarlet fruits.

Alba—Foliage and habits, like "Rubra," flowers pure white, followed by orange-colored fruits.

New Century—Double flowering pink-rose.

Freellent in about plantage.

New Century-Double-flowering pink-rose. Excellent in shrub planting.

## **Hybrid Perpetual Roses**

The varieties we list in this class are all of vigorous growth and hardy in our climate. Many of them flower the entire summer. Others flower during the month of June and again in August and September.

P.-W.'s Red American Beauty—Same Mrs. John Laing—Very delicate

during the month of June and again in P.-W.'s Red American Beauty.—Same habits of growth and bloom as the popular forcing American Beauty.

American Beauty White (Frau Karl Druschki)—Best snow-white rose. Immense in size and hardy everywhere.

George Ahrends—Clear brilliant pink, good bud and perfect form flower. Known as Pink Frau Karl Druschki Druschki.

Paul Neyron — Immense bright iny pink; clear and beautiful

shiny pink; clear Blooms all summer.

Prince Camille De Rohan—Deep velvety crimson color, passing to intense maroon and shaded black. Ulrich Brunner cherryred. Brilliant.

Price on any of above-Each, 75c; dozen, \$8.00. All charges prepaid

White American Beauty

## P.-W.'s NOVELTY ROSE COLLECTION

Including Recent Introductions and Special Varieties

We recommend this collection for general planting to all who wish a limited number of the choicest varieties, and who are desirous of a supply of extra fine flowers to cut throughout the season. Those who wish a more extensive collection can select with perfect confidence on pages 18 and 19. There is not one individual sort having been critically selected.

America—The Big Pink Beauty—Produces long stems, topped by large shapely flowers of peach pink; opens freely practically thornless and very fragrant. A wonderful keeper after cutting. Price, each, \$1.00.

Annul Laurie—Sport of Orbeila Bud large long.

Annie Laurie—Sport of Ophelia. Bud large, long pointed; flowers large, very double; flesh pink, edges deeper, golden yellow base; long strong stems. Follage abundant, rich glossy green, disease resistant. Few thorn. Continuous bloomer. Price, each, \$1.00.

Columbia—Peach-blow pink deepening as it opens to clowing pink; large, open flowers measuring six inches across. Long stiff stems, nearly thornless, free from miltew, vigorous. Price, each, \$1.00.

Golden Emblem A most beautiful clear yellow, occasionally flaked with crimson on the outer petals, wonderfully well shaped; buds and flowers on long stems with rich, glossy green, foliage. Ea.. \$1.25

Doris Traylor

Buds of splendid form, long and pointed, pening to moderately full flowers, color imperial pink flushed crimson and orange, the coloring is intensified by the golden base of the petals which gives the flowers a golden suffusion which is difficult to convey. They later change to deep amber yellow which does not fade. Growth vigorous and very free flowering, \$1.50 each.

Empire Queen

This splendid rose of recent introduction should find a place in every garden. It is of thrifty, sturdy, growth producing in great profusing attractive long slender buds of a clear, rich cerise color, gradually expanding into well shaped flowers possessing at times an orange flush, delightfully fragrant. \$1.25 each.

Los Angeles

One of the best Roses ever introduced; nowers luminous flame-pink toned with dwith transluscent gold at the base of the petals, on long stems; very fragrant. Buds are long and pointed. Growth vigorous and produces a continuous succession of bloom. Price, each, \$1.00.

Madam Butterfly—Sport of Ophelia, showing better rowth, more and larger flowers, in a brighter pink, suffused apricot and gold. Very fragrant and a fine keeper after cutting. Price, each, \$1.00.

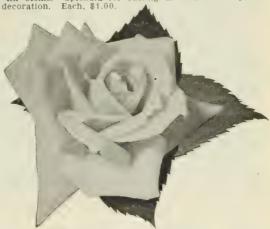

Miss Lolita Armour—Bud medium size, globular; flowers very large, cupped, double, borne several together on ong stems; very fragrant and good keeper after cutting. Color, chrome yellow at base, shading to burnt orange and copper; reverse of petals chrome-yellow at base, shading to bright salmon with copper suffusion; passes to shrimppink and copper with age. Foliage abundant, leathery, bronze-green. Growth vigorous, abundant bloomer. Ea., \$1.

Mrs. Calvin Coolidge—Sport of Ophelia. Bud medium size, leathery, lossy dark green. Few thorns. Vigorous; continuous bloomer. Price, each, \$1.00.

Padre One of the best Roses ever introduced; flower bedding Roses of recent introduced; flower needium steps and the peace of the linest bedding Roses of recent introduced; flower bedding Roses of recent introduced; flower bedding Roses of recent introduced; flower as the bedding Roses of recent introduced; flower as the bedding Roses of recent introduced; flower as a color combination that appeals to everyone. Souvenir de H. A. Verschuren is a strong vig.

orous grower. Buds are long, of ideal shape for cutting opening out into full double flowers of good form. Center is appriect-yellow which shades to saffron-yellow all edges, intensely sweet pea scent, not found in many other roses Price, each, \$1.00.

### P.-W.'s Novelty Rose Collection Offer

Your selection of one each of any six of P-W's Novelty Rose collection for \$5.50; and one each of any twelve for \$10.00, postpaid.

President Wilson—A most delightful shade of shrimp pink shading to coral red at base of petals. Flowers are large and freely produced upon long erect stems. Each,

Queen of Fragrance—Flowers large, double, of graceful shape and freely produced throughout the season. Color shellpink, tipped with silver. Powerful and delicious fragrance. Each, \$1.00.

Sensation--As large and more prolific than Premier. supplied with heavy, luxuriant foliage. Bud is long pointed and the open flower of extreme size and good color to the last. Good keeper. Color magnificent shade of red. Price, each. \$1.00

Sunstar Deep yellow edged, veined and splashed crimson and vermillion, all colors that attract and vary in tone and intensity as the blooms develop, of medium size, highly scented. Awarded a gold medal by the National Rose Society of England. Each, \$1.00.

Rosa Hugonis

This species, recently introduced from China, is unlike any other Rose. It is of shrub-like habit of growth and naturally forms, symmetrical bushes about 6 feet high, and the same in diameter, and while not suited to plant in the Rose border, it is an invaluable subject when planted in connection with other shrubs or as single specimens in the garden. Its delicate yellow single flowers are produced on long arching sprays early in May, every branch of the previous season's growth becomes lined on both sides to the very tips with these attractive flowers, and after it has finished flowering it remains an attractive decorative bush for the balance of the season; perfectly hardy. Strong two-year-old plants, each, \$1.00.

## P.-W.'s EVER BLOOMING ROSES

The varieties selected in this list bloom freely and without interruption from the first year; stand severe winter with only ordinary protection. We have taken exceptional pains in selecting out of the hundreds now in cultivation lust those varieties which we judge to be truly worth while. Whether old stand-bys or brand new novelties the same rule has been followed to choose only those that stand out as having exceptional merit.

This list is the pick of both old and new—The leading Everblooming Garden Roses to Date. Hybrid Tea are marked (H. T.) and Tea Roses (T.) Unless otherwise noted, price of any on this page: 75c each, \$8.00 per dozen charges prepaid, strong, healthy 2-year-old dormant roots.

Betty (H.T.)—Color coppery-rose shaded golden-yellow; telliciously perfumed.

Crusader (H.T.)—Very free flowering, strong grower.

Color a rich velvety crimson.

Duchess of Wellington (H.T.)—Intense saffron yellow stained with crimson, changing to deep coppery saffron yellow. \$1.00 each.

massive deep, cup-form flowers on long stems; clear red and relvety crimson color.

Gruss an Teplitz (Virginia R. Cox)(H.T.)—The best bedding and hedge rose for the Rocky Mountain states. In bloom cn-inuusly from early spring until snow. The color is flery-rimson, shaded with a dark velvety sheen, a combination found in no other rose; perfectly hardy in all sections Large size, each, 75c; per dozen, \$7.50; per 100, \$50.00 Second size, each, 55c; per dozen, \$5.50; per 100, \$40.00.

Hadley (H.T.)—A spiendid velvety crimson, with large well formed buds, most delicate fragrance.

Hoosier Beauty (H.T.)—Beautiful well-shaped long buds; color intense, rich, dazling crimson-scarlet; deliciously fractant. Price, \$1.00 each.

Irish Fire Flame (H.T.)—Closed bud firery orange-red, anading to lighter at base, when full open bright salmon; five petaled and single; one of the daintiest and sweetest things maginable. Each 1.00.

Killarney (H.T.)—Brilliant sparkling pink with large yointed buds, broad, waxlike petals and enormous semi-full flowers of exceeding beauty. One of the very finest forcers.

Kaiserine Augusta Victoria (H.T.)—In color it is a soft pearly-white, tinted with just enough lemon in the center to elieve the white; remarkably fragrant. \$1.00 each.

La France (H.T.)—Beautiful silvery-pink; large, full and the form.

1ne form

Lady Hillingdon (T.)—Apricot yellow shaded to orange on the outer edge of the petal, becoming deeper and more intense toward the center of the bloom. After the bloom is cut, the dor invariably becomes darker. A strong hearty grower.

Mme. Edouard Herriot (H.T.)—The Daily Mail Rose. Incolor its buds are coral-red, shaped with yellow at the base the open flowers of medium size. semi-double, are of a superfectively. Standard with yellow and bright rosy-scarlet passing to shrimp-pink. \$1.00 each.

Wm. F. Dreer. (See page 19).

Mrs. Aaron Ward (H.T.)—Coppery-orange in the open bud but golden orange when partly developed, pinkish-fawn of lovely shade when fully open. Price \$1.00 each.

Madame Caroline Testout (H.T.) -Grand bright pink, flow ering freely all summer; known as the "Portland Rose.

Mme. Seg. Weber (H.T.)—Vigorous grower; free-flowering large, perfectly formed, fragrant flowers of salmon-pink.

Mrs. Charles Russell (H.T.)—The bud is fully as large werican Beauty but longer and pointed; color bright rose American pink, deeper towards the center.

Mrs. A. R. Waddell (H.T.)—A rosy-scarlet, opening rosy salmon, with reverse of petals rosy-scarlet. A sturdy, erec and vigorous grower.

Ophelia Golden (H.T.)—A seedling of Ophelia possessing many of its characteristics. Rich golden, yellow at center. paling slightly at outer petals. Price, \$1.00.

Ophelia (H.T.)-Color salmon-flesh shaded with large and perfect shape.

Old Gold (H.T.)—Vivid reddish-orange, with coppery-red and apricot shadings; strong, mildew proof and free. Mediub size, semi-double. Each \$1.00.

Papa Gontier (T.)—Much sought after for cut flowers of account of its magnificent buds; color, rich cherry red; n' collection is complete without it.

Pink Maman Cochet\* (T.)—The buds are large, full and firm, elegantly pointed, showing depth and richness as they expand; clear rich pink, changing to silvery-rose.

Red Radiance (M. T.)—An ideal hedding Rose that continues to produce its large flowers throughout the season, even during the most unfavorable hot summer weather, when many varieties fail; in color a bright, clear cerise-red.

Radiance (H.T.)—In color a brilliant carmine-pink, with salmon-pink and yellow shadings at the base of the petals truly a rose for every garden. Endures hot weather splendidly Prices of above, except where otherwise noted, 75c each: \$8.00 per dozen. All prices prepaid.

Typical Everblooming Rose

Rose Marie (H. T.)—One of the best bedding roses grown, remarkably free-flowering, producing targe, long ideal buds, which develop into full flowers of beautiful form of a most pleasing clear rose-pink. Red Letter Day (H. T.)—An exceedingly beautiful Rose of infinite grace and charm. Its velvety, brilliant, growing scarlet-crimson buds and fully opened cactus-like flowers never fade, as the reflex of the petals is satiny common-scarlet. Awarded S. G. Medal, N. R. S. petals is s Medal. N. R

Medal, N. R. S.
Soleil d'Or.—Changing from orange-yellow to
reddish gold and nasturitum-red. Strong upright
growth. Price, \$1.00 each.
Sunburst (H. T.)—Long, pointed buds; color,
orange-copper or golden-orange and golden-yellow;
edge of pedals lighter. Price \$1.00 each.
White Maman Cochet (T.)—Free bloomer, bearing
magnificent buds and flowers standing at the very head
if roses as the best white for open ground culture.
William F. Dreer (H.T.)—The flowers, are similar
in shape to Los Angeles, and are at their best in
the hait-expanded flower. These, in expanding, are
of a soft, silvery shell-pink, the base of the petals of
a rich golden-yellow which, at certain stages of development gives a golden suffusion to the entire flower, being particularly brilliant early and late in the being particularly brilliant early and late in the son. Each, \$1.00.

Season. Each. \$1.00.

White Kilarney, Double (H.T.) \ pure white sport of the famous and popular Killarney Rose much more doube than its parent.

Winnie Davis (H.T.—Brilliant apricot-pink with reflex lighter tints, making very handsome, semitouble, graceful Rose. Buds long, fine form.

Willowmere H.T)—This splendid Rose is of a coral-red suffused with carmine in № bud state, and opens to a large, full, handsome flower of a rich shrimp-pink shaded yellow in the center and flushed carmine-like towards the edges of the petals. Each, \$1.00.

Gruss An Teplitz-Blooms from June to Snow

Augusta and year from planting

## P.-W.'s Hardy Climbing Roses

American Pillar—A single-flowering variety of great beauty, which appeals to everyone. Flowers are enormous in size, three to four inches across, of a lovely shade of pink, with a clear white eye and cluster of yellow stamens.

Climbing American Beauty — Same clor, size and fragrance as American color, size and fragrance as allowed Beauty, with the addition of the climb-

Climbing Cecil Brunner-Very bust and one of the strongest climbers in the rose family. Hardy and suitable for all sections.

Climbing Mme. Caroline Testout— A solid cerise-pink and does not fade. Highly fragrant.

Climbing Kaiserine Augusta Victoria This is easily the grandest climbing white rose extant.

Climbing Baby Rambler, or Miss G. Messman—This is a true ever-blooming Crimson Rambler; a climbing form of the Baby Rambler.

Dorothy Perkins — Old-fashioned cluster roses. We supply three colors, Pink, Red and White.

Ever Blooming Rambler, or Flower of Fairfield—This is a much-heralded ever-blooming Crimson Rambler; deep crimson in immense clusters.

Paul's Scarlet Climber—No other Rose, in any class, can compare with this for brilliancy of color which is maintained until the petals fall. It is of strong climbing habit and perfectly hardy. This is one of the most popu lar red climbing Roses.

Silver Moon-Different from all other roses ,with beautiful semi-double flowers four and a half inches and over in diameter; pure white in color, petals of great substance, beautifully cupped. The large bunch of yellow stamens in the centre adds to its attractiveness.

Christine Wright—Strong climbing habit. The flowers double, from 3½ to 4 inches in diameter, borne singly and in clusters, beautiful in the bud and in the fully expanded flower; color butcht wild receptive. bright wild-rose pink.

Dr. W. Van Fleet-The long pointed buds are of a rich flesh-pink on stems 12 to 18 inches long; splendid for cut ting. A strong, vigorous grower.

Emily Gray—In this we have a real yellow climbing Rose as hardy as by Van Fleet. The buds are long and pointed, of splendid shape; in color e beautiful light orange--yellow, changing to pale orange as they expand, they are borne of stiff stems of sufficient length for cutting. The dara green, glossy, holly-like foliage addy a charm to the flowers and makes the plant, even when out of bloom, a more ornamental subject. \$1.00 each.

Mary Wallace—This is a pillar Rose making a fine, strong, self-supporting plant 6 to 8 feet high, with large glossy foliage, blooming with great freedom in spring and bearing considerable number of fine buds in suppose. erable number of fine buds in summer and fall. Flowers very large, generally exceeding 4 inches across; well-formed, semi-double, of a bright clear rose-pink with salmon base to the petals. \$1.00 each.

Tausendschoen (Thousand Beauties) —A popular variety with large flowers with wavy azalea-like petals. In color it is a most delicate shade of soft pink when first opening, changing to a carmine on the reverse of petals when fully expanded. Almost thomass.

Price on any on this page, except where noted, 75c each, 12 for \$8.00; twoyear-old field grown shrubs; all charges prepaid.

### CANNAS

The Canna is one of the bost beautiful of all bulbous plants. Plant out-of-doors in the middle of May when weather warm and settled. Do not water too freely until well started, then they should have an abundance. Plant is in apart

We list below four of the best Cannas in cultivator:

The best pipe Cannas I cannas in cultivator:

king Humbert 4 feet. Scarlet flowers, bronze leaves; favorite today. This remark-able "Gold Medal" Cannas has been the sensation of the past twelve years. It is a cross between the orchid-flowering and the French or Crozy type, combining the best features of both, the large flowers of one with the freeblooming character of the other, and the handsome broad, tropical foliage.

Yellow King Humbert 4 feet. Foliage a very dark green, flowers a deep rich yellow, softly spotted and blotched with bright red; measuring 5 to 7 inches across, individual petals 3 to 3½ inches in diameter. An orchid flowering sport of the well-known variety King Humbert. Some plants will occasionally give a scarlet or scarlet-striped flower, which we consider an improvement rather than a defect. Hungaria 3½ feet. The best pink Canna. Leaves bluish green, never burn. Flowers very large, with immense petals. Trusses of enormous size borne well above the foliage. Very compact, almost dwarf and of a very luxuriant growth.

The President 4 feet. In color a rich glowing scarlet with immense rounded flowers, seven inches across when fully open, are produced on strong errect stalks well above the heavy foliage. Free-blower

erect stalks well above the heavy foliage. Free-bloomer and strong grower.

Price: Dormant Roots—Extra large size any of above, each 30c; 2 for 50c; dozen, \$2.50, postpaid.

Canna Plants

Strong, well established pot grown plants, ready in May, All of the above, named varieties, each, 45c; dozen, \$4.50; 100, \$32.50. Shipped by express only.

### DAHLIAS

Plant when danger of frost is over. If possible plant in an open, sunny situation. Prepare the soil thoroughly by deep digging. Be moderate in the use of both manure and water. Never plant when soil is wet. Lay the tuber flat on its side and cover it four inches deep, pressing the soil firmly on the tuber. Keep the soil loose and mellow by frequent hoeing, drawing the soil to a slight hillock around the plant.

## P.-W.'s Special Merit Dahlias

Amun Ra or The Sun God Wonderfully distinct both in color and formation, giant in size, and perfect in shape. The outer petals are of gorgeous copper and orange tones shading to gold and amber, deepening in the centre to a dark reddish brown, the effect as a whole being that of a gorgeous sunset. The stems are stout and hold the immense flowers well above the strong vigorous plants; the flowers keep for many days when cut. Each, \$1.00.

Attraction—Hybrid Cactus)—Large, elegant flowers of a clear lilac rose; long, strong stems. Each, 50c.

Typical Show and Fancy Dahlia

## DOUBLE PEONIES

Peonies will do well in almost any garden soil, but the better enriched the more vigorous the growth. The plant is extremely hardy and will survive the coldest winters with little or no protection.

An important point to observe in the planting of Peonies is not to plant too deep. The roots should be placed so that the crowns are covered with two or three inches of soil. Too deep planting is a frequent cause of shy flowering.

Prices Include Postage.

### Standard Varieties Peonies

Delachei-Medium, compact, rose type. Violet-crimson, slightly silver tipped. Late mid-season. Each, 75c; dozen, \$8.00.

Edulis Superba—This is the famous Decoration Day Peony. Color a beautiful bright clear pink, with silvery reflex. Each, 50c; dozen, \$5.50.

Rynstrom-Bright rose pink, large trusses.

R. P. Struthers-Rose carmine, with scarlet red eye; very bright.

Price any of above 25c each; \$2.50 dozen.

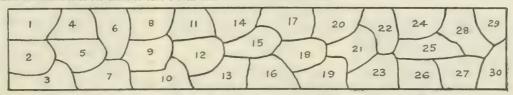

## P.-W.'s PERENNIAL FLOWERS

Perennials have never been so popular as they are at the present time. Their permanency appeals to all. They are planted once and are always there; living through the winter with little or no protection, the flowers become better as the plants grow older. Will grow well in any soil, which may be enriched with decomposed manure or bone meal. The varieties we list are all perfectly hardy, the tops dying down in winter, but coming up early in the spring. A hardy border, properly planned and planted, is a continual source of joy throughout the season; from earliest spring to late autumn days it will be resplendent with color and will yield an abundance of flowers for indoor decoration. Once established, such borders need no other attention than to be kept free from weeds and to be given an occasional top-dressing with fertilizer for nourishment.

### HOW TO GROW FROM SEED

Many of the hardy flowers will bloom the first year from seed if sown in the hotbed in February or March. Outdoors they may be sown any time from May 1 to August—the earlier the better, for the plants will then become stronger and better established before winter. A coldframe is an ideal place in which to sow Perennials, but, if you have none, prepare a seed-bed of finely sifted light soil made rich by adding and mixing with it thoroughly well-rotted barnyard manure, sheep manure, or humus. Sow the seed in shallow drills or squares of suitable size, partitioned off with laths: cover 1/2 inch or more, according to the size of the seed—the very fine ones should only be pressed into the soil; press down with a flat board; water gently but thoroughly through a fine hose and do not allow the soil to become dry while the seed is in the process of germination, for as soon as the seed has sprouted and until it becomes a plant with roots, its life depends entirely on soil-moisture. It is fatal to allow the soil to become dry for even five minutes during this period, and nearly all failures in growing perennials are attributable to this neglect. Seed-beds must, therefore, be shaded from the sun in summer and carefully watched and watered until the plants have made from four to five leaves. While most of the hardy flowers germinate in from eight to fourteen days, there are some which take a month or more before they come up, so do not become impatient. If seedlings come up too thick, pull out some and transplant elsewhere in boxes or other seed-beds, and when plants are finally large enough they will be ready for setting out in their permanent places. This, however, should not be done later than October 1, in order to allow sufficient time for them to take a firm hold in the soil before frost.

#### Vinca

Valuable for rockeries or makes grand evergreen carpet under and about shrubs and trees.

Minor (Grave Myrtle)—4 in. June Green foliage, large blue flowers Plants, 20c each; doz., \$2.00; 100 \$12.00. Seeds, pkt., 10c.

### Viola (Violet)

Single—Deep blue, single violes Seeds, pkt., 10c. Plants, 20c each. \$2.00 doz.; \$12.00 per 100.

### Wallflower

The old fragrant favorite; mixed colors, including yellow, brown, etc Need winter protection. Seeds, pkt., 10c. Plants, 15c each; \$1.50 per doz

#### Yucca (Adam's Needle)

Filamentosa-5-6 ft. or more. June July. Handsome creamy white flowers, much branched and densely packed with bloom, with sword-like foliage. Seeds, pkt., 10c.

1-year Plants, 25c each; \$2.50 doz

2-year Plants, 50c each; \$5.00 doz

4-year Plants, 50c each; \$5.00 doz

4-year Plants, \$1.75 each; \$18.00

PLANTS—Any of above varieties marked \* 25c per clump; \$2.50 per dozen; \$15.00 per 100. If by mail add 5c per dozen for packing and postage.

## P.-W.'s ANNUAL FLOWER SEEDS

### All the Best Flowers for 1928

The term "Annual" is applied to those flowers which bloom from seed the first season and last but the one year. For perennial flowers see pages 25-29.

### How to Grow from Seed

All annual flowers are easily and most successfully grown from seed and offer a large field for selection. No matter for what purpose you may want flowers—for cuting, for garden beds, for color, or for foliage effect—you will find ample material among them from which to you will find ample material among them from which to select. In buying flower seeds it is a matter of greatest importance to you to know that the seeds you are getting have been produced from the best plants—those bearing the finest flowers. It is only through great care in breeding, constant and most careful re-selection, that plants and flowers are brought up to and kept at a high standard and flowers are brought up to and kept at a high standard of perfection.

Our aim is to secure the very best obtainable, both of home and foreign growth, adaptable to our intermountain region. And we have spared neither pains nor expense

with this object in view.

### Sowing of Annuals

All annuals can be sown in the garden in this vicinity All annuals can be sown in the garden in this vicinity in April and May when the grounds is warm either in a seed-bed or directly in the spaces where they are to grow. There are same annuals, such as Poppies, Eschscholtzia, Mignonette, Centaurea, and the like, which on account of lack of fibrous roots, cannot be transplanted without a great set-back to the plant. These should be sown, either broadcast or in rows, in the location desired. Most of broadcast or in rows, in the location desired. Most of the annual flowers, however, benefit by being transplanted, as it develops for them a better root-system. These are better started in a coldframe or a specially prepared seed-bed of rich soil, deeply dug and finely sifted on top. Sow the seed in shallow drills or in squares of a convenient size, partitioned off with laths. Most flower seeds are small and can only be covered with about ½ inch of soil; the very fine seeds are simply pressed into the soil. Water carefully through a fine nozzle so as not to wash the seed out and keep the soil moist constantly. On warm, sunny days some shade should be given during midday. When the seedlings are large enough to handle, they can be transplanted 1 inch apart in another seed-bed, or if they are not too close together, they may be left in the original bed until large enough to transplant into permanent places. Always remember that flowers need Always remember that flowers need sunny situation, and sufficient space permanent places, rich soil, an open between plants for proper development. All our Flower Seeds are delivered anywhere in the United States. Our packets contain a liberal quantity of seed.

### Starting Seeds Indoors

Many annuals, such as Snapdragons, Stocks, Asters, Coloria, Coloria, Cosmos, Cobea, Dahlias, Begonias, Carnations, Celosia, Cosmos, Cobæa, Dahlias Dianthus, Heliotrope, Lobelia Pansies Myosotis, Petunias, Phlox, Salpiglossis, Salvia, Vinca, Verbena, if sown outside do not bloom until quite late in the summer, but you can have them early if you sow the seed in the hotbed. Early do not bloom until quite late in the summer, but you can have them early if you sow the seed in the hotbed. Early in March is about the best time to sow, except for Lobelias, Begonias, and Stocks, which can be started as early as February. Sow either directly in the hotbed in shallow drills or in pans or boxes. Special seed-boxes are usually a inches high, 12 inches wide, by 24 inches long. The soil should be light, finely sifted, and well watered before sowing. Scatter seeds evenly, but not too thinly. Even here it is to be remembered that in "union there is strength," for the fine seeds especially, when sown too thin, very often have not the strength singly to break through the soil. After sowing press the soil down with a flat board and cover the boxes or pans with newspaper to prevent too rapid evaporation. This covering must be removed as soon as the seedlings are up. Always water through a fine nozzle, and only when necessary, with tepld water and as much as possible in the forenoon or midday on bright sunny days, for if the soil is too wet over night, the small seedlings will become chilled and damp or rot off.

### Transplanting

When seedlings have four leaves, transplant in similar boxes i inch apart or singly into small pots (paper pots are excellent for this purpose and quite inexpensive) shifting into larger ones if necessary. The earliness of smitting into larger ones it necessary. The earliness of starting the seeds will govern the amount and need for transplanting. Ventilate more or less according to the weather and gradually harden the plants, preparatory to setting them out when all danger of frost is past and the soil is warm. Cultivate frequently; hoe your beds often: and stimulate plant growth by applying a top dressing of sheep manure or bonemeal to the soil at frequent intervals. This will keep up a steady, vigorous, healthy growth. Keep seed-pods removed; never allow withered flowers to remain on the plants if you want them to bloom right through the season.

Alvssum

Nasturtium Smilax Browallia

Arranged for continuous bloom throughout the summer and autumn months, these will not only be a feature in the garden, but will also furnish an abundance of cut-flowers for the house.

A hotbed is not necessary. You can sow all these seeds right in the flower-bed in late April. In preparing the soil, add a liberal quantity of well-rotted manure, humus, or leaf-mold, dig in well, pulverize the surface, mark of the spaces, cover the seed with about 1/4 -inch of sifted soil, and keep moist until the plants are up and well established. You may have to thin out where plants have come up too thick.

Ageratum

### Ageratum

One of the best summer blooming plants grown from seed, providing rare shades of blue.

Mexicanum Coeruleum — 18-inch. Beautiful soft lavender-blue, of free branching habit. Pkt., 10c; ¼ oz., 30c.

Album-White. Pkt., 10c.

Blue Perfection-9 inch. Nanum, The darkest Ageratum grown from seed. Pkt., 10c; ¼ oz., 35c.

Imperial Dwarf Blue — 6 inch. A variety of compact growth, covered with heads of feathery flowers of a deep lavender color. Pkt., 10c; 1/4 oz., 30c.

Little Blue Star - 4 to 5 inches. Miniature bushes covered with clusters of flowers opening light blue with purple center and developing to a bright blue self. Pkt., 45c; 1/16 oz., \$1.00.

Princess Victoria Louise—6 inch. Bushy plants covered with sky blue flowers with white centers. Pkt., 10c; ¼ oz., 40c.

### Alyssum

Benthami Maritimum (Sweet Alysum)—This is one of the finest annuals for edging and is beloved on account of its modest blossoms. Flowers white and honey scented. It beers white and honey scented. It begins to bloom early in the season, and continues until frost. Oz., 25c; ½ oz., 15c; pkt., 10c.

Little Gem-The plants are only few inches high, and are completely covered with snowy-white blossoms. 1/2 oz., 40c; 1/4 oz., 25c; pkt., 10c.

Compactum Lilacinum — Distinct variety with delicate lavender flowers. Pkt., 10c; ¼ oz., 25c.

### Acroclinium

Roseum—2 feet. A pretty Everlasting, bearing daisy-like flowers, pretty bright rose with yellow center, which can be dried. Pkt., 10c; ½ oz., 30c.

Double Mixed-1/4 oz., 30c; pkt., 10c. Single Wixed-1/4 oz., 25c; pkt., 10c.

### Agapanthus

Umbellatus - 1 foot. Bright blue stems. Water freely. Pkt., 15c.

### Ammobium

Alatum Grandiflorum—2½ feet. A white Everlasting. Pkt., 10c; ¼ oz.,

#### Amaranthus

Brilliant foliaged, three feet high. Useful in borders or for the center of large beds. They thrive in a hot, sunny location.

Tri-Color (Joseph's Coat). — Pkt., 5c; 1/4 oz., 20c.

### Anchusa

Capensis (Summer Forget-me-not) -2 feet. A hardy annual which grows two feet high, branching freely and bearing a profusion of lovely flowers similar to the Forget-me-not, though much larger and of finer color. Pkt., 10c.

**Arctotis Grandis** 

(African Daisy)
A handsome annual which forms branched bushes 2 to 3 feet high; its flowers are large, pure white on the upper surface, the reverse of petals pale lilac-blue. Pkt., 10c; ½ oz., 25c.

### ANTIRRHINUM

(Snapdragon)
For gorgeous coloring few flowers can match Snapdragons; easily raised from seed in any rich, sunny bed.

### New Tall Maximum

36 to 48 inches.

The newest creation in Giant Snapdragons, and is a marked advance over the older Tall Large Flowered type in size and brilliancy of color. The flowers are closely placed on the stems., each bloom measuring 2 to 3

Apple Blossom—Delicate pink with yellow lip.

Copper King—Velvety copper-scarlet, Defiance—Brilliant scarlet, Fairy Queen—Terra cotta.

Fairy Queen—Terra cotta.
Golden Queen—Bright deep goldenyellow with lilac-rose throat.
Old Gold—Deep golden-yellow.
Purple King—Rich purple.
The Rose—Rose pink.
Wallflower Colors.—Brownish

Wallflower Colors. — Brownish orange and copper-red shades.
Snowflake—Pure snow-white, yel-

Giant, Flowered .. Mixed. All the

above and others. Each of above, pkg., 15c; 1/8 oz., 75.

### Semi-Tall Sorts

18 to 20 inches.

Amber Queen—Canary yellow over-laid chamos pink, gold lip.

Aurora - Cinnabar scarlet, with white throat.

Crimson King-Rich crimson.

Bonfire-Orange or flame color. It has the tints of firelight.

Cottage Maid - Pale pink, white throat.

Golden Queen-Rich yellow.

Grenadier - Vivid orange, white throat, yellow lip.

Mauve Queen-Rosy mauve.

Queen of the North-Bushes covered with large white flowers.

Rose Dore — Self-Salmon rose shaded gold. The Fawn—Terracotta pink and pai-

Each of above, pkt., 10c; any packets for 25c; ¼ oz., 50c.
Semi-Tall Sorts Mixed—Pkt., 10c;

1/4 oz., 50c.

### Tom Thumb Varietles

Height 8 inches. For edging and pot plants. Pink, white and scarlet. Each of the above packages, luc; pkts., 25c; ¼ oz., 30c.

### Browallia

One of our favorite profuse bloom One of our favorite profuse blooming bedding plants, covered with rich, beautiful winged flowers during the summer and autumn months, supplying a shade of intense blue, very uncommon; grows freely in any rich soil; blooms finely in the winter if lifted in autumn and cut back.

Speciosa Major—1 ft. high. Most brilliant blue; does well outside or in hanging baskets or vases. Pkt., 25c.

Antirrhinum

During the late summer and early fall the garden is usually a riot of reds and yellows, so the Asters in their dainty and distinct colors as well as their many attractive forms are a pleasing addition. The long stems make them desirable for cut flowers and the blooms last long in water. It should be remembered, however, in regard to Asters that good culture is essential in order to obtain an abundance of fine flowers.

New California Giant

Tall Section 16 inches and up

#### New California Giant Branch-

Ing Asters
A splendid new mid-season to late flower-ing strain, the result of years of painstaking selecting by one of California's leading hybridizers; plants grow 3 to 3½ feet high with long, strong stems 18 to 24 inches in length bearing beautifully formed curied and interlaced flowers 5 inches and over across. We offer the following colors:

Lavender Blue, Peach Blossom, Pure White, Purple Violet, Rich Rose. Finest Mixed. Any of the above—Pkt., 25c; 1/8

75c.

American Beauty Similar in type of flower and growth to the Giant Branching Asters, but blossoms are produced on much longer and heavier stems. The flowers

Are fully double.

White, Carmine-Rose, Purple, Lavwinder, September Beauty, Rose Pink,
Each of the above, pkt., 15c; any 3
pkts., for 35c; ¼ oz., 75c.

Mixed all colors-Pkt., 15c.

American Beauty

Giant Crego
In diameter, and are borne on stems twelve inches or more in length. Their lasting qualities when cut are unsurpassed.

White, Shell Pink, Rose Pink, Crimson, Lavender, Dark Blue, Purple. Each of the above, pkt., 10c; any 3 pkts. for 25c; ¼ oz., 60c.

Mixed all colors-Pkt., 10c.

## P.-W.'s Giant Branching Beaufor cutflowers. The branching habit is accompanied with great vigor of growth and profusion of bloom. White, Peachblossom, Flesh Pink,

Rose Pink, Crimson, Blue, Lavender, Dark Violet, Purple. Each of the above, pkt., 10c; any 3 pkts. for 25c; ¼ oz., 50c.

Mixed, all colors-Pkt., 10c; 1/4 oz., 50c

Ostrich Feather
Comet, or Ostrich Feather type of

White, Soft Pink, Lavender, Rose, rimson, Silvery Lilac, Light Blue, Crimson, Dark Blue.

Each of the above, pkt., 10c; any 3 pkts. for 25c; ¼ oz., 50.

Mixed, all colors-Packet, 10c.

King Aster

The King The habit is similar to the popular Giant Branching. In form the flower is entirely distinct; petals somewhat resembling the quilled varietles, but are much larger and broader.

White, Pink, Rose, Crimson, Violet, Lavender

Each of the above, pkt., 10c; any 3 pkts. for 25c; 1/4 oz., 50c.

Mixed, all colors-Pkt., 10c; 1/4 oz.,

American Astermum An attractive and descriptive name for a new race of asters which belong to the Comet

Snow White, Rose Pink, Lavender. Each of the above, pkt., 10c; 3 pkts. for 25c; 1/4 oz., 60c.

Mixed, all colors-Pkt., 10c; 1/4 oz.,

Giant Crego

### **Dwarf Varieties**

Up to 10 Inches

Dwarf Comet. Mixed, all colors -Handsome and very distinct, resembling the Japanese Chrysanthemum in shape and flowers. Pkt., 10c.

Dwarf Chrysanthemum Flowered-All colors, mixed. Of very compact growth; 3½-in. flowers. Excellent for formal bedding. Pkt., 10c.

Queen of the Market—The best early aster, usually in full bloom two weeks before most other sorts begin to blossom.

White, Flesh, Pink, Crimson, Scar-let, Light Blue, Lavender, Purple, Dark

Each of the above, pkt., 10c; any 3 pkts. for 25c;  $\frac{1}{4}$  oz., 50c.

Mixed, all colors-Pkt., 10c; 1/4 os.,

### **Balloon Vine**

Love in a Puff—A clean, free-grow-ing vine reaching 10 to 15 feet, bear-ing numbers of large, round, inflated seedbuds resembling miniature balloons. Pkt., 5c: oz., 30c.

### **Double Balsam**

(Lady Slipper)

An old favorite garden flower, producing its gorgeous masses of brilliant double flowers in profusion. Balsams like the hot sun, rich soil and plenty of

Double Rose and Camellia-flowered Mixed-Pkt., 10c; 1/4 oz., 25c.

Invincible Mixed-Mixed from separate colors and includes everything that is desirable in Balsams. Pkt., 15c;

Dwarf Mixed-8 inches, perfect little bushes with double and semi-double nowers. Pkt., 10c; ¼ oz., 25c.

Goliath White-4 feet-Pkt., 10c.

Goliath Scarlet-Extremely brilliant. large and very double. Pkt., 10c.

#### COSMOS

4 to 6 feet

One of the most showy and useful of our garden plants. Plants are very bushy. Flowers borne on long deli-cate stems. Foliage very finely cut.

Early Flowering Mammoth—These are recommended for planting north of the latitude of Middle Illinois, as the late, or Giant nowered varieties are nearly always caught by early frest

frost. White, Pink, Crimson. Mixed, all colors. Each of the above, pkt., 10c;

Late Giant Flowered — Crimson, White Lady Lenox, Pink Lady Lenox, Giant Mixed.

Each of the above, pkt., 10c 1/2 oz., enc.

#### Anemone Flowered

These differ from the other cosmos in the formation of the center of the flower, which develops a crown or crest, like an anemone, the guard petals remain the same. Pink Beauty, crest, like an anemone petals remain the same. White Queen, Mixed.

Each of the above, pkt., 10c; 1/8 oz., 45C.

Cosmos, Anemone F1.

#### Celosia (Coxcomb)

Crested Dwarf Sorts

President Thiers-Fine dwarf habit, with bronze foliage, and large hand-some velvety crimson combs. Pkt., 10c; ½ oz., 40c. Dwarf Mixed—Pkt., 10c; ½ oz., 50c.

### Plumosa or Plumed Varieties

21/2 to 3 feet

They form pyramidal bushes branching out in candelabra shape, and the numerous massive plumes which re-semble ostrich feathers, wave graceand the fully above the foliage.

Plumosa Mixed, all Colors-Pkt., 10c; 1/4 oz., 25c.

Pride of Castle Gould-Plants grow compact and pyramidal and produce tmmense flower heads, resembling willow plumes in many remarkable shades. Pkt., 25c; ½ oz., 65c.

Chinese Woolflower (Celosia Child sij)—Plants grow two to three feet high, the bloom starting early with a central head, round and globular, which often reaches the immense size of two feet in circumference. Pkt., 15c; ½ oz., 50c.

#### Candytuft

#### Clarkla 2 feet

Clarkias are summer annuals perfectly hardy, and can be grown in ordinary soils.

Apple Blossom-Double apple blossom, pink.

Brilliant-Double salmon scarlet.

Queen Mary—Lovely rose carmine.
Double and Single Mixed. Each of
the above, pkt., 10c: ¼ oz., 30c.

#### Cardinal Climber 25 feet

A very attractive, strong and rapid grower, attaining a height of 25 feet, with beautiful fern-like laciniated foliage and literally covered with a blaze of fiery cardinal red flowers from midsummer to frost. Pkt., 25

#### Calendula

#### (Pot Marigold)-1 foot

One of the showlest free-flowering One of the snowlest free-howering hardy annuals, growing in any good garden soil, producing a fine effect, in beds or mixed borders, particularly bright in late fall, continuing in bloom from early summer until killed by from early summer until killed by frost; valuable also for pot culture, blooming freely in winter and early spring

Orange King-The outer petals are slightly imbricated, while those of the center are curved like those of the peony. Color glowing orange. Pkt., 10c; ½ 0z., 25c.

Mixed, all colors. Pkt., 5c; 12 oz.,

#### Calliopsis

(Tickseed)—6 inches to 2 feet. Very graceful border plants, supplying raceful border plants, supplying throughout summer an abundance of showy flowers of yellow, orange and dark brown variations. Will thrive anywhere.

Crown of Gold (Coronata Maxima) —Splendid cut flower. Pure golden yellow 2 inches across, on long wiry stems; hardy and blooms nearly all season. Pkt., 10c; ¼ oz., 35c.

**Drummondi Golden Wave**—2 feet. Flowers yellow with a circle of rich crimson-brown around the eye. Pkt., 10c; 1/4 oz., 20c.

Tall Varieties, Mixed-Valuable for wild gardens, and for cutting. 5c; 36 oz., 20c.

Dwarf Varieties, Mixed—Valuable for small mixed beds and borders. Pkt., 5c: ½ oz., 25c. Double Mixed, all colors. Pkt., 10c;

1/4 oz., 20c.

Cobaea

Scandens Cathedral Bells—30 feet.
One of the handsomest and rapfd growing climbers. The flowers are bell-shaped and open a clear green but turn a beautiful purplish illac. Seed should be sown edgewise. Very vigorous and prolific bloomer. Pkt., 10c; 1/4 OZ., 25C.

#### Coleus

The handsomest foliage plant ob tained from seed. The leaves are heart-shaped and handsomely crimped toothed and frilled; their color combinations are remarkably rich. Pkt. 25c; 1/32 oz., \$1.00.

#### Canary Bird Vine 15 to 20 feet

A dainty vine with beautiful culeaves and pretty, delicate flowers of a clear canary-yellow. Does well in the shade. Pkt., 10c; ½ oz., 25c.

#### Candytuft

They soon flower from seed and remain long in beauty. For massing in flower beds and borders and for edgings they are admirably adapted.

Giant Hyacinth-Flowered White foot. A grand border plant, bearing very large, bold spikes of snowy white flowers, habit sturdy and compact Pkt., 10c; 1/2 oz., 30c.

Dwarf, Hybrids, Mixed—Plants of fine, compact growth, covered with large flowers ranging in color from rose, salmon, coral-pink and delicationsh to illac and purple crimson Pkt., 10c; ½ oz., 30c.

Mixed, all Colors-Pkt., 5c; 1/2 01 20c.

### Chrysanthemum, Annual

Single Flowering Varieties

Morning Star—Primrose with golden yellow center. Pkt., 10c; ¼ oz., 25c

Carinatum .. Eclipse - Yellow with dark brown disk. Pkt., 10c; 1/4 oz

Burridgenum—Banded with crimson, white and yellow. Pkt., 10c; 1/2 cz.. 25c.

Golden Feather -- Foliage yellow; flower with a crimson ring near center. Pkt., 10c; ¼ oz., 25c. Mixed Single Varieties-Pkt., 10r

Double Mixed-Pkt., 10c; 1/4 02

Cosmos Single

Plants of the Hardy Chrysan-themums together with seeds and plants of a selected list of other beautiful hardy perennial flowers be found on pages 25-29 in-

Centaurea Cyanus

#### Centaurea Cyanus

(Batchelor's Button or Cornflower) —2 feet. One of the most valuable blue flowers for the border. Re-seeds itself and may be used for naturaliz-ing purposes. The double flowers are finest.

Single-Mixed, all colors. 15c; pkt., 5c.

Double Flowering Varieties-White, Blue, Pink and Rose Shades, Purple, Double Mixed, Dwarf Victoria, 9-inch Edging, blue. Each of the above, pkt., Edging, blue. Ea

### Centaurea Imperialis (Sweet Sultan)

The beautiful sweet scented flowers are borne on long, strong stems; when cut will last for several days in good condition. White, Dark Lilac, Brillant Rose., Purple Crimson, Deep Lavender, Mixed, all colors. Each of the above, pkt., 10c; ¼ oz., 30c.

#### Carnations

Easily grown either in flower-beds, borders, or pots.

American Hybrids—A race of large-nowered carnations, bearing handsome blooms on long, wiry stems. Pkt. 35 seeds, 25c

Giant Margaret Mixed-Flowers of very large size, measuring 3 inches of more in diameter; colors include all the shades of white, pink, crimson and triped. Pkt., 100 seeds, 15c.

#### Cypress Vine 10 feet

It has a profusion of scarlet or white star-shaped blossoms, and its finely cut foliage is particularly ornamental

White-Pkt., 10c.

Scarlet-Pkt., 10c.

Mixed-1/4 oz., 20c; pkt., 10c.

lvy-Leaved Scarlet—A rapid grow-ing variety with deeply lobed, ivy-like leaves, and small scarlet flowers. Pkt., 10c; ¼ oz., 30c.

### Cyclamen (Alpine Violet)—1 foot

Charming house plants, with beautiful foliage and rich colored, fragrant flowers. May be successfully raised from seed with a little care and

Giant Flowered Cyclamen—Mixed extra choice. 10 seeds, 20c; 20 seeds, 30c; 100 seeds, \$1.20.

### Dianthus

(Garden Pinks)-1 foot

A popular annual variety distinguished for brilliant, contrasting colors appearing in each flower.

#### Single Flowering

Mirabilis-(Single Wonder Pink) The petals are deeply cut into fine strips of threadilke fringes. All shades from pure white to deep purplish. Pkt., 10c; ¼ oz., 50c.

Chinese Single Mixed-Pkt., 10c; 1/4 Oz., 35c.

Japan Single Mixed—Great range of colors. Pkt., 10c; ¼ oz., 30c.

Laciniatus Mixed—Single fringed flowers. Pkt., 10c; ¼ oz., 30c.

Laciniatus Splendens—The flowers are beautifully fringed and come in various shades of red with large white centers and white edges around the petals. Pkt., 20c; 1/2 oz., 40c.

Carnation, Giant Margaret

Double Flowering
Chinese Double Mixed—Blooms in clusters, flowers very double and in a large range of colors. Pkt., 10c; 1/4 oz., 25c.

Diadematus Double Mixed—Beautiful flowers in various shades with the outer edges fringed and almost white.

Outer edges iringed and annost white.

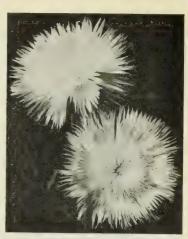

Pkt., 10c; ¼ 0z., 40c.

Imperialis Double Mixed — Bushy grower. Pkt., 10c; ¼ 0z., 30c.

Laciniatus Double Mixed — Flowers deeply laciniated. Pkt., 10c; ¼ 0z.,

Mixture of Double Pinks—Selection of the best double pinks in cultivation. Flowers ranging in color through all the brightest and most brilliant shades. Pkt., 10c; 1/4 oz., 30c.

Mixture of Double and Single Pinks
—This magnificent mixture contains

packet each of the above 4 Balcony Petunias for 60c.

#### Special Discount

Offer on "Garden Guide"

advertised elsewhere on this page. This most valuable book will be sent you at one-half price if your order on other items from this catalog exceeds \$5.00.

For freedom of bloom and length of flowering season, the perunia is unsurpassed as a bedding or window box plant. The many improvements recently made in its color range and form of flower have raised it to the front rank. The seed are very small and germinate slowly. Sow them indoors if possible, quite early, and be patient in awaiting the appearance of the seedlings. The Balcony type, of trailing habit, are excellent for porch and window boxes. The Single Bedding kinds can be sown out of doors in May. Our contract grower is a specialist celebrated for his magnificent strains of both the large flowering single and double varieties, which are being improved each year by careful selection and hybridiation. For freedom of bloom and length of flowering season,

#### Large-flowering Single Sorts

P.-W.'s Superb Large-flowering Fringed-This seed is from the finest flowers of very large size and beautiful shape; deep-throated and of varied and brilliant colors. and beautifully fringed. Pkt., 200 seeds, 35c.

tical layouts and planting plans.
Covers every step from spading the ground to preserving the harvest.

Price, paper cover, postpaid, \$1.10; cloth cover, postpaid, \$1.65.

Giants of California Petunia

### POPPIES

Poppies are noted for their satiny flowers of silk-like terture, in many brilliant color combinations. The foliage is delicate and the blossoms are airily poised on slender stems. If the flowers are gathered early in the morning when the dew is on them, they will remain fresh in water all day. Plant the seed in succession two weeks apart for a continuous bloom all summer. Mix seed with sand before sowing so as to distribute the seed thinly and evenly.

Single Annual Popples

Admiral—Glistening white, with a broad margin of brilliant scarlet. Pkt., 10c; ¼ oz., 20c.

Bride-Very large pure white, per fectly formed flowers. Pkt., 10c; 1/4 oz., 20c.

Danebrog or Danish Flag—Brilliant scarlet flowers, with a silvery spot on each petal, forming a white cross. Pkt., 10c; ¼ oz., 20c.

Flanders Poppy—Vivid scarlet-red.
This flower has in the minds of men been associated for over two hundred years with the battlefields of Flanders.
Was the first official flower of the American Legion. Pkt., 10c; ¼ 0z., 200

Hansa—The flowers have a pure white ground color, passing towards the finely slitted edge to a deep crimson. Pkt., 10c; ¼ oz., 20c.

Shirley Mixed—Beautiful shades in delicate shades of rose, apricot, salmon-pink, and blush to glowing crimson with a sprinkling of blues. Pkt., 10c; oz., 30c.

Double Shirley Poppy

Miss Sherwood — Flowers shining, satiny white, the half of the corolla being a silky chamois rose. Pkt., 10c; ½ oz., 20c.

Eldorado (Fine Mixed)—The flow-s are large, single, semi-double and double, and contain magnificent shades of soft salmon, orange, orange scarlet, pink, rose and white, without any dark markings whatever. The substance of the petals in some of the lighter shades is as delicate as China silk.

Eldorado Sal...

Eldorado Salmon Shades—2 feet, The introducer made a selection of these most popular shades and will especially appeal to those admiring pastel shades in flowers. Pkt., 10c; 1/4 OZ., 30c.

Mixture Single Poppies—This mixture includes all the above choice Poppies and many other kinds not listed. Pkt., 10c; oz., 25c.

Double Carnation Poppy

### **Double Annual Poppies**

American Flag-Flowers very large, snow white, scarlet bordered.

Fairy Blush—The flowers have the effect of large feathery balls, overcast with a rosy shade.

Carnation Flowered-Splendid double-fringed flowers; mixed colors. Pkt., 5c; oz., 25c.

Giant Double—Pure White, Pale Yellow, Pink, Cardinal Red, and Lilac. Any of above varieties except where noted-Pkt., 10c; oz., 30c.

#### Salvia Splendens

(Scarlet Sage)

The Salvia Splendens is a standard The Saivia Splendens is a standard bedding plant that keeps the garden bright with color until late in autumn. This plant lends itself to many uses; it makes a good pot plant, does well in window boxes, and is useful for cuting. Its best use, however, is as a hedge or border plant, for brilliant colors effect.

America, or Globe of Fire — This is the freest and most continuous bloomer; also the most uniform in habit of growth, which makes it particularly valuable for bedding or planting in lines. Pkt., 25c; 1/16 oz.,

Spiendens (Scarlet Sage)—Beautiful bright scarlet; 3 feet. Pkt., 10c: ¼ oz., 75c.

Single Shirley Poppy

Rainbow Corn

(Zea Japonica Variegata)
Ornamental foliage plant, highly efdetrive and very interesting; grows about 5 feet high, quite bushy, variegated leaves striped with bright green, silvery white, rosy purple and sulphur yellow. Pkt., 10; oz., 25c.

#### Rhodanthe (Everlasting)-1 Foot

A charming annual; succeeds in a light rich soil and a warm sheltered situation; valuable for pot culture; flowers everlasting; mixed colors. Pkt., 10c; ¼ oz., 50c.

Romneya Coulteri (California Tree Poppy)-

5 feet. Flowers all summer. Beautiful snowy white fragrant flowers. Pkt., 15c; ½ oz., 75c.

#### Ricinus (Castor Bean)

Stately, strong growing plants, with very ornamental foliage, well adapted as center plants of groups of Cannas, Dabliage of a contract of groups of Cannas,

Cambodgensis—6 to 8 feet. Large palm-like leaves of darkest maroon; stalk nearly black. Pkt., 10c; oz., 25c

Panormitanus—8 to 10 feet. Huge leaves of a peculiar old bronze shade; stems blue powdered. Pkt., 10c; 0z.,

Red Spire—A new and very effective variety with bronzy green foliage and brilliant rosy crimson seed spikes Pkt., 10c; oz., 40c.

Zanzibariensis Mixed—10 to 12 feet ne ornamental leaves, beautifully The ornamental leaves, beautifully lobed, are 2½ to 4 feet across. Each plant makes a perfect pyramid of foliage. Pkt., 10c; oz., 25c.

Mixed-Many sorts. Pkt., 5c; os. 20c.

> Rudbeckia (Cone Flower)

Good Prower,
Bicolor Superba—2 feet. Annual
Produces an abundance of bright yellow flowers with brown central disc,
fine for cutting. Pkt., 18c; 1/4 OK., 35c

Salpiglossis

#### Salpiglossis 21/2 Feet

Undoubtedly one of the most attractive annuals and should be in every garden. Each flower is veined with a glint of gold. The Salpiglossis is deservedly known as the Orchid of Hardy Annuals.

crimson, Emperor - Bright Emperor — Bright crimson, Faust black, pink, velvety violet, golden yelow, purple and gold, scarlet and gold, rose and gold. Each of the above, per pkt., 10c; ½ oz., 50c.

Emperor Mixed — Large improved

strain, complete range of colors. Pkt., 10c: 4 oz., 40c.

#### Scabiosa (Mourning Bride) 21/2 Feet

Commonly known as the Pincushion Plant. The flower stems are long and the blossoms keep well in water. The soft shades predominate. When given plenty of room and the seed vessels are kept regularly picked off, it will last through the whole summer.

#### Large Flowering Double

Snowball, golden yellow, flesh, flery carlet, azure fairy, cherry red, black prince, rose.

Each of the above, per pkt., 10c; 2 oz., 25c.
Mixed—The above and others .Pkt.,

10c; 1/4 oz., 25c.

#### Scarlet Runner Beans

Scarlet Runners-A great favorite scarlet kunners—A great favorite in England and Europe, not only as an ornamental climber, but for the delicious edible beans which succeed the spray of bright scarlet pea-shaped blossoms. Lb., 55c; pkt., 10c.

Schizanthus

#### Schizanthus

This is one of the daintiest of an-nuals. The seed germinates readily and in a few weeks the plant is a mass of small but bright flowers in a bewildering range of colors, all blotched and marked in contrasting shades.

Grandiflorus, Garaway's Hybrids—A grand strain bearing a profusion of large flowers, all with handsome markings on a white, buff, brilliant rose, rich blue or purple ground. Pkt., 25c; 1/8 oz., 50c.

Wisetonensis—1½ feet. Profusion of flowers varying from almost white with yellow eye to a brilliant rose with brown center. Pkt., 15c; bronze

Mixed, all colors-1/4 oz., 25c; pkt., 10c.

#### Silene 11/2 Feet

Armenia Mixed (Catchfly)—A very showy early flowering hardy annual, bearing in quantity, beads of beautiful white, pink and red flowers. Pkt., 10c; 1/4 oz., 20.

Scabiosa

#### Stocks (Large Flowering)

The Stocks represent all the desirable qualities of a flower. The plants have good habit, fine, dull or glossy leaves. The flowers appear on long, stiff stalks like small rosettes, are exceedingly fragrant and range through a most complete scale of all the soft and distinct shades.

Each of the above, pkt., 10c; any 3 pkts. for 25c; 1/8 oz., 50c.

Giant Perfection "Cut and Come

#### Again"-11/2 Feet

Useful for outdoor bedding as well as for pots or cut-flower. They throw out numerous side branches, all bear-ing very double, fragrant flowers.

White, canary yellow, pink, old rose improved, scarlet, light blue, dark blue, mixed

Each of above, pkt., 10c 1/8 oz., 65c.

Statice

#### Bismarck

If sufficient room is given, the plants develop to enormous dimen sions,, forming magnificent bushes with long and large flower stalks. Blooms after the ten weeks stocks have ceased. White, lilac, rose, gold ball, blood-red, mixed.

Each of above, pkt., 15c 1/8 oz., \$1

#### Emperor or Winter-2 Feet

These are useful in planting in Call fornia and the South, outdoors.

Large Flowering White Lady — White. Pkt., 15c; ½ 02., 75c.

Empress Elizabeth — Brilliant carmine rose. Pkt., 15c; ½ 0z., 75c.

Winter Stocks Mixed-Pkt., 15c 1/2 OZ., 75c.

#### Statice

Russian (Suworowi)—1 foot. Flowers bright rose color; valuable for winter bouquets. Pkt., 15c; ½ oz., 75c

Bonduelli — Producing numerous heads of bright yellow flowers, valuable for drying, very attractive. Pkt. 10c; ¼ oz., 25c. numerous

Sinuata Blue—Forming pretty rosettes of foliage from which rise branching flower stems 2½ feet high. light to dark lavender flowers. Pki. 10c; ¼ oz., 25c.

Sinuata Rosea-Pkt., 10c; 1/4 oz., 25c. Sinuata White-Pkt., 10c; 1/4 0z.. 9.5 c.

### MARVELOUS SWEET PEAS

Sweet Peas are of easy culture and there should be no failures if ordinary care is taken. The absolute essentials are good seed, rich soil deeply dug, early sowing, early staking and frequent stimulation to insure continuous growth and good cultivation to keep the soil loose and porous. The seed should be sown as early in the Spring as the soil trench or furrow about six inches deep, in the bottom of which sow the seed and cover with about one inch of soil pressing it down firmly. As soon as they are above the ground thin out about three or four inches apart. When planted too close they do not obtain full development. They should be staked up either with branches or stout stakes on which wire netting has been fastened; these should be about four or five feet high. Sweet Peas should be watered thoroughly and frequently and howers cut often to prevent running to seed which will stop them from continuing in bloom. One oz. will plant 25 feet of row. To inoculate the seed gives added vigor and health. See page 88.

EARLY FLOWERING SPENCERS

This new type is in great demand by commercial florists for forcing unter glass and are just as valuable for foundoor culture, coming into flower two or six weeks earlier than the regular orchid-flowered type. If flowers are kept picked will continue to bloom wer a period of nearly four months.

Early All White—Pure white.

Meadow Lark—Primrose yellow. ...

Early Fair Maid—Blush-pink.

Morning Star—Rich, rosy salmon.

Early Harmony — The finest clear avender.

evender.

Early True Blue—Rich mid-blue.

Early Zvolanek's Rose—Rich rose

Price—Any of the above, pkt., 10c; oz., 60c; ½ lb., \$1.75.
Collection of a packet each of the above choice varieties, 50c.
Collection of one ounce each of the above 6 choice varieties, \$3.00.
Early Flowering Spencer Mixed—Containing all colors. Pkt., 10c; oz., 50c; ½ lb., \$1.50; lb., \$5.00.

Grandiflora Sweet Peas Mixed This mixture contains nothing but the finest grandiflora varieties blended with the greatest (are, so as to produce the best color effect. Pkt., 5c; oz., 15c; 1/4 lb., 40c; lb., \$1.25.

Cupid or Dwarf Sweet Peas

These form a line of emerald-green foliage a little over a foot wide and 6 inches high, and from June until late summer are literally a sheet of bloom; the mixture contains all the colors. Pkt., 10c; oz., 20c; 1/4 lb., 60c; lb., \$2.

P.-W.'s Giant Spencer or Orchid-Flowered Sweet Peas

Of the hundreds of Orchid-flowered or Spencer Sweet Peas introduced in the last few years, we offer this season what we consider the very choicest and most distinct varieties, each one of which is a leader in its respective color, and sure to give entire satisfaction.

manive

Austin Frederick Improved - Large

Austin Frederick Improved — Large rosy lavender, the best in this color.

#### Verbena

Verbena is one of the most popular garden annuals and lends itself will-ingly to many uses. The clusters of showy and often fragrant flowers are borne in constant succession from June until frost.

#### Hybrida

Defiance-An intense scarlet. Pkt., 10c; 1/4 oz., 50c.

Dark Blue with White Eye-Pkt., 10c; ¼ oz., 50c.

Lutea-Yellow, Pkt., 10c; 1/4 oz.,

Striped-Mostly light colors with red and blue stripes. Pkt., 10c; 1/4 50c.

-Dense heads of finely shaped Whitewhite flowers. Pkt., 10c; 1/4 oz., 50c.

Mayflower—Various shades of pink. Pkt., 10c; ¼ oz., \$1.00. Firefly—Intense red. Pkt., 10c; ¼

oz., 70c.

Purple Shades-Dark purple. Pkt., 10c; ¼ oz., 50c.

Mammoth Mixed — Producing in handsome umbels flowers of large size in beautiful shades of white, rose scarlet, blue, purple. Pkt., 10c; ¼ oz., 40c.

Hybrida Gigantea
A wonderful
m i x ture of
large flowering varieties. The flowers

large flowering varieties. The flowers are, as the name indicates, gigantic, and with white eye, the reds particularly attractive. Pkt., 15c; 1/20, 50c.

Erinoides (Moss Verbera)—6 inch. Produces a mass of moss-like foliage, spreading over the ground like a carpet, above which are horse heads of spreading over the ground like a car-pet, above which are borne heads of purplish-blue and white blossoms; flowers in June and continues until frost. For beds, baskets or rockerles it is highly desirable. Pkt., 10c 1/2 oz., 80c.

Venosa (Hardy Garden Verbena)— Used for bedding purposes; thrifty grower about 1 foot high, and cov-ered from early summer until late fall with its bright purplish-heliotrope flowers. Pkt., 10c; ½ oz., 70c.

Citriodora (Lemon Scented Verbena) —An old favorite with fragrant ever-green leaves. It is a low-growing tender plant and may be grown in the garden in summer and in pots in win-ter, and the leaves dried and laid among linens. Pkt., 10c; ¼ oz., 65c.

#### Wallflower

Well-known deliciously fragrant Well-known deliciously fragram; half hardy perennials, blooming early in the spring, with spikes of beautiful flowers. In the north they should be protected in a cold frame in the winter and planted out in April.

Single Mixed-All colors. Pkt., 10c 1/4 oz., 20c.

Double-flowering Finest Mixed — Pkt., 15c; 1 / 16 Oz., 40c.

#### Wild Cucumber (Echinocystis Lobata)

Thirty feet. This is the quickess growing climber on our list. Grows wild self-sown in many parts of the west. Should be sown late in the fall or very early in the spring. It is thickly dotted over with pretty, white fragrant flowers, followed by an abundance of ornamental and prickly seed pods. It will quickly cover an old tree or an unsightly building. Pkt. 5c. 14. oz. 20c. 2. 30c. 4 lb. 900. 5c; 1/2 oz., 20c; oz., 30c; 1/4 lb., 90c

#### Annual Flower Seeds Wild Garden Collection

This is a surprise collection, con taining practically every annual in ex istence. Large borders, along car riage drives and woodland walks shrubbery borders, and the like, may be pleasingly brightened as a result of freely sowing mixed flower seeds. The expense involved is very nominal in comparison with the wealth of bloom obtained. Such plantings will be . continuous source of joyous surprise to you as, among the many growing annuals, you recognize old friends or discover new ones. And at blooming time, some of the cheery flowers may be cut and transferred indoors with out noticeably lessening the charm of the outdoor plantings. Be careful not to sow the seeds too close together, so suitable space for plant developmen: will contribute to the effectiveness of your planting. Oz., 25c; 1/4 lb., 75c lb., \$2.25.

The most goregous annuals with a wonderful range of color. Beautiful old rose, dainty cream, striking red and brilliant yellow flowers of velvety texture, extremely double with long stems and good keeping qualities, make this old-fashioned flower a joy in the garden. The Colossal produce such enormous blooms they appear as greenhouse Chrysanthemums that have mistaken their time and place of flowering. If you plant but one annual, plant this. The plants may be taken up when in full bloom and transplanted without any visible effect.

#### P.-W.s Giant Double Colossal Zinnias 3 feet

The flowers are of enormous size, thickly set with velvety petals. The plants are healthy, vigorous, branching freely, and make excellent material for grouping or cutting

White, Cream, Buttercup (Deep Primrose), Apricot Yellow, Flesh Color, Salmon Shades, Shrimp Pink, Pink Shades. Golden Yellow, Sulphur Yellow, Orange, Scarlet Violet, Purple.

Each of the above, pkt., any 3 for 25c; ¼ oz., 35c.

P .- W.'s Colossal Zinnias, Mixed -- The flowers are glgantic in size and deep and velvety in appearance, exhibiting all the new and interesting colors. Pkt., 10; ¼ oz. 25c.

P.-W.'s Giant Colossal Double Zinnia

#### Double Dahlla Flowered Zinnlas

The plants of this new race are very sturdy and pro-duce many flowers with stout stems. In formation the broad petals are closely imbricated, sometimes seeming almost to be piled one upon the other. The flowers often measure 4 inches in depth and 6 to 8 inches in diameter. In general appearance the flowers compare with the Show Dahllas.

Canary Birdcanary Bird—A delicate shade of primrose—very large and holds its color well until out of bloom.

Buttercup-An immense deep creamy yellow. desirable flower, which should be included in every colection.

Crimson Monarch—Rich crimson. By far the largest best of red shades. Flowers often eight inches in und liameter.

Dream-A fine, deep lavender, turning to purple, a new

Dream—A fine, deep lavender, turning to purple, a new testrable shade in Zinnias.

Exquisite—By far the most pleasing of our collection. fruly Dablia flowered as regards form and size. Color dight rose with center a deep rose.

Golden State—A very rich orange yellow in the bud, turning to an attractive orange when in full bloom.

Old Rose—This is adequately described by its name, as it is of the real Old Rose Shade.

Oriole—An immense orange and gold bicolor, changing alightly as it ages.

Polar Bear—A very large pure white, the best white seen in Zinnias. True Dahlia form.
Scarlet Flame—A large, beautiful, bright scarlet, with delightful blending of orange throughout the petal. Each of above, pkt., 15c; any 4 pkts., 50c; 1/16 oz., 30c.

Dahlia Flowered Mixed—All the above and others. Pkt., 15c; 4 pkts., 50c; ¼ oz., 30c.

#### GI ant Picotee

A remarkable new and distinct class with beautiful double flowers in orange, flesh, lemon, pink and cerise, each petal being distinctly tipped with various shades of dark, resembling the Picotee Carnations.

Glant Picotee Mixed—Pkt., 15c; ½ oz., 60c.

#### Zinnia California Giants (Double Flowered)

In presenting the above type we offer a rare collection of striking and desirable colors. They are larger than Colossal and a cross between them and the Dahlia Flowered types.

Lemon Queen—A most pleasing color. The petals are light canary on the upper and cerise on the lower side, the two shades blending as the flower develops. It is the The petals are only Zinnia with fragrance.

Orange King—Similar in color to the Calenduls of the same name—a glowing orange.

Purity-A clean pure white.

Rose Queen—Bright rose with a deep rose red center and gradually develops into a warm deep rose. Each of the above, pkt., 15c; ¼ oz., 60c. One pkt. each of above four varieties, 50c.

#### Giant Double Quilled Achievement

The petals are partially tubular or quilled giving the nower somewhat the appearance of a cactus dahita and displaying a rich variety of colors mostly of the warmer shades, such as, salmon, old rose, deep rose, illac, bronze and dark red tones. On the reverse side the petals are light or dark lilac, making a wonderful combination of colors. The plants are of strong, robust growth and produce an abundance of very large, double flowers often inches in diameter. Pkt., 15c; ½ 02., 60c.

#### Zinnia Liliput Double

The plants form handsome little bushes and fairly bristle with tiny, short-stemmed, very double flower hardly exceeding a daisy flower in size. They are very pretty plants; bloom all summer until late in the fail 12 in. high. We furnish them in scarlet, white, goldes orange and mixed colors. Pkt., 10c; ½ oz., 30c.

Red Riding Hood—1 ft. Of compact form and covered the entire season with little button-like, intense scarlet flowers not over an inch across; as a border plant it is highly effective. Pkt., 10c; 1/2 oz., 30s.

Partial View of the Attractive Lawn of One of our Salt Lake Customers

The lawn is the most important factor in the devel pment of the home grounds. It furnishes the setting for The lawn is the most important factor in the development of the home grounds. It furnishes the setting for the house and puts the finishing touch on an attractive home. Proper grass seed mixtures cannot be selected and compounded in a haphazard manner. It requires precise knowledge and experience to produce a formula that will meet the varying conditions of soil, situation and climate and produce throughout the entire season a beautiful green sward. Through years of experimentation we have developed Lawn Grass Mixtures which we can unhesitatingly recommend. they are composed of only plump, clean, vigorous seeds which are sure to produce satisfactory results.

How to Make a Lawn

The ground should be well spaded and thoroughly raked, that the soil is fine and free from lumps and its surface smooth, even and firm. If a thick, heavy sod is wanted quickly, seed should be sown at the rate of one pound to 150 to 200 square feet. It takes twice as much seed to make a lawn as it does for raising hay and it frequently happens that good results are not obtained on account of scanty seed.

After sowing seed should be well raked in, and on a light sandy soil, well rolled. Heavy soils do not require much rolling when grass is established. The lawn may be much improved by rolling after each cutting. The best time to sprinkle is early in the evening. Lawns always do best if seeded in early spring on letter core. time to sprinkle is early in the evening. Lawns always do best if seeded in early spring or latter part of August, but when necessary to seed in midsummer it will be advantageous to furnish a light covering of straw to protect the tender grass from the intense heat of the sun. The weeds and foul grass, which most soils produce, can be kept down and destroyed by repeated mowing.

Among the best fertilizers are "Plant Life," Bone Meal, there is no pullweiged Sheap manure. See page 22

Among the best fertilizers are "Plant Life," Bone Meal, Prozit or pulverized Sheep manure. See page 88. If the lawn is kept clipped fairly short, it will not be accessary to rake the clippings, but they may be allowed to remain where cut and will be washed down among the roots by the rain and furnish a mulch which will be valuable in the hot, drying days of summer. If, however, the grass has been allowed to get so long that a considerable length must be cut, it must be raked. Only the fine clippings therefore the proof of the same provided the left upon the lawn. should be left upon the lawn. These fine clippings again go back into the soil in time and add humus.

The best P.-W.'s Velvet Green Lawn Mixture lawn seed experience can suggest or that money can buy. Produces a heautiful, permanent lawn in four to six weeks. By properly choosing early, medium and late grasses a smooth, even green lawn is assured from early spring to late autumn. In p.-W.'s velvet Green Grass Seed are included only the very best varieties—pure clean and free from coul seed. Sow at rate of one pound to 200 square feet Price: Lb., 65c; 3 lbs., \$1.85. Postpaid. Not prepaid ib., 80c; 10 lbs., \$5.50. P.-W.'s Lawn Terrace Mixture

This produces a deep-rooted, fine, green, closely interwoven, velvety surface, which will hold together under the most severe conditions Price: Lb., 75c. Postpaid. Not prepaid, lb., 70c; 10 lbs., \$6.50.

Shady Nook Lawn Mixture—Prepared especially for shady places where it is difficult to get a turf established Lb., 75c, postpaid. Not prepaid, 65c lb.; 10 lbs., \$6.00.

White Clover—First class recleaned seed. Specially se-ted for lawn use. Lb., 80c, postpaid. Not prepaid, lb.. lected for lawn use. 75c; 10 lbs., \$7.00.

P.-W.'s Creeping Bent This is the true Greeping Bent Grass, which we are able to offer to the trade this season.

P .- W.'s Creeping Bent has been harvested under closest inspection. Especially recommended for Lawn and Golf Courses, for the reason that it makes an exceptionally fine turf that smothers out dandelions and other weeds. It is an ideal lawn grass, makes a very fine, green color, close sward and adapts itself readily to any soil.

Sow in Fall or Spring 3 to 4 lbs. to 1,000 sq. ft. offer the best obtainable grade of this species. 1 lb., \$2.00 3 lbs., \$5.75. Postpaid.

Red Top Grass
second to Kentucky Blue Grass. Lb., 50c, postpaid. Not prepaid, Ib., 45c; 10 lbs., \$4.00.

Kentucky Blue Grass
recleaned heavy seed. The purest and cleanest obtainable.
Lb., 65c; 3 lbs., \$1.85. Postpaid. Not prepaid, lb., 60c; Lb., 65c; 3 lbs 10 lbs., \$5.50.

Red or Creeping Fescue (Festuca rubra)-Red or Creeping Fescue (Festuca rubra)—Because of its good creeping root system this makes splendid turf for putting greens When used for greens it should be sown alone. It makes a good ingredient for lawn mixture as it does well in sandy soil and in shaded places. Sow in Spring or about the first of September. Lb., 65c; 3 lbs., \$1.85. Postpaid. Not postpaid, lb., 60c; 10 lbs., \$5.80.

## GRASS SEEDS

Our stocks are critically grown, of highest germination and purity. Prices fluctuate. Write for prices on quantities.

Bromus Inermis (Hungarian Brome Grass)—Remarkable drouth-resister, not injured by frost. Sow 20 to 80 lbs. per acre. Pound, 30c, postpaid. Not prepaid, 10 lbs., \$2.25.

Orchard Grass—Furnishes pasturage three weeks hefore any other, and after close grazing a ten days' interval is sufficient for another growth. Makes a neavy soil, which remains for years. Sow from 20 to 25 pounds per acre. Pound, 45c, postpaid. Not prepaid, 10 lbs., \$3.00.

Kentucky Blue Grass—Remains green from early spring until snow flies in the fall. It will do well on almost any land. Sow in the fall or spring, 30 pounds per acre. Pound, 70c, postpaid. Not prepaid, 10 lbs., \$6.00.

English or Perennial Rye Grass—Produces an abundance of foliage. 30 pounds per acre spring or fall. Pound, 35c, postpaid. Not prepaid, 10 lbs., \$2.50; 100 lbs., at market price.

at market price.

at market price.

Meadow Fesque, Randall or English Blue Grass—Excellent for hay and pasturage. Succeeds even in poor soil, roots penetrate deep, stands extremely dry weather. Sow in spring or fall at the rate of 30 pounds to the acre. Pound, 45c, postpaid. Not prepaid, 10 lbs., \$3.75.

Timothy—Of hay grasses Timothy leads all. Succeeds on clay or heavy loams, lowlands or in mountainous districts, where there is an abundance of moisture. Alone, 12 pounds to the acre, or with clover, 10 pounds timothy and 6 pounds clover. Pound 25c, postpaid. Not prepaid, 10 lbs., \$2.00.

Tall Meadow Oat Grass—Out yields Timothy or or chard Grass, and affords better grazing, becoming very popular. Sown alone, use 30 pounds to the acre, either

#### For Permanent Meadows and Pastures Zawadke's Alkali Grass

A new forage plant that will make your alkaline lands productive. A Montana grower has this say about this

valuable new grass:

"My experience with this grass has shown me that on alkali ground that will produce no other crop, it will yield a crop as large as timothy, on first-class timothy land. Its feeding value has been repeatedly demonstrated to be greater than either timothy or red top. It will stand an unlimited amount of water in the spring, and has successfully resisted every drought that has occurred in these

I find that the seed will not germinate on blotting paper nor in loam or earth free from alkali. If sown on land that is too dry, even on alkali land suitable to its nature, it will not germinate until the following year. It seems to become rootbound in from seven to ten years, and thrives best where the land has been plowed and disced and quite firmly packed.

The seed is very fine and as it stools it should be sowed very thin for a permanent crop. I have counted as high as 450 stalks in one plant in the third year, and the shortest of these stems was over tow feet tall. I think that if properly distributed, no more than two pounds of seed to the acre should be planted. The seeding can be done any time from September 1 until spring; broadcast right on the snow and not after the snow is gone and land dries off and starts to crack. Use a "Cyclone" seeder, sowing two pounds per acre for meadow or pasture. I find that the seed will not germinate on blotting

The seeds find their way into the ground without covering when covered the seeds are too deep and fail, they lay in the ground for years and come up after they come to the surface again. It is better to keep stock off in the spring, while plant roots are forming and the cound is soft.

When instructions are followed, this grass will and produce a large crop, either white or black alkali. It will make a fair crop the first year and a full crop the second year, and stand more summer drought than any grass I have ever seen. The third year yill be still better than the second.

It commences to bloom when the head is about half way out of the boot. If the season is very dry, it may

spring or fall. Pound, 50c, postpaid. Not prepaid, 10 lbs.. \$4.00; 100 lbs., at market price.

Italian Rye Grass—Annual type of English Rye Grass.
Pound, 35c, postpaid. Not prepaid, 10 lbs., \$2.50.
Red Top—Reaches highest perfection in moist, rich
soil. Sow 25 pounds per acre. Pound, 60c, postpaid. Not
prepaid, 10 lbs., \$5.00.

Sudan Grass—Sudan is a tall annual grass, reaching to a height of from seven to nine feet when planted in rows and allowed to mature for a seed crop; broadcasted and cut "in the bloom" for hay, about four feet. It dieseach year. Should not be planted until all danger of frost

Plant in rows, thirty-six inches apart using about two pounds of seed; where irrigated, plant in rows eighteen inches apart, using from 4 to 6 pounds per acre.
Yields an immense tonnage excellent for feeding.
Price, 1 lb., 30c, postpaid; 10 lbs., \$2.50, not prepaid.

Johnson Grass—This variety is considered a pest in the South but it is highly valued by stock raisers in this climate on account of its extreme hardiness in un favorable situations. While it is tender and will not endure cold winters, yet it is a good drought resisten and is a valued hay grass. Belongs to the same family of sorghums as Sudan and resembles it very much in looke and habits of growth. and habits of growth. We would recommend sow ing it thickly as it does not grow so coarse as when thinly seeded. Sow at the rate of 30 pounds per acre Price, lb., 30c, postpaid; 10 lbs., \$2.50, not postpaid. Asa for special price on quantities.

#### P.-W.'s Grass and Clover Seed Mixture

not completely head out and it is better to cut it before it bleaches. Cut it under these circumstances when it commences to bleach.

Price, pound, \$2.00. White for quantity prices.
Our well-balanced mixture is made up of a number of native and acclimated grasses and clovers, blended in such a way as to best suit the climatic and soil conditions found in our intermountain regions.

The main varieties of this combination are Kentucky Blue Grass, Perennial Rye Grass, Red Top, Orchard Grass, Meadow Fescue, Bromus. Tall Meadow Oat, Alsike, Red Clover, Lucerne, White Clover. Sow 25 pounds per acre. Pound, 45c, postpaid. Not prepaid, 10 lbs., \$3.50; 100 lbs., \$3.50; 100 lbs., at market price.

"Putting-Green" -- Sait Lake City

### P.-W.'s "GOLF LINKS" GRASS MIXTURE

Prepared with the object of producing a thick turf that will stand the hard useage suffered by the average Pair way. For the Golf Course, Teeing Ground, Football and Polo Fields and other Athletic Grounds, or for the Lawr which has to withstand hard wear, this mixture will give perfect satisfaction. We prefer to prepare special mixtures to suit the location and soil to be seeded. In ordering, please state whether low and wet, high and dry, sandy or clayey as the case may be, and we will send a mixture specially adapted to the conditions you name. Where

P.-W.'s Special Golf-Course Mixture for Fair-Greens. 10 lbs., \$6.00; 25 lbs., \$14.90; 100 lbs., \$50.

P-W.'s Special Putting-Green Mixture, 10 lbs., \$8.00. 25 lbs., \$18; 100 lbs., \$70.

P .- W.'s Grass and Clover Mixtures Make Best Dairy Pastures

#### FIELD PEAS

A wonderful crop for fattening Sheep, Hogs and Cattle and very valuable poultry feed. It is also a splendid soll builder and cover crop for Market Gardeners, Orchardists and Farmers. In this connection an added value is given by treating the seed with Humogerm. See Fertilizers,

Culture-Culture—Sow in March or early April, although a pea-hay crop can be obtained if sown as late as in July. Early

sowing is best, giving full season for matured crop.

When early sowing is made, 30 to 40 pounds of seed
per acre makes a crop. If late sowing is made, 60 to
80 lbs. per acre is advisable, as the crop does not get to
matured growth. Thick sowing will aid in choking out weeds.

Canada Field—This is a small-seeded, very hardy pea, vigorous, thrifty, growing 5 to 6 feet; very productive. Can't be beat for all purposes. Lb., 20c, postpaid. Not prepaid, 10 lb., \$1.00. Write for quantity prices.

San Luis Valley-This Colorado stock pea is a hybrid. Very hardy. Can be grown at an altitude of 9,000 feet. Lb., 200, postpaid. Not prepaid, 10 lbs. \$1.00; 100 lb., at market price.

#### SUNFLOWER, LARGE RUSSIAN

This has very large single heads borne at the top of a single unbranched stalk usually, and with much more and larger seed than the common sorts. It is used extensively for feeding poultry and is an excellent egg producer. Sow seed as soon as ground is fit for planting corn, in rows three to four feet apart and about one foot apart in row. Cultivate the same as corn. This variety will yield 1000 pounds or more of seed per acre. Lb., 30c; 2 lbs., 65c, postpaid; for larger quantities inquire for prices. DPIOAS

#### PEANUTS

Peanuts are a profitable crop where grown in the correct manner. They thrive best in a rich, sandy, loamy soil. Prepare the ground well, laying it off with a shovel soil. Prepare the ground well, laying it off with a shovel plow in rows about 3 feet apart. Plant either in the hull 12 to 15 inches apart, or hull them and plant two kernels to the hill. Cultivate well, keeping the land as level as possible. When they mature, pull them up, turning the roots to the sun. In bright weather they will be cured in 24 hours. After plcking, or threshing, the nuts, the vines make splendid hay; 35 to 40 pounds of unshelled peanuts will plant an acre.

Spanish—This variety, is the best suited for growing in the North, being earlier. Postpaid: Lb., 40c; 2 lbs. for 65c. For larger quantities ask for Special Prices.

#### SPRING VETCH

Valuable for both soiling and as a cover crop. Sow 60

Valuable for both solling and as a cover crop. Sow out to 75 pounds per acre. White for prices.

Sand or Hairy Vetch—Hardy, fall variety, growing well that season and remaining green all winter. Prevents washing or leaching of soil and also gathers nitrogen, en riches soil. Valuable for hay or pasture. For hay use i bushel per acre, for cover crop 10 to 20 pounds per acre. Lb., 25c, postpaid. Not prepaid, 10 lbs., \$2.00; 100 lbs., Market Price.

#### SORGUM

Early Amber—Furnishes a large yield of most nutritive forage, which can be fed either green or cured, and will yield two or three cuttings a year. Broadcast for forage sow 60 pounds per acre. In drills, sow 10 pounds Lb., 25c, postpaid; Not prepaid, 10 lbs., \$1.25; 100 lbs. at market price.

INOCULATE THIS SEED See Page 88

Prices subject to market changes.

#### ALFALFA

GRIMM-This variety is especially rec-GRIMM—This variety is especially recommended for shallow soils or those underlaid with hardpan. The claim made for it is that in addition to extreme hardiness it has spreading roots instead of a single tap-root and that it makes underground creeping tems. We offer as follows:

"Blue Tag"-Certified seed, purity \*9.50%; Price, 55c per lb., postpaid,

"Purple Tag" --- Certified seed, purity 69.50%; removed not more than three generations from stock of introducer. Price, 75c per lb., postpaid.

(P.-W.'s Grown Mountain Land). This has been especially selected from highland sections of the Mountain States and grown without ir-rigation, developing a most sturdy type auch to be preferred than seed pro-duced under other conditions. Fancy Grade, ib., Soc, Postpaid. Not prepaid, 10 lb., \$2.50; 100 lb., market price.

Ask for quantity prices. Seamless bags extra, at cost, Inoculate All Clovers

Alsike Clover (Swedish Hybrid)-Is recommended both for sowing with Timothy and also with the Red and Mammoth Clovers, as well as for a hay crop by itself. It does not winter-kill. The use of Swedish Alsike Clovkill. The use of Swedish Alsike Clover is increasing rapidly; cattle prefet to other clovers. It is very fine for honey bees. Sow at the rate of six or eight pounds per acre; sown in mixtures, five or six pounds per acre is sufficient. Lb., 50c postpaid. Not prepaid, 10 lbs., \$4.00; 100 lb., market price.

Medium Red Clover (Trifolium Pratense)—It is sometimes called June Clover, and is a dependable, all-round variety for farmers and stockmen. It makes two crops each year. Sow either in the spring or fall at the rate of fifteen pounds to the acre. Lb., 50c, postpaid. Not prepaid, 10 lbs., \$4.00.

Prices Fluctuate Rapidly. Write for Special Quantity Prices on All Farm Seeds.

Sweet Clover or Bokhara (Melilotus Sweet Clover or Bokhara (Melliotus Alba) White Blossom—As a money-maker this has been rightfully named "Alfalfa's Twin Sister." Its value in the redemption of alkaline lands cannot be over-estimated. It grows in a variety of solls—beavy, light, wet or dry, almost anywhere except in acid soil. Sow at the rate of 10 to 15 pounds per acre. Cover the seed very lightly alb 30c neethals. lightly. Lb., 30c, postpaid. Not pre-paid, 10 lbs., \$2.25; 100 lb., market price.

Yellow Blossom (Melliotus Officinalis)—Same family as White Blossom Sweet Clover but it is not so prolific in growth and flowers are yellow in stead of white. For bee pasture we believe it to be equally valuable. Lb., 35c, postpaid. Not prepaid, 10 lb. \$2.75; 100 lb., market price. Melilotus indica has become recognized as the legume best adapted for Not prepaid, 10 lb.,

green manuring, easily plowed under, and rich as a fertilizer. Per ib. 200: 10 lbs., \$1.75, postpaid.

P.-W's Improved Learning

### FIELD CORN FOR ENSILAGE

Of all the crops for ensilage, Corn is the most largely used and without doubt the most profitable. Alive to this situation, we have made En-silage Corn a speciality and we are now able to offer our customers the most profitable varities adapted to the climate conditions of various sections of the West.

There is perhaps no crop of more value to the dairy farmer during the hot summer months when the pastures are dry, than a nice green field of fodder corn. Though the varieties of field corn we list can be matured and are profitable as a

P.-W.'s Silo Corn No. 1—This variety is the heaviest yielding corn for ensilage ever introduced in the Mountain States. It is positively beaviest yielding corn for ensuage ever intro-duced in the Mountain States. It is positively the earliest of the tall-growing large yellow Dent corn in cultivation. It is our own selection from Improved Leaming and will mature its grain in 100 days, even under unfavorable con-ditions; and about 90 days where climate con-ditions are suitable. You will never regret giv-ing it a trial this year. See below for price.

P.-W's Silo Corn No. 2—This is a shorter growing variety than P.-W's Mountain States Silo Corn No. 1, the height ranging from 8 to Silo Corn No. 1, the height ranging from 8 to 12 feet, depending upon soil and other conditions. Consequently the fodder tonnage is less, but it makes up this loss to a large degree in the increase of gram yield. See below for price. P.-W.'s improved Learning—Ripens in 90 to 100 days. Extra early; not a hardy filnty corn. We can furnish both Utah and Nebraska grown.

Reid's Yellow Dent—Best all around purpose Yellow Dent. Deep yellow, lighter cap; closely packed, slightly rough, grains dented on top. Leaves and stalks make fine enslage and fodder. Matures in 110 days.

grain crop, it is our opinion the greater value is secured in most sections of the Rocky Mountain states by feeding the fodder green, or using for ensilage

Generally speaking, the seed should be sown in drills 3 feet apart, using 15 to 40 pounds of seed per acre, depending not only on the soil, but also for the purpose for which the sliage is to be used. Whenever less grain and more bulk is de-sired more seed may be planted to the acre, giv-ing a greater amount of leaf and stalk but less

Australian White Flint (90 days)—The earliest d surest variety. Will endure more drouth and surest variety. Will endure more drouth and cold than any other variety known. Grows to a height of six to ten feet. Price, see below.

Boone County White—A very large white corn, something like Silver Mine, but larger and

tater in maturing. At Davis County Experiment station last year, it made a larger growth than any other variety. In sections with no shorter seasons than the Salt Lake Valley, this variety should be a most valuable ensiage corn.

Minnesota No. 13—The ears are of handsome appearance bearing 16 to 20 rows of bright, rich yellow, smooth, Wede-shaped kernels packed closely on the cob from but to tip. Matures in ninety days.

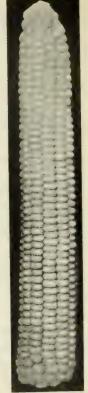

North Dakota Flint-Excellent White variety

very popular. Small cob, early maturing.

Northwestern Dent—Early red dent, extremely hardy—will produce a crop when all other dents fail owing to its frost and drought resist-

dents fall owing to its frost and drought resist-ance. Matures in 90 days.

Pride of the North—An exceptionally early
Dent variety. Stalks of medium height with
broad leaves. For cold valleys where seasons
are short it is not excelled.

White Flint

Poor Seeds Are Dear at Any Price

Any of above-Pound 2Cc, postpaid. Not prepaid, Ib., 15c; 10 lbs. \$1.00. Ask for Quantity Prices.

The terms used in this column are defined as follows:

\*"T," placed in the column is to mark those sorts which are usually sown in beds and later transplanted to the field.

For last planting of Beans, Sweet Corn, Peas and Radishes, or even Tomatoes, take the earliest varieties.

Late sowings of Salsify are intended to remain undisturbed over winter.

§ The usual distances are here given and the planter must use his judgment for his particular case. Where garded cultivation is by wheel hoe and ample room is available, a greater distance is better employed. If the patch will be cultivated by horse, leave a greater distance between rows.

† The Depth at which to plant seed cannot be given more than approximately because it varies so much with the condition of the moisture in the soil and the time of year. All seeds must have air, moisture and heat to germinate

t "Early Spring," means as soon as buds in the trees begin to swell and the ground can be worked into garden

"Spring" refers to those vegetables which are not so hardy as the above, and which are usually planted later because they do so much better planted later.

"Late Spring," is the time of year when the ground is well warmed and all frosts are passed

("H") means plant in hotbed and transplant to open ground later.

("S") placed in this column means that those are sown for succession.

## MAKE A HEALTH GARDEN

Asiac from being an interesting and fascinating "hobby," the Vegetable garden is a vitally important factor to the acalth of the entire family.

The comparative recent discovery of the mysterious food elements called VITAMINES means more to a solution of

the health problem than any other discovery of Modern Science.

Medical men now fully appreciate unless these vitamines are present it is possible to starve even though the body be well supplied with protein, fats and carbohydrates formerly considered all the elements of a complete diet. Science has named these additional necessary food elements; Vitamines A, B, C, and D, these are found chiefly in milk and vegetables.

With such facts in mind every Home Gardener will want to provide his family with these necessary health givelements. The following list will be of great assistance in this respect.

'ng elements.

Vitamine A promotes growth and its absence causes sore eyes and blindness; and stunted growth in children.

Vitamine B, if lacking, brings on gastro-intestinal troubles, neuritis, anemia.

seans, eaten green, contain fat solu-ble A. water soluble B, and water soluble C.

SEANS, dried kidney, contain water soluble B.

seans, dried navy, contain water soluble B.

6EET JUICE contains small amount of water soluble B and C. 6EET ROOT, raw, contains fat solu-ile A, and water soluble B and water

soluble C. CABBAGE, fresh cooked, contains ble A, water soluble B soluble A and water soluble C.

CABBAGE, raw, contains fat soluble A, water soluble B and water soluble C

CARROTS, raw, contain fat soluble A, water soluble B and water solu-

CAULIFLOWER, contains water soluble B.

CHARD (SWISS), contains fat soluble A and water soluble B.

CORN, yellow, contains fat soluble A and water soluble B.

LETTUCE, contains fat soluble A, water soluble B and water soluble C.

ONIONS, cooked, contain water solu-

ONIONS, raw, contain water soluble B and C.

PARSNIPS, contain fat soluble A and water soluble B.

PEANUTS, contain fat soluble A and water soluble B.

POTATOES, cooked, contain water soluble B and C.

Vitamine D is a yeast growth promoting element, the definite food value of which has not been determined OTATOES SWEET, contain fa soluble A and water soluble B.

Vitamine C, if lacking, makes people irritable, lacking in stamina and in extreme cases, causes scurvy.

ble C.

RUTABAGA, contains fat soluble B and C

SPINACH, contains fat soluble A and water soluble B.

TOMATOES, contain fat soluble A, water soluble B and water solu-

ble C. TURNIPS, white, contain water solu-

TURNINPS, soluble C. cooked, contain water

dried, contain water solu-

ble B. PEAS. green, contain fat soluble A water soluble B and water solu-

POTATOES. raw, contain fat soluble A and water soluble C.

### WHAT AND WHEN TO SOW FOR VEGETABLES

The dates supplied below are those applying to the Mountain States or places of similar climatic conditions, where the outside growing season for hardy varieties begins in average years in March and continues until November.

Some are under the false impression that seeds can be planted successfully only in April and May. The truth lly is that the wide awake planter begins just as early as the ground can be worked in the Spring and sows sucsion crops throughout the Summer and Fall. The latter crops are very important as they supply fresh vegetables cession crops throughout the summer and Fall. for Fall and Winter use

February 1-15 (in house or hot-d): Cabbage, Cauliflower, Cel-y, Kohl-Rahi, Lettuce, Parsley, bed): Cabbage, ery, Kohl-Rabi, Radish.

## P.-W.'s HOME GARDEN COLLECTION

Contain seeds of only true and tried varieties, most carefully selected to give a continuous supply of vegetables, of exclusively high quality throughout the season. The quantities are proportioned to meet the requirements of such gardens as are indicated by the titles of the collections, and will be found convenient for patrons who do not care to wade through long lists, or who prefer our judgment as to kinds and quantities; it may be that there are one or more items in these collections that some customers will not care for, but even if such are not needed, the great saving in price will more than compensate. We, however, cannot allow any alterations, because these collections are put up in quantities all ready to ship, before the commencement of our busy season, thus enabling us to sell them at very much less than the articles would cost separately.

P.-W.'s Dark Leaved Globe Beet

A Real Asset to the Beet Family

We believe this new variety to be without equal for either the market or home garden and will also become a favorite for canning. The tops are small and upright in habit of growth allowing close planting The leaves are deep green, stems and veins of the darkest red. The roots are uniformly globular possessing a deep blood red smooth skin, flesh rich dark red zoned with a lighter shade, very sweet, crisp and tender. Its uniformity in shape, size, color and productiveness make it a strong asset to the Beet Family. You will make no mistake in giving it a place in your garden this year. Price-pkt., 5c; oz., 15c; ¼ lb.. 50c psotpaid.

P.-W.'s Dark Leaved Globe Beet

### P.-W.'s Blood Red Beet

This variety comes to us from a European Specialist and our trials show that it has exceptional merit. It is practically the same season as Crosby Egyptian, globe-shaped, possessing a deep red skin, the flesh a blood-red, remarkable free from light colored zones so common in some other varieties. The color of the leaves, too, is very dark. This combined with uniform deep color of the beet makes it a very attractive market variety. Our market Gardener friends will find this a most valuable second-early beet for market use. It is equally desirable for the home table. Pkt., 5c; oz., 15c; ½ lb., 50c. postpaid.

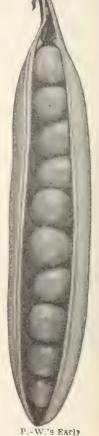

### P.-W.'s Early Laxton Superb Pea

This splendid novelty is a semi-wrinkled, extra early dwarf pea. It can be planted much earlier than the fully wrinkled sorts as it does not rot nearly so easily. It is without doubt one of the very best dwarf Peas ever grown. We have found none so near perfection in a Market Gardener's type. It is the best-flavored and the largest podded dwarf growing sort. It is ready and about three days after the earliest smooth sorts, and bears an enormous crop of handsome, intensely dark green, fairly broad and pointed pods, 4 inches long, containing from 8 to 10 large, dark green peas of excellent quality. The vines are 16 to 18 inches high, sturdy, and resist heat well. Our tests show it requires about 60 days from planting for green peas for table use, and 88 days to ripe seed stage. Pkt., 10c; lb., 40c; 2 lbs., 75c, postpaid.

# P.-W.'s Laxton Progress Pea

This remarkable new variety is a true wrinkled sort. Trials show last year that green peas were ready for use three to four days earlier than P.-W.'s Laxton Superb. Vines grow to an average height of 15 inches, heavy dark colored foliage. Pods are large, pointed, very dark green color averaging 4½ inches in length. Peas remain tender and sweet for a long time after being picked from the vines. It has dwarf habit of growth, extreme earliness, attractive deep green color combined with the fact that it is a true wrinkled, large podded sort will without question make this a leading market garden type for early use. Pkt., 10c; 1b., 45c; 2 lbs., 80c, postpaid. See page 53 for quantity prices.

P.-W.'s Early Laxton Superb

Acre Cabbage

A most profitable extra early market variety.

виге толеу maker for the Market Gardener.

A trial order will convince you of its splendid merits.

enhagen Market, in type. As its name implies, it is a money-maker. It is 8 to 10 days earlier than Copenhagen Market but is smaller and can be planted closer. Because of its earliness and fine quality it commands a higher price than any round-headed Cabbage. Pkt., 15c; ½ oz., 25c; 9z., 40c; ½ lb., \$1.25.

# P.-W.'s Wonderful or Golden Plume Celery

(See Cut)

This new variety is rightly named "Wonderful." It is a decidedly a distinct type, ten to twelve days earlier than Golden Self-Blanching and very much superior in eating quality. Plants are very large in size, short, stout, stocky and full of heart. It blanches easily to a beautiful clear, creamy white color. Vigorous grower, disease resistant. Plants grown under favorable conditions average about four pounds. It is decidedly a worth-while sort and no Market or Home Gardener should fail giving it a trial. Price—Pkt., 15c; oz., \$1.25; 1/4 lb., \$4.00.

## Mary Washington Asparagus

This is a new development from the Washington rust resistant variety. It comes into market earlier and has all the rust resistant qualities of the old type. The advantage of earliness is, of course, a very great one for all market growers. The shoots are large size, excellent quality, deep rich green color with a trifle purple tint at the tips Pkt. 10c: 1½ oz. 25c: 0z.,

P -W's Wonderful Celery

By means of our Centerville Seed rial Grounds we select only the BEST in both old and new.

See page 53 for Quantity Prices.

## P.-W.'s Sunnybrook Tomato

This is a selection from Burpee's Sunnybrook Earlians This is a selection from Burpee's Sunnybrook Earliana which has been recognized as one of the earliest of the red tomatoes. Trial Ground tests show it to be very close to Avon in general appearance and earliness. All of the fruits on the entire crop are ripe about the same time and entire crop can be gathered within a period of two to three weeks. This is a decided advantage for the early Market Gardener as advantage can be taken of higher prices before the second earlies are on the market. Pkt., 10c; ½ oz., 25c; oz., 45c; ¼ lb., \$1.50

## The Klondike Watermelen

A very popular new melon from the southwest The seeds are quite small, color brown mottled black, while the flesh is a distinctive shade of deep red. The rind is dark green; the shape is long with an average weight of 25 pounds. While more a home garden than a market variety, it is adapted for shipping moderate distances. Though sylindrical in shape, the Klondike taster slightly toward the blossom end. Edible in 82 days. Size averages 16x10 inches. It is a better shipper than most of the thin rind melons and is proving a favorite with the Market Gardeners in the Salt Lake valley. Pkt., 10c; 01. 15c; ½ lb., 50c, postpaid.

W.'s Sweet Spanish Onion Seed Field at Our Centerville Stock Seed Farm and Trial Grounds

#### P.-W.'s Peerless White Onion Best For Bunching—Valuable For Winter Use—Finest All Purpose Variety in the List.

In our estimation this splendid new variety is the best bunching onion that has come under our observation. We especially recommend it to our Market Gardener customers who desire a bunching onion that will be marketable over an extended period. It holds its tops longer than any other type and comes into market as early as the Pearl or White Queen. It is a true globe form, pure white, solid, ripening evenly. It makes a splendid winter onlon and it is a very good keeper. The mature onions grow to a good size, some average from 7½ to 9 inches in circumference. The flesh is white and fine grain and has a good flavor. We are sure that wherever tried this will become a Market Gardener's favorite, and equally desirable for the home garden as a green onion for use during the Summer season. Pkt., 10c; oz., 35c; ¼ lb., \$1.20; See page 53 for quantity prices. In our estimation this splendid new variety is the best

P .- W.'s Sweet

8panlsh

P .- W.'s Peerless White Onion

selection at Riverside, California. It is a big, globe-shaped, brownish yellow onion weighing from one to three pounds depending on how it is grown. It has an unusual sweet, mild flavor and in the Salt Lake Valley and sections of similar climatic conditions, if planted early, it can be thoroughly cured, insuring its good keeping and shipping qualities. It has become very popular here and is now the leading onion grown by Market Gardeners in the Inter-Mountain region. Hundreds of carloads are shipped out annually.

annually.

On good soil this variety produces onions measuring from four and one-half to five and one-half inches in diameter. A yield of two thousand bushels per acre is not uncommon. In the ordinary method of planting here it requires three pounds of seed per acre when planted directly in the field. This is a most popular method in this section. The seed we offer has been grown from selected onion bulbs and we unhesitatingly recommend it as having no superior anywhere. Pkt., 10c; 0z., 50c; % lb., \$1.75.

lb., \$1.75.

#### P.-W.'s Sweet Spanish Onlon

#### Genuine "Valencia Type"-Domestie Strain

This strain is a Davis County selection from the original Valencia strain of Sweet Spanish Onion. In general appearance, size, growth and yield repeated tests prove it to be almost identical with the "Riverside Strain" offered above. As this strain has become thoroughly acclimated, having been developed in higher altitudes than the Riverside it is but natural that it has proved to be a triffe earlier and more suitable for This strain is a Davis County senatural that it has proved to be a triffle earlier and more suitable for planting in the Inter Mountain rerions. The bulbs from which our seed is grown were most carefully hand selected for size, shape, color and early maturing qualities, and we unbesitatingly recommend this as the best seed for all growers where early maturity and hardiness is a factor Pkt., 10c; oz., 50c; ½ lb., \$1.75.

"Valencla"

Strain

Hale's Best Early Muskmelon

This new variety comes from the Imperial Valley in California. It is a melon of decided merit that will fill a long-felt want in long distance shipping because of its extreme earliness. Checking the several tests on this melon, the average period required is 63 days, and some of the tests were made in sections where the season was remarkable for its coldness. It is a salmon flesh melon of exceptional thickness. The shape is oval, average size is 8x4 ½ inches with very heavy netting with fairly prominent ribs. There is no question but what it will be a very valuable market garden variety as it leads the list in earliness among the desirable types of cantaloupes. Pkt., 10c; oz., 20c; ½ lb., 55c.

### VALUABLE LANDSCAPE BOOK FREE

Hales Best Early

#### P-W's Honey Ball Muskmelon

Recently introduced, this cantaloupe comes to us from Texas, but thrives generally where other meions will ripen. Perfectly round covered with netting, this variety is claimed to be a cross between Honeydew and Cannonball. It certainly has the good qualities of both and with its keeping and shipping qualities it will play a large part in the cantaloupe industry, in our opinion. The flesh is greenish, seed cavity extremely small, and edible to the very rind. While very sweet, yet there is some of the spicyness of the green fleshed cantaloupes which is lacking in one of its parents, the Honeydew. Edible in 100 days, Size, 6 ½ x6 ½ inches. Weight about 3½ pounds. (See cut.) Pkt., 10c; oz., 35c; ¼ lb., 90c.

Persian Muskmelon

While not properly a casaba, the Persian is also of tropical origin. It shows no trace of ribs and is completely covered with netting. The shape is oblong, the flesh extremely thick and pink in color. It is a shape is oblong, the flesh extremely thick and pink in color. It is a shape is oblong, the flesh extremely thick and pink in color. It is a shape is oblong, the flesh extremely properly weighing about 10 pounds. Edible in 102 days. Size large melon, weighing about 10 pounds.

A good keeper and a good shipper. It should be picked while yet quite solid. Customers should be educated to purchase half a dozen at a time and set them away to be eaten as they become mellow like a Casaba. When properly picked they are ready for the table within six to ten days. Pkt., 10c; oz., 25c; 1/4 lb., 80c.

P.-W.'s Honey Ball

#### P-W's Orange Flesh Muskmelon

Undoubtedly the "last word" in the Rocky Ford type of shipping melons and has brought the highest price in every market shipped to. Its appealing deep orange flesh is its distinctive characteristic. It is the most solid, with the smallest seed cell of any type and will weigh more to the crate. Fruit very uniform in size, nearly round and densely covered with a hard gray netting. Recommended with the smallest seed cell of any type and will weigh more to the crate. Fruit very uniform in size, nearly round and densely covered with a hard gray netting. Recommended for its hardness, prolificness, deep flesh and excellent eating and shipping qualities. (Extra Selected Stock Seed. Pkt., 10c; oz., 25c; ¼ lb., 65c.

### Edward's Perfecto (Pink Tint) Muskmelon

A new type of the Rocky Ford, showing a trace of Burreil's Gem. The seed cavity is triangular and the flesh extremely thick, sweet and spicy. There are two strains, the salmon tint and the pink meat, but we believe the pink to be the better. The melons are almost perfectly round, heavily netted, no ribs, and the shipping qualities are splendid. We think the Perfecto will supercede many of the older shipping varieties. Edible in 96 days. Average size, 6x5 inches. Weight 3 pounds. Pkt., 10c; oz., 20c; 1/4 ib., 60c:

See page 53 for quantity prices. To secure earlier melons use Hot Caps. (See page 96).

New Orange Flesh

Remember Our Prices are based on delivery to your express or Post Office. do not have to bother about transportation charges. WE ARE THEREFORE JUST AS NEAR TO YOU AS YOUR POST OFFICE. All charges are Prepaid and Safe Delivery quaranteed.

## ASPARAGUS

Sow early in the spring, in a bed of light, rich, well manured soil, in drills one foot apart. When the plants become withered, cut them down and spread well rotted stable manure two inches deep over the bed. Let the plants remain in the seed bed until they are about to grow, early in the spring.

For private garden use, set in rows two feet apart and the plants about a foot apart in the row, with crowns four inches below the surface, and spread the roots. For field culture, the rows should be six feet apart and two feet apart in the rows.

Before winter cover the transplanted beds with about four inches of manure and fork it in the next spring, being careful not to injure the roots. In autumn cut the ripe tops and burn the refuse. One pound of good fresh seed will produce plants sufficient for an acre, and an ounce of seed will sow a fifty-foot drill.

Conover's Colossal—The standard variety for all purposes. Large, thick, wide, tender shoots of very greenish-white color.

Barr Mammoth-Large and tender.

Palmetto-Light green.

P.-W.'s Early Giant Argenteuil—Special strain of this famous Parisian Asparagus. Grows to a large size, free from rust, superb flavor. Locally a favorite for canning.

Any of above—Pkt., 5c; ez., 1/4 lb., 35c; postpaid.

Washington Rust Resistant and excellent quality. Pkt., 10c; oz., 20c; 1/4 lb., 65c.

New Mary Washington—See Novelties, Page 55.

See page 53 for quantity prices.

### **Asparagus Roots**

Strong one year old roots of any of the varieties listed above, 30c per doz.; \$1.50 per 100, postpaid. Not prepaid \$1.00 per 100; \$8.00 per 1000.

Two-year old roots—50c per doz.; \$2.75 per 100, postpaid. Not prepaid. \$1.75 per 100; \$12.00 per 1000.

### CHIVES—Allium Schoenoprasum

An onion-like plant used as a salad and for flavoring soups. Also, the plant makes an excellent ornamental garden bed edging which may be frequently cut, a new growth of leaves appearing soon after each cutting. One sowing will answer for about three years. Pkt., 10c; ¼ oz., 25c; oz., 85c. Plants: 25c per bunch; two for 45c, postpaid. Not prepaid, 20c each; \$2.00 per dozen.

Odense Market

### ARTICHOKE

Artichokes are cultivated for the edible bud that resembles the giant thistle. The plants want a very rich soil and plenty of moisture. The seed should be planted in boxes in February and transplanted in the field about the latter part of March or April. With slight winter protection they will remain in bearing three or four years.

Large Green Globe—The most popular variety, buds large, globular, deep green, with a slight tint of purple at base. Pkt., 10c; oz., 50c., 1/4 lb., \$1.85.

Jerusalem (Tuberous Rooted)—For hog pasture. When once established it is hard to kill out. Lb., 20c; 10 lbs., \$1.50, postpaid. Not postpaid, 100 lbs., \$7.50.

### **Brussels Sprouts**

The plants are very hardy and grow from two to three feet high, hearing a large mass of leaves at the top. The sides of the main stem are covered with three or four dozen small cabbage heads which are broken off and cooked the same as cabbage.

Sow and treat the same as cabbage, which see for cultural directions.

Odense Market—Produces an abundant crop of firm, well formed sprouts, thickly set around. Pkt., 10c; oz., 25c; ¼ lb., 85c.

### Chicory

Sow seed the same as for late cabbage plants. The crop of green may be transplanted and set a foot apart in the rows. Best after being touched by frost. One ounce will produce about 3,000 plants.

Large Rooted Madgeburg—Pkt., 10c; oz.. 30c; ¼ lb., \$1.00; lb., \$3.00, postpaid.

### Collards

Sow seeds as early in the spring as the ground can be prepared in a rather light, moderately rich soil, in drills two or two and one-half feet apart, for either garden or field culture. When plants are sufficiently large, thin to six inches apart in the row. Cultivate well and in the fall dig the roots, slice them and dry in an apple evaporator or kin constructed for the purpose.

Creole or Southern—Cabbage, Greens, used as a substitute for cabbage in the south. Pkt., 10c; oz., 25c; ¼ lb., 70c; lb., \$2.00, prepaid

### Corn Salad

Sow in spring in drills a foot apart; it will mature in six or eight weeks. For winter and early spring use, sow in drills in August or September. Three ounces to 100 feet of drill. Large seeded.

**Broad Leaved**—Pkt., 10c; oz., 50c; 1/4 lb., \$1.50, postpaid,

One Ounce 50 Feet; 4-6 Pounds per Acre

The soil best suited for beet culture is that which is rather light and well enriched. Sow in drills one foot apart and one inch deep, as early as the ground can be worked. When the young plants are two or three inches high, thin to five or six inches. The young plants that are pulled out make delicious "greens," considered by many superior teen to spinach. It is a common practice to plant the seed extra thick to assure an abundance of these tender, fresh plants to use for this purpose. Sowings should be made for succession at least once a month up to the first of July, then making a large sowing to produce a supply of well grown roots for winter use.

After repeated comparative tests we recommend P.-W.'s Early Wonder as the best first early for market gardeners for all purposes and general planting the Detroit Dark Red is still the leader.

Detroit Dark Red Beet

P.-W.'s Dark Leaved Globe-(See novelties page 54.)

Crosby's Egyptian—This is more globular in shape than the Earlier Egyptian, and one of the best known and most popular varieties. It is very early and of fine quality. Bright red with clear vermillion flesh. Our choice as a first early. Pkt., 5c; 0z., 10c., 1/4 lb., 35c, postpaid

Detroit Dark Red Extended experience has shown this variety to be the best deep red turnip beet. Tops small, upright growing, so that the rows may be close together; leaves, stems and vines dark red, blades green; roots globular or ovoid, peculiarly smooth; color of skin dark blood red, flesh bright red zoned with a lighter shade, very crisp, tender and sweet, and remaining so for a long time. Pkt., 5c; oz., 15c; V. lb., 35c, postpaid. 1/4 lb.,, 35c, postpaid.

New Crimson Globe—A perfect beet in all respects; brilliant crimson in color, globe-shaped, with a very smooth skin, and an exceedingly small tap-root; fine grained, sweet in favor and tender at all times. Very close to the Detroit Dark Red, apparently a trifle earlier. Pkt., 5c; oz., 15c; 1/4 lb., 40c; postpaid

Early Wonder Beet This comparatively new introduction in the earliest of the table varieties. It is globe shape and very uniform in size, skin smooth, fiesh a deep blood red, making it especially desirable for pickling and canning The tops are small and deep colored. It is fine flavored, remaining tender and crisp for a long period. For a first early type it is unexcelled either for home use or market garden. Pkt. 5c; oz.. 15c; ¼ lb., 35c, postpaid.

For quantity prices see page 53.

See Page 62 for Stock Beets

Extra Early Egyptian—Popular early forcing or market beet.
Eclipse—Almost as early as the Egyptian, but of much finer Improved Blood Turnip-Very regular, a deep blood red, ex-

Early Wonder Beet

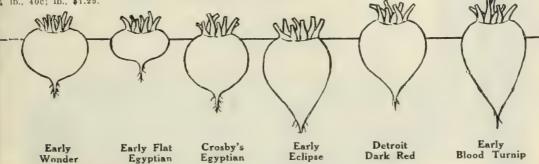

ceedingly sweet.
Early Model—Globe-shaped, early, deep blood red. Fine dark smooth skins; matures in 50 days.

Any of the above, except where noted, Pkt., 5c; oz., 10c; 1/4 lb., 35c, postpaid. SWISS CHARD (Large-Ribbed Spinach Beet)

quality

Man's Garden). This vegetable gives maximum returns for minimum space. Sow early in spring, in rows sixteen inches apart, and thin out to six inches apart in the rows. It can be used all summer when spinach is not available.

Luculius Swiss Chard—A new moss curled sort. Very large leaves. The mid-ribs are very broad and form a good substitute for asparagus during the summer months. The leaves are very large and tender and may be cut continuously from June until frost; cooked and eaten the same as spinach. Pkt., 5c;., oz., 15c· ¼ lb., 40c; lb., \$1.25. 40c; lb., \$1.25.

Outline Chart Illustrating Beet Types and Their Relation to the Ground Line

# STRINGLESS BEANS

Most people concede there is very little difference either in the first tenderness between the wax-podded and the green-podded types. Precisely the same culture should be given to each. In both classes there are round and flat podded varieties; it is thought the round are a little more brittle and the flat are better yielders.

Culture—Beans are somewhat tender, but it often pays to take some risks. Plant in warm, loamy soil at the beginning of settled, warm weather in spring, and at intervals for succession until August. Rows may be made 2 feet apart, and the beans planted a few inches apart in the drills, or 3 or 4 beans in hills, 6 to 8 inches apart. If the ground is dry and irrigation necessary to sprout the beans, irrigate the ground first, planting the seed as soon as the ground is dry enough to prepare for the seed. Never irrigate immediately after planting, as it will crust the ground preventing the beans from coming through, and often cause them to rot. Beans require very little water. After each irrigation or rain mulch the soil as soon as it is in good working condition. This will conserve the moisture and require less water. Cultivate frequently and shallow; but never when the vines are wet. One pound will sow 100 feet of drill, 60 lbs. per acre.

It is NOT GENERALLY KNOWN THAT—

IT IS NOT GENERALLY KNOWN THAT—

When your bush varieties of string beans have borne a crop don't pull them up but as soon as you have finished the last picking, cut the bush off about six inches above the ground. A new growth will appear and in a remarkably short time bear another crop of beans. The same is true of Fordhook Limas.

### **Green Podded Beans**

The green podded beans are by far more popular, and much more universally grown than the wax varieties. Burpee's Stringless Green Pod is the popular favorite wherever grown and used. As a home garden variety it is in a class by itself, but is too tender for shipping any distance, and rather light colored for canning. It is medium early and quite productive. Glant Stringless Green Pod is a larger type of Burpee's Stringless Green Pod, bush and pods larger and a deeper green, more productive and a few days later. A decided favorite with the market gardener on account of its large pods and heavy yielding qualities.

The yield of beans can be greatly increased by seed inoculation. See page 88 for prices.

Our selected, critically grown stocks of Garden Beans have been thoroughly "hand picked" and are not to be compared with the ordinary grades.

Bountiful—This excellent dwarf, green podded sort is similar in appearance to Early Yellow kidney Six Weeks but is of much better quality. The vines are vigorous and productive. The pods are very long, six to seven inches, straight, broad flat, light green, of handsome appearance and absolutely stringless for snaps. They are tender and brittle, much longer than most sorts. The pods are longer, broader and have much longer tips than those of Long Yellow Six Weeks. Seed medium sized, kidney shaped, light yellow with brownish circle about eye. Bountiful is a most desirable early sort for snaps for the home garden.

Giant Stringless Green Pod--An immense type of "improved Early Valentine" and nearly as early. The pods have all the excellent qualities of the original with much greater size, which greatly improves the appearance. A splendid succession sort to Stringless Green Pod.

Burpee's Stringless Green Pod—Excellent early variety. Unexcelled for canning. A standard everywhere.

Early Red Valentine - Early, tender, heavy yielder. Round Yellow Six Weeks-Brittle and

Valentine-Pods long, straight, Black

heavy yielder; rustproof.

Refugee or One Thousand to One—Pods about five inches long, round curved, light green, slightly stringy. Used extensively green, sligh for canning.

Price-Any of above varieties, Pkt., 10c; 1/2 lb., 20c; lb., 35c; 3 lbs., 90c, postpaid.

### **Wax Podded Beans**

New Pencil Pod-This variety is our selection as the best for the home garden or for near-by markets. It is extremely productive, bearing magnificent, straight, pencll-shaped pods, six to seven inches in length, of a rich golden-yellow color; beautifully rounded, meaty, deeply saddlebacked, fresh, brittle, solid and entirely stringless and of mild, sweet flavor.

Challenge Dwarf Black Wax—The pods are quite round, very fleshy, crisp, tender and stringless. A good market sort, being a prodigious yielder.

White Kidney Wax—Hardy, productive, desirable where white-seeded midseason sort is wanted

Improved Rust-Proof Golden Wax—Early, productive; pods are lon~ nearly straight, broad, flat, very fleshy; good snap bean.

Price-Any of above varieties, Pkt., 10c; 1/2 lb., 20c; lb., 35c; 3 lbs., 90c, postpaid.

### ORDER EARLY

In January and February, if possible, before the Spring rush begins. March and April are our busy months and our full force works day and night under top pressure. We allow you 5% discount for the privilege of filling your order BEFORE MARCH 1.

# Pole and Running Beans

These beans require a pole or trellis to climb on, if planted in the garden, although if raised in the open field they need no support whatever. Set poles four feet apart each way and plant four to six beans about one inch deep around each pole. Thin out to three plants to a hill, if soil is rich. Pinch off ends of plants when they overrun poles, to get more perfect growth below. One pound will plant about 75 to 100 hills.

Kentucky Wonder or Homestead The pods are very thick, meaty d deeply saddle-backed and enthely stringless Bright yellow in color. The best variety of this class for all purposes. Pkt., 10c; 1/2 lb., 26c; lb. 35c, Postpaid.

Lazy Wife—Pods medium dark green color, grown in abundance; measures from 4½ to 6 inches in length, broad, thick, fleshy and en-tirely stringless. Make excellent tirely stringless. Make excellent shell beans. Pkt., 100; ½ lb., 200; lb., 350, Postpaid. Pole Lima (King of the Garden)
—Pods large, straight and handsome. The pods frequently contain five or six very large beans.
These beans are of excellent qualfity, easily shelled. Pkt., 100; 1/2
lb., 200; lb. 35c, Postpaid.

and old fashioned climber has a Scarlet Runner—This well known bright scarlet pea-like flower. It not only holds its place as a flower, but the pods when young are fine quality for cooking. Pkt., 10c; ½ lb., 30c; lb., 55c.

# Dwarf Lima Beans

We recommend the Dwarf or Bush type as being much more desirable than the Pole Limas. They are of easier culture as the vines require no support; the beans are fully equal in quality and yield, maturing much earlier; a very decided advantage, especially for the Mountain States. Plant the seed, if possible, in rich, light soil after all danger of frost is over. For kitchen garden the rows should be about 18 inches apart and for field cultivation two or three feet; drop the seed 3 to 4 inches apart in the row covering 1½ to 2 inches deep; to six beans in a hill. Limas will not thrive in over moist soils. Of the great number of varieties tested out we have selected two which we think best adanted think best adapted.

Fordhook Bush Lima-The highest quality Bush Lima Bean, it is the old "Potato" or "Kummerle" improved. This new sort ity Bush Lima Bean, it is the old "Potato" or "Kummerle" improved. This new sort grows very erect, does not come in contact with the ground as did the older sort, named above; pods are twice the size of the "Kummerle" and contain 4 to 5 large, thick, beautiful green beans. In contrast with the old sort, which was dry and mealy, this new Fordhook is tender, sweet and julcy; a richly palatable bush lima bean.

Pkt., 10c; ½ lb., 25c; lb., 40c, postpaid.

Burpee's Improved Bush Lima— Our trials show this to be the earliest maturing of all the large-seeded Limas, and it is the equal or better in all the other qualifications that go to make up a destrable bean, either for the home garden or for market. This variety is decidedly best for all purposes of the Large Limas. Pkt., 10c; ½ lb., 25c; lb., 40c, Postpaid.

Kentucky Wonder (Old Homestead)

Henderson's Bush (or Dwarf Sieva) -- This variety is sometimes known as "Butter Bean." It is one of the earliest dwarf sorts, extremely hardy and productive. The plants grow without runners and continue to grow and set pods until killed by frost in the fall. Pkt., 10c; 1/2 lb., 20c; lb., 35c, postpaid.

# Shell Beans

All of the sorts we list under this division are grown exclusively to use as shell beans for winter use. They are grown extensively as a field crop. For horse cultivation they should be sown in rows three to four feet apart, dropping about three seeds to the hill one foot apart in the row. Bean drills are used on large acreages. The quantity per acre sown varies with the sort and soil condition all the way from 10 lbs. to 40 lbs. per acre. For dry situations by all means use the Mexican Pinto, but where water is plentiful and you are growing for market, the White Navy is the best known commercially. The Pink Eye is a splendid variety for home use.

Great Northern — Very popular white shell bean, similar to White Navy — The well known small white Boston baking bean.

White Navy — The well known small white Boston baking bean.

Pkt., 10c; lb., 20c, Postpaid.

English or Broad Windsor—Immense size; known as the horse bean.

Pkt., 10c; lb., 35c, Postpaid.

Pkt., 10c; lb., 35c, Postpaid.

Mexican Pinto—Decidedly rich in od value; extra heavy cropper. food value; extra heavy Pkt., 10c; Ib., 25c, Postpaid.

Pink Eye — Large winter shell ean; white with pink spot at center. bean; white with pink spot a Pkt., 10c; lb. 25c, Postpaid.

Pkt., 10c; lb., 35c, Postpaid.

Market Gardeners and Large Buyers See Page 53 for Quality Prices on All Varieties of Beans

Inoculate Beans. Helps make a bigger crop and improves the soil. See page 88.

Burpee's Improved Bush Lima

# **BEETS—For Stock Feeding**

The tremendous importance of stock beets to every stock and dairy farmer in America should be shouted from the housetops. The farmer who is not awake to the money making possibilities of this crop has overlooked one of the most profitable crops known to agriculture. Just think of it: "A yled of from 20 to 60 tons per acre and the feeding value, pound for pound, almost equal to grain; conservatively figured, just the average yield, therefore, would be the equivalent of a 1,000 bushel yield of oats, as far as feed value is concerned.

Culture—Sow seed in drills 24 to 30 inches apart and thin to about nine inches in row. Requires 8 to 10 pounds of seed per acre.

P.-W.'s Glant Sludstrup Wonyielder, and rich in food value. It grows cylindrical in shape and largely out of the ground; easily harvested, and its shape prevents it being broken in handling. Crops as high as fifty tons to the acre are not unusual. Color of skin reddish yellow above the ground and light rose tint underneath. Flesh firm, crisp and very rich in sugar. Extremely desirable for stock feeding. derful

Glant Half-Sugar White Mangel—This magnificent half-sugar beet, while giving nearly as large a yield of easily grown and harvested roots as a crop of Mammoth Long Red Mangels, supplies a food of very much higher nutritive value, the roots for feeding purposes being really more valuable, pound for pound, than those of the very best strains of sugar beet, and the yield under equally favorable conditions is more than double. The roots grow partly out of the ground and crop can be harvested and stored at less expense. We are certain that everyone who plants this variety and grows it with care will be much pleased. Glant Half-Sugar White Mangel-This

### Improved Mammoth Long Red

Mangel This is truly a mammoth, a single root often weighing twenty pounds. The extra large, long roots are blood red in color and very nutritious. Enormously productive.

yielding under favorable conditions, as high as 70 tons per acre. Our stock of improved Mammoth Long Red Mangel is a selection and the roots are very large, uniformly straight and well formed; color, deep red; roots straight, tops small.

Danish Red Giant Eckendorfer—Of cylindrical form growing above the surface; heavy cropper.

Golden Tankard—Flesh yellow, differing from others; sheep prefer it; a heavy yielder.

heavy yielder.

Royal Giant or Half-Sugar Rose—
Similar to the Giant Sugar, except color of skin.

### Sugar Beets

Usually planted for sugar making. On account of the amount of saccharine contained in the Sugar Beet, it is much relished by stock, and as a fattener it is very desirable, but does not yield the tonnage that is common with the regular Mangel Wurtzels and the Half-Sugar Stock Beets Culture same as stock Culture same as stock Stock Beets. beets.

Klein Wanzleben-This variety is the best in cultivation, not largest, but richest in saccharine.

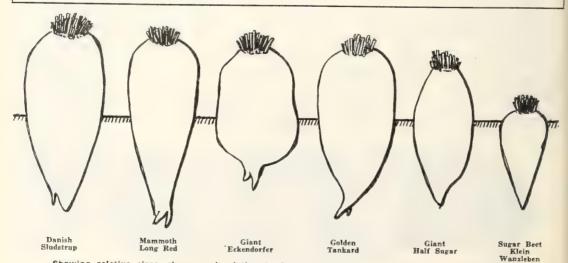

No dairy farmer or stockman can well afford to be without a liberal planting of Stock Beets. A most profitable Farm Crop.

Giant Half-Sugar Mangel

Any of the above, Pkt., 5c; 1/4 lb., 20c; 1 lb., 50c; 10 lbs., \$4.50. See page 53 for special prices on quantities.

Remember Our Prices are based on delivery to your Express or Post Office. You do not have to bother about transportation sharges. WE ARE THEREFORE JUST AS NEAR TO YOU AS YOUR POST OFFICE. charges are Prepaid and Safe Delivery Guaranteed.

Showing relative sizes, shapes and relation to Ground line of various Stock and Sugar Beets.

The Carrot is one of the most wholesome and nutritious of our green roots, supplying those precious vitamines so necessary for a health diet. When half grown it is one of the most tender and delicious vegetables and deserves to be more extensively used.

Sow at any time in spring in deep, loose-soil, preferably sandy loam about one-half inch deep, in rows eighteen inches apart and thin to three inches apart. Water freely at all times One ounce 150 feet of row, 4-6 lbs. per acre.

### **Table Varieties**

P.-W.'s Chantenay (The Market Gardener's Favortte. Tops medium sized, necks small, roots tapering slightly, but uniformly stumprooted and smooth color, deep orange-red flesh, very crisp and tender. Although this is a medium early sort it furnishes roots of usable size as early as any; it is a heavy cropper and is undoubtedly one of the best for both the market and private garden, while its great productiveness makes it very desirable as a field sort. Pkt., 5c; oz., 10c; ¼ lb., 35c. 10c; 1/4 lb., 35c.

Danvers Haif Long An old, popular variety and in the past the most largely used, not only for stock raising, but for table use as well. The perfect type is about eight inches long and about two and one-half inches wide at the shoulder, tapering to a sort of half-point at the bottom. Color is a bright orange scarlet; is very heavy cropper. Pkt., 5c; oz., 10c; ½ lb., 35c.

St. Valery—Much longer than Danvers Half-long, reddish orange color. Makes an excellent table carrot, and its heavy yields renders it valuable for field use. Pkt., 5c; oz., 10c; 1/4 lb., 30c.

Early Scarlet Horn—Deep red flesh, tender and delicate. Pkt., 5c; oz., 10c; 1/4 lb.,

Nantes (Half-long Scarlet Stump Rooted)—This is a market garden favorite. The mature roots average about 6 inches in length, smooth, orange color flesh yellow center, very tender of finest quality. Pkt., 5c; oz., 10c; ¼ lb., 35c; lb., \$1.00.

Oxheart (Guerand)—very distinct and desirable, smooth and handsinches long, a rapid grower and of fine quality; color, orange-red a good all-season Carrot. Pkt. 5c; oz., 10c; ¼ lb., 30c;

See page 53 for prices on quantities.

Sow in drills far enough apart for horse cultivator and thin out in row to 5 to 6 inches. Requires about three pounds of seed per acre.

We consider the improved Short White the best Stock Carrot, all things considered. If a yellow carrot is wanted improved Long Orange will give good returns.

Improved Long Orange A well-known standard sort, roots long, thickest near the crown, taper-ing regularly to a point; color deep orange. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., 90c. Mastodon—Very productive, large white. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c. Improved Short White—This is the best and most productive for stock feeding. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., 90c.

P.-W.'s Chantenay

Splendid for salad, garnishing. Sow seed one foot apart in open ground Sow often for succession, as it soon runs to seed. Water Cress requires a stream of running water, ditch or pond, in which it will grow without care, except at first keeping weeds from interfering with it.

Extra Curled or Pepper Grass—The leaves of this small salad are much frilled or curled, and are used for garnishing. Pkt., 5c; oz., 10c; ¼ lb., 35c,

True Water—A fair growth may be obtained in soil which is kept wet but does best when grown along moist banks or in tubs in water-covered soil. The seed is usually sown and lightly covered in gravelly, mucky lands along the borders of small, rapid streams. The plants will need no subsequent culture, as under favorable conditions they increase very rapidly by self-sown seed and extension of the roots. Pkt., 10c; oz., 50c; 1/4 lb., \$1.25, postpaid.

The wonderful Green Feed for Poultry from China which has been known to

Pe-Tsai (Chokurei (Chinese Cabbage)

A wonderful food for poultry.

A wonderful food for poultry.

The wonderful food for poultry.

The description of the produces to 7 pound heads in sixty days. It has large outside leaves grow round, more like the Cos-lettnee. The heart is pure white, tender, sweet, and crisp. The young leaves are very popular for use in salad. It is hardy and will keep until early spring if placed in the cellar. The tender leaves make it a destrable plant for poultry greens; chard or littnee, because it can be grown with less care and in any convenient place about the premises. Try it for your hens. One ounce will sow 100 feet of row. Pkt., 10c, oz., 25c; ¼ lb., 75c, postpaid.

### CHINESE OR CELERY CABBAGE

This plant more nearly resembles a Giant Cos lettuce than it does Cabbage. It forms a tall fine head, often weighing four pounds; leaves are large, light green, crimped at edges, with broad white midrib. Has very little of the Cabbage flavor. May be eaten raw as a said, or boiled like Cabbage. This vegetable has become very popular within the last few years. Sold in the markets under the name of Celery Cabbage. For early use, sow seeds in hotbed in March, and transplant outdoors April 15, in rows 24 inches apart; setting plants 15 inches apart in the row; for fall use, sow end of May in drills, and either transplant or thin out to 15 inches apart when plants are large enough. Pkt., 10c; oz., 30c; 16, 83.50.

See page 53 for quantity prices unless otherwise specified all prices on this page are postpaid.

# CABBAGE FOR ALL SEASONS

As with all other seeds our selection of cabbage stocks are positively from the best sources of supply, and the best strains obtainable, as proved by our own tests:

Culture—Cabbage does best in rich, moist, well prepared soil; extra care should be taken in working it deeply as most varieties of cabbage do not thrive in shallow soils. For the early varieties in the mountain states and similar climatic conditions sow in hotbeds in the late winter or very early in spring and transplant to the open ground as soon as ground can be worked. Don't neglect to "harden the plants off" before transplanting and see to it that they are not so thick in the beds as to make them spindly. In transplanting to the open ground set in rows 18 to 24 inches apart and 12 to 18 inches between plants in the row. For field cultivation three feet between rows would be better. The fall and winter varieties can be handled in the same way or if the seedbed is in good condition an easier and equally successful method is to sow the seed in hills or with a regular garden drill in the open ground using about one pound of seed per acre; when plants are well out of the ground thin out to proper distances in the row. One ounce 1500 plants; half-pound to transplant an acre.

About pests—If bothered with cabbage worms, use arsenate of lead and for cabbage louse or aphis, Black Leaf 40 is effective.

Vitamines in Cabbage Increase Consumption—Recent investigations have shown cabbage to be rich in vitamines and as a result of a national campaign to promote the eating of cabbage, cabbage sales are increasing by leaps and bounds. It has been proven that cabbage is a great aid to digestion and people are demanding cabbage as never before.

P .- W.'s Baby Head (Earliest of All)

P.-W.'s Baby Head (Earliest of All)—This is a new forcing cabbage of exceptional merit developed by a Copenhagen specialist. It is of very compact growth forming very few outer leaves and small round solid heads extremely firm, and of excellent quality. As a first early variety it should surely find a place in every garden. It matures a week to 10 days earlier than Early Jersey Wakefield. Pkt., 20c; oz., 40c; ¼ lb. \$1.25; ½ lb, \$2.00.

P.-W.'s Early Jersey Wakefield we assure our market gardener customers that our strain of Jersey Wakefield meets every requirement in points of earliness and even head, so that the entire crop can be marketed very early. It grows very compact with nearly oval, deep green leaves. Short stem, medium size, very solid, pointed heads of excellent quality. Undoubtedly the best extra early pointed headed cabbage, either for home or market. Pkt., 10c; oz., 30c; '4 lb., 75c. We assure our market gar-

Mammoth Red Rock—Pkt., 10c;
0z., 30c; ½ lb., \$1.00.
Marvin's Savoy, crumpled leaf—Pkt., 10c; 0z., 30c; ½ lb., \$1.00.

Copenhagen Market We of fered this for the first time in 1913 and it certainly has more than fulfilled our expectations. Repeated comparative tests show it to be as sure a header and as early as the famous old Early Jersey Wakefield. Market gardeners nere are delighted with it. The plants are short stemmed, producing heads almost on the ground; uniformly large, round, solid and of excellent quality. The light green leaves are medium in size, saucer shaped and are always tightly folded; the plants may, therefore, be set closer than most other early varieties. It is a vigorous grower and yielder, and an excellent keeper. Our stock of Copenhagen Market comes to us direct from the originator. (See cut.) Pkt., 10c; oz., 25c; ¼ lb., 75c. Pkt., 10c; oz., 25c; 1/4 lb., 75c.

Copenhagen Market

Danish Ball Head (or Hollander) (P.-W.'s Short Stemmed Strain)—This selected stock is the most popular of all late varieties for winter use Genuine seed grown on Amager Island, Denmark, Many trials have demonstrated the superiority of the Danish seed of this variety over that grown in other countries and localities. It is sure to head, being round, hard and extremely heavy, though not extra large. It can be grown in close quarters on account of its compact habit, and as to its keeping qualities, it comes out of the pit in March or April as fresh as when put in, with absolutely no waste. No cabbage has attained to so great a popularity as the true strain of P.-W.'s Short Stemmed Danish Ball Head, without doubt the leading fall and winter cabbage.

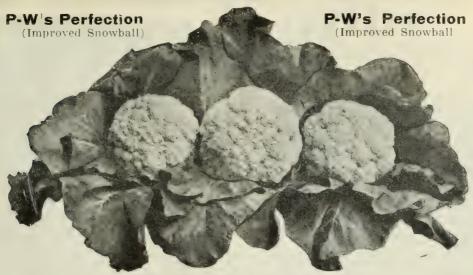

No one can afford to risk seed of doubtful origin and quality when the prices of high grade Tested Stocks are so reasonable, By means of our Trial Ground we select only the best.

#### Cabbage Plants

Strong, vigorous, well hardened transplanted plants of P.-W.'s Early Jersey Wakefield, P.-W.'s Baby Head, Danish Ball Head, Short-stemmed and Copenhagen Market are ready in April and May. Price 25c per doz; \$1.50 per 100, postpaid, Not postpaid, \$1 00 per 100; \$7.50 per 1000. Ask for quantity prices on field grown not transplanted plants for May and June delivery.

P.-W.'s Short-Stemmed Ball Head

## CAULIFLOWER

Plant the seed in beds in May for fall crop, and transplant to garden or field the latter part of July. For early summer crop, plant the seed in hotbeds in January or early in February and the plants will be ready for the field as soon as danger of frost is over. Young plants should be thinned, since they become very spindly if allowed to grow too. grow too thick.

Transplant to the field, they should be set in rows two feet apart each way. If they are hardened before setting in the field and the growth is not checked, they will head well

After plants are set in the field cultivate same as cab-

If you want the best seeds of the best strains of cauliflower yet introduced, something true to name, type and description, and something you can depend upon, send us your order and you will get it. Our seed comes direct to us from Denmark from the world's best specialists, and is equal to any stock offered elsewhere regardless of price.

P.-W.'s PERFECTION (Improved Snowball—We obtained this grand new strain from a Danish specialist. Our tests show it to be the best peer of all yet developed. It is adapted for either early or late fall use. It possesses all the good qualities of the best Early Snowball strains. The leaves are longer than the Snowball varieties, and enfold closely over the heads, glving a particularly attractive appearance when displayed for sale. The inner leaves almost cover the snow white heads, bleaching them nicely, thus advoiding the necessity of early tying of the leaves, as is necessary with other early sorts. Another noted trait of distinction is its uniformity in maturing, enabling the grower to harvest practically all of the crop at one cutting. Its sure heading characteristics are remarkable and superior to any other strain that has come under our observation. It produces beautiful snow-white, compact, solid heads uniformly of good size and excellent quality. Pkt., 10c; ½ oz., 75c; oz., \$2.25. \$2.25

#### P .- W.'s DANISH GIANT (Dry Weather Cauliflower)

The merits of this first-class Cauliflower are recognized by increasing sale every year. Heads are pure white and of fine quality.

It is very similar in growth, size and other characteristics to the Early Snowball. Its main feature is the fact that it will stand an unusual amount of dry or warm weather and still produce large, solid heads. In some climates, where heretofore it has been impossible to grow good cauliflower, this fine variety has proven a success. It is ready for market or table about a week later than Extra Early Erfurt. Pkt., 10c; 1/4 oz., 75c; oz., \$2.25.

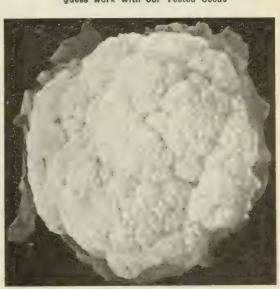

Erfurt Earliest Dwarf—Very dwarf in habit, producing pure white heads, desirable forcing. Pkt., 10c; 1/4 oz., 60c; oz., \$2.00.

Early Snowbail—The well known stand by which has been so long a favorite of home and market gardeners. It is just as good as ever. Suitable for either early or late planting. Under favorable conditions nearly every plant will make a fine, solid head of good size. Pkt., 10c; 1/4 oz., 750: px. \$2.25. 750; oz., \$2.25.

(See Page 53 for Quantity Prices)

bag, the more often and thorough the cutivation the better the crop will be. Cauliflower requires plenty of water, especially when heading. The plants should be kept conbag, the more often and thorough the culvation the bestthe crop will be. Cauliflower requires plenty of water,
especially when heading. The plants should be kept constantly growing, as the crop may be injured if the growth
is checked any time before maturity. Watch the plants
closely, and when the head develops to about the size of
a silver dollar, draw the leaves over it and tie them together to protect it from sun and light, causing it to
develop uniform, white, solid heads. It matures very
rapidly after beginning to head and is usually ready to
cut six to eight days after being tied. One ounce of seed
produces 2000 to 2500 plants. It requires about 10,000
nlants for an acre. plants for an acre.

Good Seeds are the Foundation of Good Crops. No guess work with our Tested Seeds

P .- W.'s Danish Giant (Dry Weather)

CAULIFLOWER PLANTS Strong well hardened transplanted plants of Early Snowball and P.-W.'s Perfection will be ready in April and May. Price 35c per doz., \$1.75 per 100 Postpaid. Not prepaid, \$1.00 per 100; \$8.50 per 1000.

## CELERY

For early summer celery sow seeds of the selfplanching sort in flats under glass during latter part of February or early March. In May to June 15th, set the plants in very rich and well prepared land, six nches apart in the rows, three to four feet apart. Cultivate thoroughly and blanch out by boards set up egainst rows. For later and winter celery start seed in dats as for early, or directly into open ground. Make the rows for plants one foot apart, sow seed shallow and firm well. The rows should be four to five feet spart. To blanch, earth up gradually to within a few inches of tips of leaves. For winter take up plants with roots, place upright on wet soil in a dark cellar or root house, and pack closely. One ounce will produce from 5,000 to 10,000 plants.

P.-W.'s Improved Golden Crisp so much in demand. This carrian was originally developed by the Chinese gardeners. Its supply lasted. We have finally succeeded in getting a reliable source of supply for the seed of this much sought after variety. It is much stouter, thicker and heavier, with double the amount of heart of any known celery. The plant is beaufiful in appearance, of close habit and compact growth, and blanches to a beautiful, creamy white. Ribs perfectly solid, crisp and of a delicious nutty flavor. Once sown, always grown. Pkt., 15c; Oz., licious nutty flavor. \$1.25; ¼ lb., \$3.50.

Golden Plume or Wonderful

A new type of golden Self Blanching with wider leaves
and thicker stems. Pkt., 25c; oz., \$1.50; 1/4 lb., \$4.50.

see front novelty page for cut and description.

Golden Self Blanching—Of quick growth, easy self-blanching character, combined with handsome appearance and crisp, sweet flavor. It is a good early Celery for home gardens and local markets. Pkt., 15c; oz., \$1.00; ¼ lb., \$3.00.

Giant Pascal-Large, thick, solid, round stalks.

White Plume-But little earthing up to blanch.

Winter Queen-Light green stalks, very solid, tender and crisp; planches perfectly.

Except where noted, any of the above, Pkt., 5c; oz., 25c; 1/4 lb. 75c.

Celeriac—(Turnip Rooted Celery) Large Smooth Prague—An improved turnip-rooted celery. Roots large, round and smooth, free from side roots. Pkt., 5c; oz., 25c; 1/4 lb., 75c.

#### **CELERY PLANTS**

Ready May to July—Golden Crisp, Golden Self Blanching and Winter Queen—Strong transplanted plants, 35c per doz.; \$1.50 per 100, postpaid. Not prepaid, doz., 25c; \$1.75 per 100; \$8.50 per 1000.

### ENDIVE

A salad vegetable which is becoming very valuable for winter use. should be sown in June or July, in rows, and thinned to about six naches apart. One ounce 300 feet, 4 to 5 pounds per acre.

Broad Leaved Batavian—Broad, more or less twisted and waved en leaves with thick white mid-ribs. Unsurpassed for salads. reen leaves with thick whi Pkt., 5c; oz., 20c; ¼ lb., 50c.

Green Curled—Very curly. The mid-rib being wide and whitish, is the outer edges very much indented and curled, forming a very attractive plant. Pkt., 5c; oz., 15c; 1/4 lb., 40c.

### EGG PLANT

The seed germinates rather slowly, and it is well to start under glass, with moderately high temperature, in March. When all danger of frost is over, and the plants are strong, they should be transplanted carefully to the garden or field. Egg Plant does not do as well where cool nights prevail, as in places where nights are warm. It needs a warm climate to incure quick and uninterrupted growth. One ounce, 1000 to 2000 plants.

Black Beauty

Earliest and best of all large fruited Egg Plants.

The grand large fruits are thick and most attractive, rich, lustrous, purplish-black. Intensely brilliant coloring is uniform over the white fruit. Pkt., 5c; oz., 60c; 2 ozs., \$1.10; 4/2 lb., \$1.50.

New York Improved Large Purple—Very large and of fine quality. Pkt., 5c; 0z., 55c; 2 ozs., \$1.00; ¼ lb., \$1.50, postpaid.

Plants—Transplanted well grown plants of Black Beauty and "New York Improved" ready in May and June; 60c per doz; \$4.00 per 100, postpaid. Not prepaid, 50c per doz; \$3.50 per 100; \$30.00 per 1000

(See Page 53 for Quantity Prices)

P.-W.'s Golden Crisp

### KALE or Borecole

A species of cabbage. The leaves arcooked as greens; not injured by frosts. Sow in September in the same manner as spinach i pkt. for 100 feet, 2 pounds per acre.

1 pkt. for 100 feet, 2 pounds per acre.

Dwarf Curled Scotch—Grows very low and compact, with large, bright deep green leaves curled, cut and crimped, resembling somewhat a bunch of moss. Pkt., 5c; oz., 15c; ½ lb., 50c; lb., \$1.60.

Tall Green Early Scotch—Very hardy, not injured by March frost. About 30 inches tall with many darg green leaves, intensely curled and cut, forming a very beautiful plant. Pkt., 5c; oz., 15c; ½ lb., 50c; lb., \$1.60.

### KOHL

The bulb is edible and when cooked tastes very much like the turnip. If the seed is sown early the young bulbs will be ready for use in the spring, and a planting in July will secure vegetables for fall use. The seed should be planted in the open garden and the young plants thinned to four to six inches.

Early White Vienna—Very early, small tops. light green; bulbs medium size, best quality.

Early Purple Vienna—Bright purple bulb. leaves and stems green tinged with purple.

Any of above—Pkt., 5c; oz., 25c; ¼ lb., 70c; lb., \$2.25.

# SWEET CORN

Plant about the middle of May, or as soon as the ground is dry (if planted too early corn is apt to rot) in hills three feet apart each way, seven or eight kernels to a hill; hoe often and draw dirt to the stems; thin to four stalks and break off side shoots. Use plenty of old, fine For succession plant every two or three weeks until the last of July.

Very early Golden Bantam deliciously sweet, finest quality; ears small golden yellow; very productive kt., 10c; lb., 30c; 3 lbs., 80c. productive

P.-W.'s Golden Rod (Bantam Evergreen) - This best of yellow varieties is a cross be-tween Stowell's Evergreen and Golden Rantam and Golden Bantam. The plants, grow six to seven feet high, ears eight to ten inches in length, filled to the very tips with twelve rows of deep, succulent kernels of a rich transparent, creamof a rich transparent, cream-yellow, tender, deliciously metr-ing and "sweet as honey." This luscious "milk" stage quality is maintained for an unusually long time. Pkt., 10c; lb., 30c; 3 lbs.,

Country Gentleman Grand 'stand-by" for main crop for can-It produces three to four each stalk. The ears are ning. It produces ears to each stalk. ears to each stalk. The ears are seven to eight inches long, cob small and densely covered with long, slender white grains without row formation. Deliciously sweet and tender. Pkt., 10c; lb., 20c; 2 lb. 20c. 30c; 3 lbs. 80c.

Early Mayflower A splendid extra early white sweet-corn; is earlier than white sweet-corn; is earlier than Mam. White Cory and apparently less apt to worm. Ears are pure white, sugary and larger than most other extra early varieties. Should become one of the leading market cardener sorts Pkt., 10c; lb., 30c; 3 lbs., 80c.

Particular Planters Demand P.-W.'s Tested Mountain Grown Seeds and Reliable Trees. They're More Vigorous.

Early Mayflower

P.-W.'s Portland Market

largest of all early varieties. Its immense size, together with its large, sweet, plump grains of purest white, on well filled ears, make it a ready seller on any market. The large ears, often a foot in length, mature very even, and owing to the thin husks the marketable ears are easy to detect. The stalks grow strong and vigorous, but rather dwarf. Matures about 10 to 14 days after Early Mayflower. Pkt., 10c; lb., 35c; 3 lbs., 90c, postpaid.

stowell's Evergreen

garden, market and canning. It is hardy and productive, very tender and sugary, remaining a long time in condition suitable for boiling. Our stock has been carefully grown and selected to avoid the tendency to a shorter grain and deterioration in the evergreen character of this best known of all late sorts. The ears about seven to eight inches long, fourteen to twenty rowed, with very white grain. The stalks are about seven and one-half feet high. Pkt., 10c; lb., 30c; 3 lbs., 80c, postpaid. The standard main crop Stowell's Evergreen

### Pop Corn

Same cultural directions as Sweet Corn.

Japanese Hulless Dwarf Rice

Very tender and almost hulless. Ears short and chunky. Heavy yielder. We regard this as the coming commercial variety, no husk when popped. Pkt., 10c; lb., 30c, postpaid.

White Pearl—Large, smooth white grains. Pkt., 10c; lb., 25c, postpaid.
White Rice—The best for home or market. Ears short, grains pointed, resembling rice. Sometimes called "Squirrel Tooth." Pkt., 10c; lb., 25c,

### Other Good Sorts

Davis County Excelsior-Ears large, cobs small, and grains almost white. A heavy yielder; very sweet.

Early Mammoth White Cory—Stalks short; ears set quite low, of fair size. Very early.

Early Minnesota—Ears about 2 inches long; early; kernels broad, sweet and tender.

Howling Mob-One of the finest early, large eared sorts; very productive, white. A market gardeners' favorite. Ears 9 to 10 inches long, 16-rowed.

P.-W.'s Narrow Grain Evergreen—It makes a hand-some ear about 9 inches long with a small cob containing 18 to 20 rows of very deep, narrow white grains. Wonderful canning variety.

Price any of above, Pkt., 10c; lb., 30c; 3 lbs., 75c,

Stowell's Evergreen

Fie'd Corn-See page 48. Garlic-See page 73.

### Horse Radish

Grow it in your own garden and grate fresh. Plant the sets small end down in rows 2 feet apart, about 18 inches apart in the row. Set slanting and covered about two or three inches. Price 60c per doz.; \$3.50 per 100, postpaid.

Prices quoted on this page are all postpaid. Please refer to page 53 for prices on quantities.

P.-W.2s Klondike White Spine

## **CUCUMBERS FOR PICKLES AND SALADS**

The soil best adapted for the culture of cumumbers is a rich warm moist loam. Seed should be sown in the open ground as soon as danger of frost is over. Plant in hills four or five feet each way. As the young plant has many enemies, seed should be sown quite

Early Fortune Comparative tests with all other this new type has all the "earmarks" of becoming the most popular market variety yet developed. A suick grower, very productive and disease-resistant; fruits nine inches long, slightly tapering; flesh white, very firm and crisp, with very few seeds; color rich, dark green, which does not fade when shipped a long distance. Pkt., 5c; oz., 15c; 1/4 lb., 50c, postpaid.

Davis Perfect

A splendid forcer and shipper.—It is a medium early, extra long dark green type; retains its color and good qualtities long after being picked; fruit is exceptionally long, smooth and tapering at both ends; flesh crisp, solid, with rew seeds. Pkt., 5c; oz., 15c; 1/4 lb., 50c, postpaid.

Boston Pickling This is a very productive variety that is extensively grown for pickles. The vines are vigorous. The fruits are bright green, of medium size, very smooth and symmetrical. The fiesh is crisp and tender. Our seed is decidedly superior to much that is offered. Pkt., 5c; oz., 15c; 1/4 lb., 50c, postpaid.

(See Page 53 for Quantity Prices)

P.-W.'s Klondike White Spine

After years of experimenting we have found this to be a reliable, all-purpose variety for market garden as well as the home garden. It cannot fail to be profitable, whether grown for early slicing or late pickling. The fruit, when suitable to ship, is six or seven inches in length, green to the tip and ends, solid, crisp and of excellent flavor. Pkt., 5c; oz., 15c; 1/4 lb., 50c, Postpaid.

Improved Long Green
The vines are very vigorous and productive. The fruits are very long, often twelve to fifteen inches when mature. They are uniformly slender and of beautiful dark green color. The large warts and spines are well distributed over the surface instead of being clustered at one end as in inferior stocks. The variety furnishes some fruits early but matures the bulk of its crop rather late. It is a standard sort for slicing and is very largely used for pickles. The fruits are often used for making sweet pickles. This is probably the most extensively used cucumber for the home garden and market. We have given this variety especial attention

thickly, one-half inch in depth and when well out of the ground thinned to three or four plants to the hill. Cucumbers should be gathered by cutting, not tearing, every day or at least every other day. Leave none to ripen if you want a full crop. One ounce to 75 hills; 2 to 3 pounds per acre.

for many years and we believe the stock we offer has no equal. Pkt., 50: oz., 15c; 1/4 lb., 50c, postpaid.

Boston Pickling

#### Other Good Varieties

Arlington White Spine—Of medium size and good color.

Early Cluster—Makes a rapid growth. Fruits are short and produced in clusterers.

Early Frame, or Short Green—Fruits straight but smaller at ends, bright

Any of above price, Pkt., 5c; oz., 15c; 1/4 lb., 45c, postpaid.

Use Hot Caps For Earlier Cucumbers. See page 82.

Improved Long Green

# LETTUCE—The "Salad Stand-by"

Lettuce has developed into an absolute necessity on most tables in America. It is now considered as indispensible as bread or potatoes. This is rightly so as lettuce supplies the Vitamines that are so essential to a well balanced diet. With the aid of a cold frame and just a little thought in planning a succession of plantings this crisp, palatable Salad vegetable can be cut fresh from your own garden from May until December.

Head lettuces are becoming more popular than the loose leaf types; but it is certainly worth while to grow both, making several plantings to insure continuous seccession. The "New York" or "Los Angeles Market" is the favorite for market growing in the Mountain States and of course is equally valuable for the home garden. The "leaf" varieties are more easily grown and many consider the "Romaine" or "Cos" type to be the best of all in flavor.

There is so great difference in localities in regard to culture of There is so great difference in localities in regard to culture of lettuce that it is hard to get a uniform rule. For the ordinary house garden, it is desirable to use one variety of each type, and several plantings should be made to secure succession. The seed should be planted in rows eighteen inches apart, as early as possible, and the young plants of cabbage head variety should be thinned until four inches apart. Vareties that do not head may be left quite thick, and when fairly well grown, those thinned out may be used. Nitrate of soda, or some nitrogenous Fertilizer will pay if used after plants are set. A light, warm, rich, well watered soil is ideal as quick, rapid growth is essential to crispness and flavor. One ounce produces three thousand plants; for Head lettuce sow 1½ to 2 pounds per acre; Loose Leaf varieties 3 to 4 pounds per acre.

P .- W.'s Mountain Grown Tested Seeds are Standards of Reliability Wherever Used

See Page 53 For Prices On Quantities

# Heading or Cabbage Types

New York (Los Angeles Market)— The leading summer curly head let-tuce—Immense heads, often 13 to 16 Inches across, weighing enormously. Blanches creamy-white; crisp, tender and absolutely free from bitterness. and absolutely free from bitterness, Robust growing, rooting deeply, resisting hot, dry weather; very slow to run to seed and a sure header under trying conditions. The outer is a distinct apple-green. Has no equal as a hot weather summer lettuce; not recommended for forcing. Pkt., 10c; oz., 25c; 1/4 lb., 75c, postpaid.

P.-W.'s Extra Early - Ouickest P.-W.'s Extra Early — Quickest growing head lettuce, best for forcing. This variety forms fine, hard, medium sized heads a few weeks after planting. It is light green with a slight brownish tint on the head; leaves are smooth, crisp, rich and delicious. The best smooth leaved butter head lettuce. Pkt., 5c; oz., 20c; //4 lb., 60c, postpaid. 1/4 lb., 60c, postpaid.

Big Boston—Highly recommended for outside, similar to old Boston Market but much larger.

Deacon-Has very few waste out-side leaves, grows very solid and of delicious buttery flavor.

Hanson-It is wholly free from bitter taste, having a sweet and rich flavor. A perfect open air lettuce in all respects, hardy and may be set out in the early spring or grown late in the fall. One of the most popular now grown.

May King—Fine for forcing and outside, medium size yellowish-green heads, very early.

lceberg—Large, crisp, tender head. Outside leaves light green, tinged with brown. Stands hot weather wonderfully well.

Prices on any of above, Pkt., 5c; oz., 20c;  $\frac{1}{4}$  lb., 60c, postpaid.

Cos or Romaine

### Cos or Romaine

(Romaine)—This kind of lettuce is distinguished by its iong, narrow, spoon-shaped leaves, folding into loose, sugarloaf heads which blanch better by having the outer leaves drawn about them and tied. The quality is distinct from that of the Cabbage Lettucee and by many is considered very

Sow seed early in spring in rich, well-prepared soil in rows eighteen inches apart, covering one-half inch deep. When plants have two or three leaves thin to three or four inches apart. As the plants begin to crowd, thin and use as required.

Trianon—The best of this type. Forms large, light green plant with head well folded, quite soild. The flavor is different from ordinary and esteemed by many. Tie plants to blanch them or plant closely, 5 inches apart.

Pkt., 10c; oz., 20c; 1/4 lb., 60c, postpaid.

### **Curled or Loose Leaved**

is one of the best; leaves large, thin and exceedingly tender. Black Seeded Simpson-This

Early Curled Simpson—A popular early sort, forming a large, loose head.

Grand Rapids-The popular variety of greenhouse planting

Prizehead - Large, loose headed sort; leaves tinged with brown, very heavy

Prices on any of above, Pkt., 5c; oz., 20c; 1/4 lb., 55c, post-

New York or Los Angeles Market

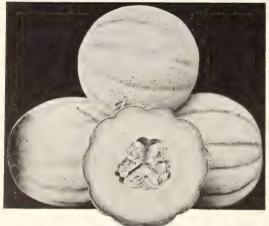

(See Page 53 for Quantity Prices)

# MUSK MELONS

Melons thrive best in a light, rich soil. Plant early in May when the ground has become warm, in hills five to six feet apart each way for muskmelons, eight feet for Casabas, and plant in each twelve to fifteen seeds; after all danger of bugs is over, thin out to three or four plants per hill. A few hills for early use may be had by sowing on pieces of sod in a hotbed, and when warm enough transplant to open ground. Melon vines are subject to the same destructive insect and fungus foes as are cucumbers and squash vines. Early and repeated spraying with arsenate of lead mixture is always advisable for these crops. See pages 85 and 86. Seed required one ounce 50 hills, two to three pounds per acre.

Rocky Ford Pollock 10-25

Rocky Ford. Market growers are demanding this strain to the exclusion of all others. The melons are extremely uniform in size, shape, netting, flavor and have good shinping qualities. Pkt., 10c; oz., 15c; 14 lb., 50c postpaid.

Hearts of Gold

Hearts of Gold (Improved Hoodo) — Carefully selected to an oblong type, a little larger than the standard Rocky Ford, very uniform in size. It is a splendid shipping variety and is increasing in use. While it is a ribbed melon the ribs are not prominent and the melon is very heavily netted. The flesh is a rich orange color, fine grained and of excellent flavor. The seed cavity is small. It does not turn yellow when ripe but retains its natural green color and remains solid and firm for days after it is nicked from the vine. solid and firm for days after it is picked from the vine. The vines are very strong growers and are rarely effected by rust. Excellent records were made with this variety for market. Pkt., 10c; oz., 15c; 1/4 lb., 45c, postpaid.

Burrel's Gem (Salmon fileshed cantaloupe, extensively Grown for Market)—Equally good for the home garden. Similar in appearance to its parent, "Defender." It is easily crated, medium size, oval in shape, slightly ribbed, covered close with net. The flesh is firm, fine grained, rich, deep yellow; vigorous and productive.

Regular Stock-Pkt., 5c; oz., 10c; 1/4 lb., 40c, post-

Growers Stock-Seed in sealed 1 lb. bags, \$1.35, post-Persian--See novelties page 5

Honeyball—See novelties page 57.
Hales Early—See page 57.

(See Page 53 for Quantity Prices)
(Use Hotcaps for Earlier Melons, See Page 82).

# Mushrooms

Mushrooms may be grown by anyone having a supply of fresh manure and a shed or cellar, or under a greenhouse bench where a temperature of 50 to 60 degreer is evenly maintained. They make a most profitable crop when successfully grown, and the American market is the best ni the world for this most delicious of foods. Full cultural directions with every order.

Pure Culture Spawn—Requires one brick of spawn for about nine square feet of bed. One brick, 45c; two bricks, 80c; five bricks, \$1.75, postpaid.

P.-W.'s Delicious Gold Lined Rocky Ford-(Improved Netted Gem)—This ideal type is of medium oval shape about five inches long, thickly netted skin without ribs (see cut). Contains a small seed cavity, rind thin, leaving a thick lining of flesh which is a most delicious juice flavor and fairly melts in the mouth. Flesh green, tinge of vellow at center. Plet flee og 4 55c th 1b 50e nost yellow at center. Pkt., 10c; oz., 15c; 1/4 lb., 50c, post-

Pollock's 25—Salmon tint, solid net, a good early shipper; special stock direct from Rocky Ford. Pkt., 10c. oz., 15c; ¼ lb., 50c; 1 lb., \$1.50.

Extra Early Hackensack—Hardy, prolific, large and round; deeply ribbed, coarsely netted; green flesh, very delicious. Pkt., 5c; oz., 10c; ¼ lb., 35c, postpaid.

#### CASSABA MELON

The Cassabas are primarily for winter use. They require a long season for maturing but the fruits are exceptionally good keepers. Cultivate same as other musk melons but do not water too freely after first setting of fruit is fully grown. Pick when the light streaks have become quite yellow and store so they do not touch earh other, in a cool dark place. When the rind becomes slightly softened and moist, they are ready to cut.

Honey Dew (Improved Casaba)—The outer sain is smooth and hard, nearly white, turning to a lemon thin when fully ripe. Melons weigh from six to ten pounds each, oval in shape, thick meated, very small seed cavity, flesh is light green, solid, honey-like flavor, luscious and juicy. Fruits may be laid away for use late in the fall Pkt., 10c; oz., 20c; ½ lb., 60c, postpaid.

Golden Beauty—One of the best casabas. Fruitglobular, bright yellow with golden tint, with wrinkled
skin, six to eight inches in diameter. Flesh is white, very
thick, juicy and sweet. Pkt., 10c; oz., 20c; ¼ lb., 60c, postpaid.

When better cantalo u p e s are grown than the varieties we offer you may depend on it we'll have them.

By means of our Centerville Trial Grounda we select the "Best."

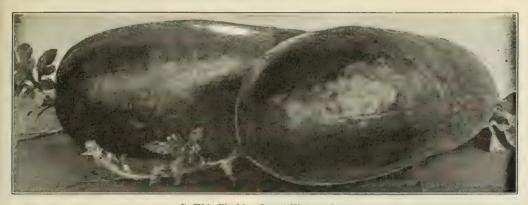

Golden Beauty Casaba

### Leek

Seed should be planted in June for good plants in the

Giant Musselburgh—This is the best variety, having good thick stems which are also long,, very vigorous and of a sweet mild flavor. Pkt., 5c; oz., 25c; 1/4 lb., 75c; lb., \$2.50 postpaid.

P.-W.'s Kleckley Sweet Watermelon

2-4 lbs. per acre 4 ounces to 100 hills.

Plant the seed about the middle of May in hills about 9 feet apart. Use five or six seeds to a hill and thin out to three plants as the second or third leaf shows. A farm crop two to four pounds per acre. A good Watermelon is one of the finest fruits on earth. On a hot day there is nothing like a fresh juicy sweet Watermelon. Some watermelons are much sweeter than others. Use five or six seeds to a hill and thin out

P.-W.'s Kleckley Sweet

The best melon for home or near-by markets. There is no melon superior in quality to this strain of Kleckley Sweet. The bright scarlet flesh is the ideal of watermelon quality; firm, crisp, entirely free from stringiness or coton and "sweet as sugar." The melon is oblong in shape, about twenty inches in length by ten or twelve inches in flameter. The skin is a rich, dark green. Pkt., 5c; oz., 10c: 4 lb., 35c. diameter. The sl 10c; ¼ lb., 35c.

Chilian or Cannon Ball This is a great favorite in California, both with home and market gardeners. It is nearly round, medium size, skin very dark, rich green, rind thin; flesh bright red and exceedingly crisp and sugary. Pkt., 5c; oz., 10c; 1/4 lb.,

Winter Watermelon (King and Queen) name indicates, this is a winter variety. The firmness of the flesh causes it to be the longest keeper of the watermelon (amily. Put into a cool place it will keep long into the winter without losing its delicious sweetness, or exquisite davor. Flesh is red and extremely firm, almost as hard as citron—very brittle and deliciously sweet. This melon is round shaped and the skin is very light green, almost white. It is a good drought resister and does well in almost any section of the west where melons of any sort can be grown. No garden should be without this exceptional variety. Pkt., 5c; oz., 20c; ½ lb., 60c, postpaid.

(For Quantity Prices See Page 53). name

Angelino Watermelon

Halbert Honey—In quality esually as good as Kleck-ley's Sweet and by some claimed to be better. Melons average 18 to 20 inches long and are full at both blossom and stem end. Skin is glossy green. Flesh is a beautiful red of rich and luscious quality. For nearby market there is no variety equal to it. Pkt., 5c; oz., 10c; ¼ lb., 25c, postaid. 35c, postpaid.

Tom Watson—Good melon for shipping to distant markets. It grows to a very large size, long in shape colored a medium green with a light tracing of a darker shade. flesh rich red and of good guality; seeds white. Pkt., 5c; oz., 10c; 1/4 lb., 35c, postpaid.

Irish Grey—A new heat resistant grey melon; deep red flesh, hard and sweet, without hard center. Pkt., 5c. oz., 15c; ½ lb., 40c, postpaid.

Excel—A new, very large black seeded shipping melon; it is a little smaller than Tom Watson, but can be shipped anywhere. Pkt., 5c; oz., 15c; 1/4 lb., 40c, postpaid.

Citron-Small round fruits; for preserves only.

Gray Monarch—Long melon; rind mottled light gray-green; flesh bright crimson; excellent.

Price any of above varietiesexcept where otherwise noted —Pkt. 5c: oz., 10c; ¼ lb. 30c, postpaid.

P.-W.'s Angelino We have the black seeded strain which is preferred for market as the melons are not too large which is sometimes the case with white seeded Angelino. The black seeded type is always a better seller. Flavor, habits of growth, and other ways are identical. It is a very attractive melon, nearly round, medium size with dark green skin Irregularly striped round, medium size with dark green skin, irregularly striped a deeper shade. The flesh is a sparkling scarlet, and its edible qualities are unexcelled. We believe this variety, on account of its shipping qualities, earliness and productiveness, to be one of the best we grow. It has been used extensively in the Southwest and is fast becoming the most popular melon in this district. The average weight most popular melon in this district. The average weight of the melons is 20 pounds The veining on the Angelino stands out when they are ripe, stands out when they are ripe, hence there is no difficulty in teiling when they are ready for market. Edible in 90 days. Size 19x10 in. Pkt., 10c; 0z., 15c; ½ lb., 50c.

Klondike—See Specialties

page 55.

Klondike

**P.-W.'s Sweet Spanish** Genuine Imported Valencia Type—Riverside Strain. See Novelties pages 56.

P.-W.'s Sweet Spanish Genuine Valencia Type — Domestic Strain. See Novelties page 56.

P.-W.'s Mountain Danvers
Globe Type, originally developed in the high valleys of the Rocky Mountains. It is most probably a cross between the Early Flat Danver and Giant Gibraltar, producing a large, semi-globe shaped onion so well adapted to high altitudes and short season. In sections where the season is too short to produce Sweet Spanish Onions, this is surely a most profitable variety to grow. Yields of 600 bags per acre are very common. Bulb is large, slightly flattened, of a beautiful bronze color, splendid keeper. Our seed is Mountain Grown and thoroughly acclimated for use in districts of high altitude where seasons are short. Price—Pkt, 5c; oz., 25c; ¼ lb., 75e, postpaid.

P.-W.'s Yellow Globe Onion Medium size, solid and heavy. The skin is a heautiful yellow, tops ripen down close, necks small. One of the surest keepers grown. Flesh white, of mild and pleasant flavor. It forms a bulb very early in the season, so that it may be used practically the entire summer, ripening up crisp and solid in the fall. The tops die off entirely, leaving fine appearing, uniform shaped bulbs without neck. Under favorable conditions, from 900 to 1,000 bushels is not an uncommon yield per acre. From our trials we can highly recommend it for general crop. Pkt., 5c; oz., 20c; ¼ lb., 65c, postpaid.

Ailsa Craig—Color light straw yellow, fine grained, very mild flavor, mammoth size, often weighs two pounds, ripens early. Pkt., 10c; oz., 25c; 1/4 lb., 30c, postpaid.

American Grown Prizetaker—Very large, nearly round skin light yellow. Flesh pure white in color, crisp and mild flavor. Pkt., 5c; oz., 25c; ¼ lb., 80, postpaid.

Gigantic Gibraltar—Truly a giant in size, can be grown successfully in districts where season is comparatively long, but we do not recommend it for the north and rhigh" valleys. It does splendidly in the vicinity of Salt Lake City. An immense, light yellow onlon, fine grained, crisp, mild flavored and early. They not infrequently measure 18 inches around, and weigh two pounds. To attain its largest size it should be sown early in the spring in the hotbed and later transplanted to the open ground. The onlon is very productive, a good keeper for a large onlon, and for those who like an onlon raw, we recommend thighly on account of its mild and acceptable flavor. Pkt. 10c; oz., 25c; ¼ lb., 80c, postpald.

Southport Yellow Globe—The flesh is snow-white, firm mild and julcy, skin light golden yellow. Popular for family use or market. Pkt., 5c; oz., 20c; 1/4 lb., 60c.

Yellow Flat Danvers—Largely planted. Flesh fine grained; mild. Pkt., 5c; oz., 20c; ¼ lb., 55c.

Yellow Strasburg—Bright yellow, bulbs somewhat flattened; flesh white and mild, Pkt., 5c; oz., 20c; 1/4 lb., 60c.

Red Wethersfield—Though well flattened, the solid onions are thick through, skin is a deep glossy, purplish red. Flesh white. Pkt., 5c; oz., 20c; ½ lb., 65c.

Southport Large Red Globe—Most popular red onion Distinctly globe-shaped, small neck, excellent keeper; deep purplish red. Pkt., 5c; oz., 25c; 1/4 lb., 70c.

(See Page 53 for Quantity Prices)

# ONIONS—continued

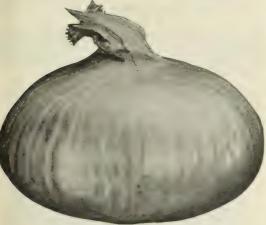

WHITE VARIETIES

CRYSTAL WHITE WAX-Popular Market Onion for the South and Southwest—Selected stock direct from the most critical grower on the island of Teneriffe. Very large white onion of the Bermuda type, a remarkably good shipper and an excellent keeper. The sweet, mild flavor and large size makes it a ready seller on any market Pkt., 10c; oz., 60c; ¼ lb., \$1.75. Teneriffe Grown Seed.

oz., 60c; ¼ lb., \$1.75. Teneriffe Grown Seed.

CRYSTAL WHITE WAX—Same as above.
grown seed. Pkt., 10c; oz., 40c; ¼ lb., \$1.25. Italian

P.-W.'s Southport White Globe True globe form, pure white, hard and small neck, ripening very early and evenly. A splendid keeper It grows to a large size, very solid and heavy, flesh purest white and fine grained, mild, delicate flavor, heavy yielder. Pkt., 10c; oz., 25c; ¼ lb., 80c.

Silver Skin (White Portugal)

P .- W.'s Peerless White Onion (Seed Field)

P.-W.'s Peerless White -See Novelties Page 56.

Extra Early Barletta
inches in diameter. Pkt., 5c; oz., 25c; ¼ lb., 75c.

Extra Early Pearl—One of the earniest; mild flavor, good keeper. Pkt., 5c; oz., 25c; ¼ lb., 75c.

Early White Queen—An extra early; valuable for pickling. Pkt., 5c; oz., 25c; ¼ lb., 75c.

Mammoth Silver King—Large, attractive form; flattened out quite thick through. Pkt., 5c; oz., 30c; ¼ lb., 85c.

Round Silver Skin (White Portugal)—Very early, round; fresh, crisp and tender; excellent bunching or pickles. Pkt., 10c; oz., 30c; ¼ lb., 85c.

White Weich—Does not form bulb but produces very early bunch onions. Pkt., 5c; oz., 30c; ¼ lb., 85c.

early bunch onions. Pkt., 5c; oz., 30c; 1/4 lb., 85c.

Unless otherwise specified all prices are postpaid. (See Page 53 For Quantity Prices).

Particular Planters Demand Porter-Walton's Tested Seeds and Reliable Trees—They're More Vigorous.

## ONION SETS

A great specialty with us. We produce several carloads at our own farm in Centerville. The remarkable firmness, soundness and regularity in size of our Mountain Grown sets has been a matter of comment wherever they have been compared with those from other sections. Having been grown in his high altitude, they will produce a crop earlier than sets from east or south and in half the time that it could be produced from seed.

Culture—Soil requirements are the same as with onion seed. Plant the sets three to four inches apart in the row, depending on the variety and twelve inches apart between the rows and two to three inches deep. It requires from 250 to 350 pounds for an acre.

Brown Bottom Sets-Lb., 25c; 3 lbs., 65c; 10 lbs., \$2.00, postpaid.

Yellow Bottom Sets—Lb., 25 lbs., 65c; 10 lbs., \$2.00, postpaid. 25c: 3

White Bottom Sets-Lb., 30c; 3 lbs., 80c; 10 lbs., \$2.50, Postpaid.

(See Page 53 for Quantity Prices)

#### MUSTARD

One ounce to fifty-foot row.

Excellent greens, of sharp, pungent flavor; cooked the ne as spinach. Sow in drills early in the spring, and at same as spinach. frequent intervals throughout the summer.

Giant Southern Curled-Curled leaf, large.

Ford Hook Fancy—Beautiful dark green leaves. Any of above, Pkt., 5c; oz., 10c; ¼ lb., 25c; 1 lb., 90c, postpaid.

white English
medium dark color.
soon bolts to seed.
Leaves comparatively small and smooth, deeply cut or divided and of Plant upright, of rapid growth, and tender; seed light yellow and larger than other varieties.
Postpaid. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c.

Garlic Sets-Most pungent of onion family. Lb., 45c; 3 lbs., \$1.30, postpaid.

(Write For Prices on Bermuda Onion Plants).

#### OKRA OR GUMBO

One ounce fifty feet of drill

Sow late in the spring after the ground has become warm, in drills three feet apart, and when plants are three sand, in drinks three feet apart, and when plants are three inches high, thin out to from ten to twelve inches. They should be well manured. They can also be started in a hotbed and transplanted afterward. The young green seed pods of this plant are used in soups, stews and served like asparagus.

Dwarf Green-Prolific and productive.

White Velvet-Pods are large, perfectly round and smooth and attractive; of superior flavor and tenderness. Plants comparatively dwarf, of compact branching growth.

Best for all purposes. Either of above. Pkt., 5c; oz., 15c; ¼ lb., 50c; 1 lb.,

\$1.50, postpaid.

Guernsey or Hollow Crown Parsnip

### PARSNIPS

Parsnips are one of the most delicious of vegetables and have the great merit of being at their best after a freeze. It takes cold weather to bring out their sweetness. They may thus be harvested when the garden has little else to offer. Another great advantage is that they may be left in the ground all winter, and dug during thaws, of In the spring before they sprout, when they furnish the first crop of the new year. Do not use fresh manure in soil where parsnips are to be grown. It will cause the roots to divide. A deep, rich soil is best for them, and they must be thinned out and given plenty of room to develop. 1 oz. for 100 feet of row, 5 to 8 pounds per acre.

Geurnsey or Hollow Crown A variety with a holtop, where the leaf stem begins. The most popular and desh tender, while the root grows eighteen to twenty inches long, the best part of it is contained in the first eight inches from the top. Our strain of Hollow Crown is the thick shouldered type particularly fine smooth and regular. Pkt., 5c; oz., 10c; 1/4 lb., 40c, postpaid.

### PARSLEY

It is used for garnishing dishes of meat or cooked to soups. A few plants in a garden will yield sufficient for a family, providing the leaves are cut often and the plant not allowed to seed. Sow in drills as early in the spring as the soil can be dug in a fine,loose condition. It germinates best during cool moist weather.

One Ounce 500 Plants

Champion Moss Curled A very finely contribution of the contributio curled

ornamental variety. Ornamental variety.

Double Curled—a curled variety very hardy and easy to grow deep rich green and by many preferred to the extremely curled warieties.

Triple Curled—Extra curled very hard, deep rich green; very decorative.

Any of above, Pkt., 5c; oz., 15c; 1/4 lb., 40c, postpaid

No one can afford to risk seed of doubtful origin and quality when the prices of high grade Tested Stocks are so reasonable. By means of our Trial Ground we select only the best. Poor seeds would be costly even if they were given

## PEPPERS

Peppers do best in hot climates, but can be grown successfully in most places. They require very rich soil or the seed germinates slowly. They should be sown in hotbeds in March or April and in a warm, sheltered border in May. And when all danger of frost is over the young plants should be transplanted in rows two feet apart and eighteen inches in the row in good, rich ground. One Ounce 500 Plants, Half Pound per Acre.

Anaheim Chili—It will supplant entirely Old Mexican Chili. Very desirable for canning because of fleshines and pungency. Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.50.

P.-W.'s Chinese Giant Red This is a very large, deep red variety, almost twice the size of either Ruby King or Bull Nose. It is four or five inches thick at the top and about six inches long. Fruits mature only slightly later than the Ruby King. flesh sweet and extremely mild. Pkt., 10c; ½ 0z., 35c; 0Z., 60c; ½ lb., \$1.75.

Giant Crimson—About the size of Chinese Giant, similar in presentation.

Giant Crimson—About the size of Chinese Giant, similar in appearance; ripens earlier.

Large Bell or Bull Nose—Large, bright red.
Long Red Cayenne—Small, a bright scarlet, coneshaped, pungent pods.

Neapolitan—Unusually mild and sweet, a bright red.
Pimento—The sweetest Pepper grown, as it does not contain the slightest trace of fleriness, medium size and of a shape which is desirable for filling. It may be used in salads and for flavoring.

Red Chili—Small bright red, hot and pungent.

Ruby Glant A cross between Ruby King and Chinese
Glant, ripens earlier, very fine.
Ruby King—Fruits large, glossy red, very mild, sweet
flavor and can be sticed and eaten like tomatoes. Best

for making mangoes and most widely planted in the mountain states

Any of the above not specially priced—Pkt., 10c; ½ oz., 25c; oz., 40c; ¼ 1b., \$1.10.

#### PEPPER PLANTS

Strong, healthy transplanted plants ready in May and June of the main varieties listed on this page. Price 35c per doz.; \$2.00 per 100, postpaid. By express, not prepaid, \$9.00 per 1000.

(See page 53 For Quantity Prices).

P.-W.'s Chinese Giant Pepper

(For Early Plants Use Hotcaps, See page 82).

# **POTATOES**

The Seed Potatoes we send out will be not only strictly true to name, but hand-sorted, clean, healthy and vigorous.

For early potatoes, which mature in eight to ten weeks from planting, the soil must be particularly rich. A rich clover bed, manured and broken the year before and planted to corn, beans, peas, oats, etc., is in the best shape for giving a good yield of nice, clean potatoes. Stable manure had better be applied to the land the year before. Plant good sized pieces each containing no less than two or three eyes, fifteen inches apart for late ones. Requires 200, to 4300 pounds seed ner acre.

potatoes, and eighteen inches apart for late ones. Requires 700 to 1200 pounds seed per acre.

Change Your Seed.—There is a profit as well as satisfaction in planting our seed, for, not only is it pure, but the additional yield to be secured from a change of seed fully pays for the seed, so that the investment itself is

nothing.

Early Ohio An old time favorite; matures early, and the potatoes are fit for use before fully ripe. Most growers here consider it the most profitable early market variety. Red River Strain, grown on virgin soil, 10 lbs., \$1.00, not prepaid. 100 lbs., market price.

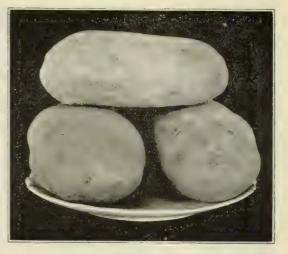

Idaho Russet This splendid variety has become the leading main crop potato in this region. The tubers are elongated, shallow eyes, and covered uniformly with a thickly netted skin. Good yielder and excellent keeper; always commands the top price in the market. 10 lbs., \$1.00, not prepaid.

#### Comparative Yields Prove Semesan's Value

The left-hand pile represents the yield from three average hills of untreated seed potatoes; the center pile from three hills treated with formaldehyde; and the right from three hills of Semesan disinfected seeds. (See page 97.75% from three hills of Semesan disinfected seeds. 87 for further information and prices on Semesan).

Early Bliss Triumph The leading early potato of two-thirds of the markets with new potatoes for the early

Idaho Russet

spring trade. There is a good reason why the Triumph should be popular. It is ten days earlier than the Early Ohio, and that is a big feature in favor of the farmer. It is not so liable to rot or scab. The tubers are nearly round with red, smooth skin, and have shallow eyes. 10 lbs., \$1.00, not prepaid.

Early Rose (not prepaid) 10 lbs. \$1.00

\$1.00

#### HOW TO TREAT POTATOES WITH SEMESAN

One pound of Semesan Bel, when treating a fairly large quantity of seed potatoes, is sufficient for 16 to 20 bushels. If the potatoes are very dirty they should be washed thoroughly, drained and surface dried before treating to secure the most economical and effective

disinfection.

For each 10 quarts or 2½ gallons of water in the treating tub, have ready one pound of Semesan Bel. Sprinkle enough onto the water to cover its surface and stir it constantly until the disinfectant forms a whitewash-like mixture or dip. Keep stirring and adding the Semesan Bel little by little until the required quantity is mixed into the water. The mixture is then ready for the dipping of the notatoes.

quantity is mixed into the water. The mixture is then ready for the dipping of the potatoes.

If properly mixed, it requires no further stirring during the treatment and retains its proper antiseptic strength to the last drop. Never commence dipping potatoes until the Semesan Bel is in complete suspension. The grower requiring only a small lot of seed may utilize the same effective treatment by mixing, in the manner already described, smaller proportionate quantities of the Semesan Bel solution. Free hooklet giving full details mailed on request; ask for it. See also page 87 of this catalog.

# PUMPKINS

Plant in April or May, among corn or in the garden, in hills eight or ten feet apart, and otherwise treat in the same manner as melons. Three to four pounds per acre. One ounce to fifty hills.

Common or Connecticut Field-Common or Connecticut Field—A productive, large, orange-colored field pumpkin, usually grown for stock feeding, but it also makes good ples. Pkt., 5c; oz., 10c; ¼ lb., 30c.

Kontucky Field—Large, round-flat, creamy yellow skin and flesh. Pkt., 5c; oz., 10c; ¼ lb., 30c.

#### King of Mammoth or Jumbo

This strain produces the biggest pumptins grown, sometimes measuring six feet in circumference and weighing 200 to 250 pounds. Outside color deep, orange yellow, flesh very thick, fine grained, tender, of bright yellow colgrained, tender, of bright yellow color and excellent quality for pies and other uses. Pkt., 5c; oz., 15c; ¼ lb.,

Sugar Pie Pumpkin

Green Striped Cushaw-Mammoth heavy-yielding cattle Pumpkin, used largely in the San Joaquin Valley. Pkt., 5c; oz., 10c; 1/4 lb., 30c.

Sugar Pie—A handsome and productive small pumpkin, ten to twelve inches in diameter; flat-round, skin orange. Flesh deep yellow, of fine grain and very sweet. Pkt., 5c; 02., 10c; ¼ lb., 30c.

By means of our Centerville Trial Grounds, we know our Seeds. It costs more to make soil tests, but we are repaid handsomely in the good will of our customers.

(See Page 53 For Quantity Prices).

P .- W.'s Dwarf Gradus

# **DELICIOUS GREEN PEAS**

Peas share with sweet corn, parsnips and squash the honor of being the sweetest of vegetables. Their sweetness is in proportion to the wrinkles in the seed, we are told. Smooth seeded varieties are little used except for very early They will stand cold weather in which the wrinkled sowing. sorts will rot.

Our seed peas are raised in high valleys in the Mountains States, by our most critical contract growers, from selected stock strains. The growing crops have been carefully inspected and "rogued," and the resulting seed crop thoroughly cleaned and "hand picked." Truly there can be no better

stock found anywhere

stock found anywhere.

Culture—Peas thrive best in rather light, sandy soil, which is not too rich or they will run too much to vines and not bear heavily. Sow as soon as the ground can be worked, in single or double rows from one and one-half to three feet apart. The dwarf varieties can be planted in rows twelve to eighteen inches apart. By using the various classes of peas and by making several sowings of each, good peas may be had for a long season. In the garden, the pods should be kept picked as the vine will then continue to bear longer. One pound 100 feet of row, 400 pounds nor ages. One pound 100 feet of row, 100 pounds per acre.

P.-W.'s Laxtonian or Dwarf Gradus P.-W.'s Laxtonian or Dwart Gradus
Pea—This is the largest podded of
all early dwarf peas. A new sort of
decided merit. The vines are vigorous, growing about 10 inches high
and producing a large crop of goodsized pods, averaging from nine to ten peas to the pod.

The peas to the pod.

The peas are of exquisite flavor and mature early. All the planters who have tried Dwarf Gradus consider it superior to either of the old Gradus or Thomas Laxton, and consider it to be the best of all the early dwarf peas.

From our own observations at

From our own observations, at our trial grounds and the combined experiences of market gardeners in different sections, we have no hesitancy in pronouncing this excellent variety to he The Sest Extra Carly Pea in the West for Market Grow-Pkt., 10c; lb., 35c; 2 lbs., 65c, postpaid.

P.-W.'s Early Superb. (See Nov

elties Page 54.

P.-W's Laxton Progress — See
Novelties page 54—New English introduction.

P.-W.'s Dwarf Prize Pea—This handsome new wrinkled pea is so hardy that it may safely be planted as early as the hard-seeded "Extra Earlies." The plants are dwarf, growing about 14 inches high, very stout and exceedingly productive, and quality is all that could be desired, exceptionally sweet and tender. It is the ideal variety for the home garden for early planting; in our estimation, no other plant can match it for this purpose. Try it this year; we are sure you cannot select anything in the pea family that will please you more. Pkt., 10c; ib., 30c; 2 lbs., 55c, postpaid. P .- W.'s Dwarf Prize Pea - This handsome new postpaid.

Little Marvel
season it is the same as Nott's Excelsior and American Wonder. The big point in its favor is that it remains in prime picking condition a week longer than the older sorts. Very productive, hardy, lusclous and sugary. Vines 18 inches, pod dark green, well filled. Pkt., 10c; ib., 20c; 2 lb., 55c. 30c; 2 lbs., 55c.

Other Good Peas

P.-W.'s Alderman—In our estimation, the best of the tall growing sorts for main crop.

This most valuable variety of recent introduction belongs to the old

Telephone type.

The vines are tall, growing about four feet high, dark green, vigorous and exceedingly productive. The pods and exceedingly productive, the pods are of largest size, often five to five and one-half inches long, filled with large sweet tender peas of most de-licious flavor. It answers every re-quirement of the market grower who wishes a pea that will stand shipping a long distance and still retain its dark green color. For the home garden it is equally desirable. Pkt., 10c; lb., 35c; 2 lbs., 65c, postpaid.

Inoculate Peas with McQueens for Increase Inculator Yield. See page 88.

See Page 53 For Quantity Prices

Alderman

### RHUBARB

Sow the seed early one inch deep and when the plants are large enough, thin them to four or five inches apart. The next spring or fall transplant them three feet apart each way in deep, rich soil. For forcing, take up some large roots and place them in a dark corner of the cellar or greenhouse.

One ounce for 50 feet of drill, 8 to 10 pounds per acre.

Victoria-Very large and tender. The best varlety to plant and the one most generally used. Pkt., 5c; oz., 1/4 lb., 60c; lb., \$2.00, postpaid.

Roots-Mailing size, 2 or 3 eyes to each clump. Each, 40c; \$4.00 per dozen, postpaid. By express or freight 25c each; \$2.50 per dozen; \$18.00 per 100.

### SALSIFY

Used the same as carrots; sometimes made into cakes and fried like oysters, which they resemble in flavor. Cultivate the same as carrots; can remain in the ground all winter for early spring use, but should be taken up before it starts growing. Succeeds best in light well enriched mellow soil. Sow early in the spring in drills 12 to 15 inches apart, 1 inch deep; thin to 6 inches.

Mammoth Sandwich Island—Grows to a very large size and resembles a good-sized parsnip. Mild and delicately flavored; very popular. Pkt., 50; oz., 200; 1/4 lb., 650.

SWISS CHARD-See page 59.

# **CRISP RADISHES**

For the best results the soll should be light, veil pulverized, rich and mellow to insure quick rowing, supplying plenty of water. Radishes remitted to grow slowly become tough and pithy, ight frosts will not kill young plants, but will heck the growth and they do best when kept crowing right along. For a succession sow every en days. During the hot months of summer, winer radishes will do better than the early sorts. Winter radishes can be stored, same as potatoes turnishing an acceptable relish through the winter months. ter months.

There is no crop that will bring quicker returns or the market gardener. The leading variety is 'P.-W.'s Sparkler''; or if you wish an all scarlet, ise "P.-W.'s Earliest." Our recommendations are P.-W.'s Sparkler for early or succession; Icicle for second early; and Celestial for winter use.

For Quantity Prices See Page 53

French Breakfast

P .- W.'s Sparkler

## **EEarly Round Varieties**

P.-W.'s Sparkler Radish The Leader for Market—Color is scarlet and white, extremely quick to mature, being ready for the table in

20 days from planting. Valuable for forcing under grass, as well as for the open. Skin very smooth, and its color gives it an appetizing appearance. Selected stock seed. Pkt., 5c; oz., 10c; 1/4 lb., 25c.

#### Long Varieties

icicle White, slender and tapering in shape. It quickly grows to market size; is crisp, brittle, mild and sweet.

Long Scarlet Short Top-Bright

White Vienna-Snow white; flesh crisp.

Prices, any of above, Pkt., 5c; oz., 10c; 1/4 lb., 25c.

> ALL PRICES ON THIS PAGE POSTPAID

> > See Page 53 For Quantity Prices

P.-W.'s Earliest-Attains a good size without getting Week earlier than White Tipped, color scarlet. P.-W.'s Scarlet Turnip White Tipped-Well known market variety.

French Breakfast—Oval form, bright scarlet color, tipped with white.

Price, except where noted, any of above: Pkt., 5c; o2., 10c; ¼ lb., 25c.

#### Winter Varieties

Seed for winter radishes should Seed for winter radishes should be sown about the first of Aug-ust in rich, warm, sandy loam, in rows about twenty inches apart, covering half an inch deep. When well up thin to three inches apart in the row and give frequent cul-tivation. For winter use, the roots should be pulled and packed roots should be pulled and packed in damp sand and stored in a cool

Chinese Rose-Half-long, flesh pink, solid.

Long Black Spanish—Roots ack. Round Black Spanish black. Roun Globe shaped.

Celestial or White Chinese—Pure white, firm.
Prices, any of above, Pkt., 5c; oz., 10c; ¼ lb., 30c.

White Icicle Radishes

## SPINACH

For spring and summer use, sow early in drills, one foot apart and one inch deep, as soon as the ground can be worked; and every two weeks thereafter for a succession. For winter or early spring use, sow in September in well-

King of Denmark

This new variety is undoubtedly the most valuable introduction of spinach in years. Although the plants are ready for use almost as soon as the medium early sorts they remain in good condition from a week to two weeks after all other varieties have gone to seed. The plants are of rapid growth, resemble the Long Season in type but leaves are more crumpled or blistered and are of darker green color. The leaves are thick, stand well after cutting and are of good quality. This variety will in a few years be one of the leading sorts as its distinctive qualities are sure to win favor for it from both the home and market gardner. Pkt., 5c; oz., 10c; ¼ lb., 25c, postpaid.

Bloomsdale Savoy-Leaved—Best for fall, but if sown very early in the spring will produce a good crop. This early, productive variety produces large glossy, dark green leaves, crumpled or blistered, very thick and of great substance. The most largely grown Spinach on the market. Has a tendency to bolt to seed in warm weather Pkt., 5c; oz., 10c; ¼ lb., 20c, postpaid.

Long Season—An excellent second-earley variety with

Long Season-An excellent second-earley variety with small plants growing close to the ground, very dark green, thick, somewhat crumpled leaves—almost as crumpled as the Savoy-leaved—and short, fleshy stems. Does not readily crush. Will keep in the field in condition for a remarkable long time. Pkt., 5c; oz., 10c; ½ lb., 20c, post-paid paid

Market Gardners and Large Buyers See Page 53. For Quantity Prices on All Varieties of Garden Seeds.

manured ground, covering with straw on the approach of severe weather. It is hard to get the ground too rich. The stronger the ground the larger and more succulent will be the leaves. One ounce 100 feet, 10 to 12 pounds per acre

King of Denmark Spinach

# SQUASH

Squash should be planted in warm, light, rich soil, after the weather has become thoroughly settled and warm, as they are very sensitive to frost and cannot be sown until all danger of frost is over. Plant in well manured

hills in the same manner as cucumbmers or melons. bushy varieties two to three feet apart each way and the running kinds six to eight feet. One ounce 100 feet, 2 to 3 pounds per acre.

Cocozelle (Italian Vegetable Marrow)—Fruits large, oblong shaped, dark green at first but as they mature become marbled with yellow and lighter green (Italian Vegetable Marrow)-Fruits large, stripes. Fine grained, tender and of excellent flavor. Pkt., 5c; oz., 20c; ¼ lb., 45c.

Long White Vegetable Marrow—Skin greenish-white; flesh white, soft and of rich flavor. Pkt., 5c; oz., 15c; 1/4

lb., 40c.

Yellow Summer Crookneck—Golden yellow thickly warted; brittle and tender. Pkt., 5c; oz., 15c; ¼ lb., 40c;

For Prices on Quantities See Page 53

Cocozelle (Italian Veg. Marrow)

Banana-Splendid new variety for fall and

winter, dark green banana shape 20 to 25

inches long; Pkt., 5c; oz., 20c; 1/4 lb., 60c; lb..

#### WINTER VARIETIES

Chicago Warted Hubbard Attractive dark green, flesh dry and sweet. Very hard shell insures long keeping qualities. Considered by many an improvement on the old Hubbard. Pkt., 5c; oz., 15c; 14 lb., 45c.

> Delicious-In shape resembles the Hubbard; flesh very thick, deep orange color. Pkt., 5c; oz., 15c; ¼ lb., 40c.

> Pike's Peak or Sibley-Large oval fruits, skin smooth, dark olive-green in color; flesh goldenyellow, very best quality. Pkt., 5c; oz., 15c; 1/4 lb., 40c.

Hubbard-Pkt., 5c; oz., 15c; 1/4 lb., 40c.

Utah Giant Field-Pkt., 5c; oz., 15c; 1/4 lb., 35c.

Chicago Warted Hubbard

## Swedes or Rutabaga

One ounce 100 feet, 2-3 pounds per acre

Rows should be at least two and one-half feet apart and the plants thinned to to twelve inches. Roots frequently grow to be an enormous size. The roots should taken up before severe frost. Cut off tops within an inch of the crown. Store in a cellar or pit. The roots should be own. Store in a cool

Improved Purple Top—Remarkable for uniform shape and fine quality; a splendid keeper. Skin smooth; flesh a beautiful yellow color, fine grained. Very sweet and tender. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Banana Squash

Purple Top Globe Turnip

# TURNIPS

For early use, sow as soon as the ground can be worked in the spring in drills twelve to fifteen inches apart, and thin out ot six to nine inches in the row. For succession, continue to sow every two weeks until June. For fall or winter crops sow in July or August. One ounce i00 feet, 2 pounds per acre.

Purple Top White Globe The Best Flavored and Largest Yielder Grown. Without an Equal for All Purposes. The flesh is firm, fine grained, white and of most excellent flavor. It is a fine keeper, extensively grown and pitted for fall and winter, and produces enormous crops. In our estimation it cannot be heat either for home or market planting. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.

Extra Purple Top Milan—Earliest turnip in cultivation; flat, smooth, of medium size, with bright purple top and few leaves. Adapted to spring or fall Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.15.

# **TOMATOES**

For early plants sow in hot beds or boxes early in March, in drills five inches apart, one-half when the plants are about two inches high, transplanted into another four inches apart each way. Plant out in the open ground as soon as danger from frost is over, four feet apart each way, in hills. Water freely at the time of transplanting. When the first fruit is set, pinch off the ends of the branches o attain early fruit. For late use sow in sheltered border in May and set out the plants in July. The green fruits can be picked off before late frost and ripened under glass. One ounce 1,000 plants, two ounces per acre.

P.-W.'s "King of Earlies"

(T. L. E. Strain)—A new blood red tomato, ripening in 95 days. Very distinct. Not quite as large as the Red Rock but two weeks earlier, ripening about two days after the Earliana, and very much more productive. Twenty days ahead of either Stone or Greater Baltimore. The vine is short-stemmed, unusually healthy and produces very solid, smooth, meaty and most attractive fruit which is round at the bottom, quite free from cracks, with very little cavity at the stem end. It is similar in appearance to Chalk's Jewel but is five days earlier, considerably larger fruited, far more productive, picking over a longer period, better color and more solid. It will prove leader in every section where an early tomato is desired. Pkt., 10c; oz., 50c; ¼ lb., \$1.50. See Cover For Illustrations.

This is a very distinctive type of a selected strain of "Earliana" which has been selected with respect to earliness, uniformity to type, and carrying qualities. Our tests last year showed it to be at least a week earlier than the old strain of "Earliana," more solid and meaty, insuring better carrying qualities. Market Gardeners especially will be interested in this new strain. Price: Pkt., 10c; oz., 40c; 4 lb., \$1.25.

Marglobe This was primarily bred to produce a wilt resistant, globe-shaped red tomato. The results have exceeded expectations. It is hardy wilt resistant and appears to be destined to command a leading place in districts where wilt is prevalent. In addition it undoubtedly will prove equally desirable wherever a red tomato of superior quality is desired, it is a midseason variety, ripening its first fruits in from ninety to ninety-five days.

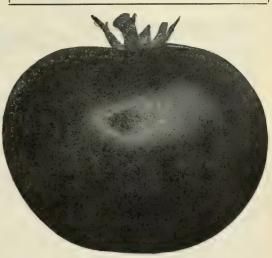

The plant is vigorous without being spreading or coarse, with a strong, hardy stalk and abundant foliage. The foliage is medium dark green, slightly crimped or savoyed and furnishes adequate cover for the fruits without too nuch shade. The plant produces fruit abundantly, the heaviest setting being in the center of the plant.

The fruits are quite large, averaging 7½ ounces in weight, and are nearly perfect globe-shaped with but little depression at the stem end. They show very little tendency to crack but ripen up perfectly. They are a deep scarlet in color and present a very attractive appearance. The flesh is firm, thick, of first quality, and is only mildly acid. This is a superior sort for table use and a very desirable canning tomato. Pkt., 10c; oz., \$1.00; ¼ lb., \$3.00.

For Prices on Quantities See Page 53

You might buy seeds the equal of ours from other equally painstaking seedmen, but we have gone to a big expense to make sure that you can get none better anywhere than P.-W.'s MOUNTAIN GROWN SEEDS AND TREES. Let us prove that they really "are more vigorous."

P.-W.'s Sunny Brook Tomato. See Novelty Page 55 Recollection of quality remains long after a slight difference in price has been forgotten.

## AROMATIC, MEDICINAL AND POT HERBS

Most of the varieties of herbs thrive best on sandy soil and some are better flavored when grown on that which is rather poor. In all cases the soil should be carefully prepared and well cultivated, as the young plants are for the most part delicate and easily choked out by weeds.

Sow as early as the ground can be made ready, in drills sixteen to eighteen inches apart, taking pains that the soil is fine and pressed firmly over the seed, or they may be planted as a second crop—the seeds sown in beds in April and the plants set out in June. Most of them should be cut when in bloom, wilted in the sun and thoroughly dried in the shade.

#### HUDSON SEEDER AND CULTIVATOR NO. 203

No. 203-(See cut above). It is ideal for the gardener whose requirements do not justify separate machines for seeding and cultivating, being equipped for use as hill and drill seeder, or wheel hoe plow or cultivator. Changes from one to the other are made quickly and easily. Cultivating tools are high grade steel; all shanks are malleable and unbreakable. Weeding hoes and hilling plow have polished and lacquered surfaces and sharpened cutting edges. Wheel is 16 incheonigh, with 1½ inch tire. Handles are seasoned hardwood adjustable in height. Weight 56 lbs.; Each, \$18.75.

#### HUDSON HILL AND DRILL SEEDER NO. 205

A practical tool which will open its own furrow, sow the seed, close and pack the row, and mark the next row all in one operation. Will sow any seed from beans to very fine garden seed in drills or hills four to 24 inches apart Shipping weight 44 pounds. Price, \$15.50.

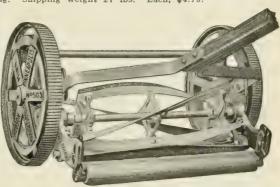

#### **HUDSON GARDEN PLOW NO. 320**

This high wheel plow is a favorite. Frame is steel with adjustments for varying the pitch of the tools. Wheel is 24 inches high with 11/4 inch tire, in suring easy running. Shipping weight 21 lbs. Each, \$4.75. A machine for the home lawn, is unsurpassed in quality, durability, and the perfection of its working parts. It is a machine of the very highest class in every respect.

# CEL-O-GLAS

At last an unbreakable material that is neither glass nor wire cloth, yet combines the transparency of glass with the toughness of metal. Extremely light in weight, weatherproof, flexible and durable. CEL-0-GLASS is admirably suited for chicken house fronts and windows; cold-frames and hotbeds ash; greenhouse sides, fronts and partitions. Put up in rolls 3 feet wide up to 100 feet long. Price—50c per running foot.

### Glass Cloth

Glass Cloth is a strong fabric treated by a patented process to make it transparent, weather-proof and water-proof. It costs much less than glass and for many purposes is superior. Anyone can put it up. It admits abunndant light which is diffuses and scatters to all parts of the enclosure. It comes in rolls 36 inches wide and any length. Yard, 40c; 10 yds., \$3.75; 15 yds., \$5.00.

#### **CLEVELAND LAWN WEEDER**

This device gets at the root No more broken backs. of the evil and removes it bodily.

The evir and removes to body.

The curved edge of the blade enters and loostens the soil, pressure on the lever then causes the toothed jaw to grasp the plant, and a slight pull suffices to dislodge it without disturbing the surrounding sod. Price each,

#### HIGHER PRICES FOR YOUR CROP

Last year thousands of growers added to the value of their vine crops by using HOTKAPS—shown above. This remarkable invention consists of a scientifically constructed wax paper cone that you place over each plant. Thus they are miniature hot-houses that protect plants from frost, wind, rain, insects and ground crusting. HOTCAPS not only protect plants, but make them grow hardier and faster. Thus you get a greater crop

grow hardier and faster. Thus you get a greater crop production earlier for higher prices!
You can add to your next year's profit with Hotkaps. They cost but a fraction over a penny each.
One man can "set" 3000 Hotkaps per day. They not only bring you higher prices, but are a method of crop insurance—against the danger of the elements. Prices—\$1.50 per 100; \$11.00 per 1000; \$48.75 for 5000; \$95.00 per 10M; \$231.25 for 25M. "Hotkap" Setter, \$2.25 Each.

#### **GRAFTING WAX**

We know from actual, persona, grafting experience just exactly what is needed in a wax, and our product is always uniform. It will neither soften and leave the graft,

always uniform. It will licitize soften and leave the state, melt in sun, or be too hard to work up nicely in the hand.

Excellent to apply to young trees and shrubs that have been barked. It is put on easily and quickly, and will remain there and prevent decay until the wound is covered with new bark. Price, 1/4 lb., 20c; 1/2 lb., 30c; lb., 50c. Postage extra.

Hudson Junior Sprayer

Type of Compressed Air Pumps

HUDSON CHEMICAL SPRAYER NO. 160-G
The Hudson Chemical Sprayer will handle in an ecocomical way chemical mixtures made up from an oil base.
The Gaskets are not affected by oil, cresote or carbolic
eid mixtures; though of the compressed air type it
sperates on an entirely different principle. The special nozle is in reality a mixing valve
where the liquid is mixed with compressed air. The result is a heavy, penetrating, forceul, atomized mixt, continuous, of large volume and forceful, owing to the high pressure.
The spray begins without spitting at the very instant that the nozzle lever is pressed. An
excellent feature is that when it is used for fly oils there is very little danger of sprayng too much on the animal, which causes burning or scalding of the hide. Must not be
ised with any solution containing sediment. The nozzle is all brass, with parts easily
removed for cleaning, the tank is one and one-half gallon capacity, 7½ inches diameter,
inches long. Made of prime copper bearing galvanized sheets which resist rust and
teterioration. Fitted with brass filler plug. Weight about 7 pounds each. Price \$5 each.

Hudson Chemical Sprayer

BUCKET PUMPS

Auto Spray No. 6—White-wash and general purpose sprayer. Practically indestructible. Brass ball valves, heavy brass air chamber and pump cylinder. Malleable castings, legs clear 12 inches and fit over bucket. It is equipped with strong 1/2 inch discharge hose, three feet long. Shipping weight, 8 lbs. Price \$4.50 each.

### PEST AND DISEASE KILLERS—Continued

Prices Subject to Change-All f.o.b. Salt Lake City except where otherwise noted.

#### Acme All Round Spray

#### Garden Guard

No Sprayers, No Water, No Mixing. Dust on plants from sifter top carton or through burlap sack. Garden Guard is the strongest garden insecticide of its type on the market-yet safe to use. Ideal to use on vegetables, flowers and shrubs of many kinds. The Bordeaux Mixture in Garden Guard acts, in a measure, as a fungicide. Prices-1-lb. sifter carton, 25c; 5-lb. paper bag, 75c.

"Acme All Round Spray" is composed of nicotine sulphate, arsenate of lead and bordeaux mixture, scientifically combordeaux mixture, scientifically com-bined, and recognized by leading authori-ties as the proper combination for con-trolling chewing and sucking insects, and and fungus diseases all in one application.

It meets the ever-growing demand for a prepartion to control chewing and suck-ing insects, blight and fungus diseases that infest vegetables, flowers, fruit and shade trees, shrubbery and berry bushes.

Price—¼-1b. size, 35c; lb., 85c each.
NOTE:—A complete spray chart is enclosed in each package, showing the uses
of this material on flowers, vegetables,
shrubbery, berry bushes, trees and other
nant life. plant life.

#### 2-Way Spray

Contains 14% Arsenate of Lead and 83% Bordeaux Mixture—2 results with one spray. Controls Insects. Combats Blight, Stimulates Foliage.

Easy to apply—wet or dry—For dusting, apply lightly, as it comes in the package. In spraying apples, grapes, and most vegetables, use 9½ level tablespoonfuls to 1 gallon of water. On pears, sour cherries, egg plant and peppers, use 7 level tablespoonfuls to 1 gallon of water.

### Paris Green

Always uniform, fluffy and free running. Used dry will not clog the dusting machinery.

For potato bugs, use from 1/2 to 3/4 of a level tablespoonful to 1 gallon of water. Apply as a dust on cotton, using 1 part Paris Green, 1 part flour, 5 parts lime. On tobacco, use as a dust alone or mixed with Arsenate of Lead.

Prices-1/4 -lb. cartons, 20c; 1-lb. cartons, 50c: 4-lb. cartons, \$1.50.

#### Arsenate of Lead

It kills the bugs, sticks to the leaves and does not burn or injure the foliage. While these qualities make it the fav-

spray for fruit trees, it also gives splendid results on vegetables and tobacco. Arsenate of Lead is recommended to control all leaf eating insects on trees, shrubs, flower and vegetable plants.

When dusting fruit, add 5 parts hydrated lime. Pegetable, 8 parts lime.

Prices—½-lb. carton, 25c; 1 lb. carton, 45c; 4- lb. bag, \$1.00. Write for quantity prices.

#### Bordeaux Mixture

Prevents large losses caused by blight, rot, mildew, scab, anthraclose, and certain other fungous diseases, will stimulate plant growth and greatly increase the harvest. On most trees, shrubs and vegetable plants use 3 level tablespoonfuls to 1 gallon of water.

Prices-1-lb. carton, 45c; 4-lb. paper bags, 1.40.

#### London Purple

Costs Less; Results Best. London Purple possesses better sticking power than most other insecticides, makes it a favored spray for potatoes, tobacco, etc.

to 214 leve. On potatoes, use 1½ to 21 tablespoonfuls to 1 gallon of On cotton, dust with 1 part London Purple and 5 parts lime. On tobacco for horn worm and flea beetle.

Prices-4-lb. carton, 15c; 1-lb carton, 45c; 4-lb, bag, \$1.30.

#### Lime Sulphur

For dormant spraying in the fall or early spring against Scale, Peach Blight, Leaf Curl and Twig Borer, use 9 to 11 tablespoonfuls to 1 gallon of water.

For summer spraying against Scab, Soot and Blotch, Red Spider and Mites, use from 2½ to 3 level tablespoonfuls to 1 gallon of water.

1-lb. can, 35c; 5-lb. can, Prices-\$1.25; 10-lb. can, \$2.00.

#### **CYANOGAS**

cyanogas or Calcium Cyanide is a most valuable insecticide as well as rodent destroyer. Cyanogas is used for the control of ants, grape-leaf hoppers, fleas, chinch bugs, grasshoppers in hatching beds, squash bugs, and many other insect pests, as well as rats, gophers and other rodents. It is also used for the fumigation of greenhouses and bulbs.

With Cyanogas the hydrocyanic gas is gradually liberated and a high gas concentration is avoided. The residue after the gas has escaped is largely ordinary slaked lime which is harmful to stock.

It was used very effective here in Utah in controlling the squash bug. It was used very effective here in Utah in controlling the squash bug. Mr. Christensen, County Agent of Weber County, demonstrated this very conclusively on squash bug. In his experiments he used the "A" Dusting Cyanogas and applied with "The California Beauty Duster" at The rate of 8 pounds per acre. The pest was entirely cleaned up on the area treated, labor entailed, three hours per acre for one man.

Price—Cyanogas "A" Dust, 1 lb., 65c; 6 lbs., \$2.65; 25 lbs., \$9.50, Cyan-

Snarol is a boon to the gardener. It quickly destroys these garden pests.
Just sprinkle Snarol around and under newly planted vegetation. Insure it against destruction. Kills snalls, slugs, worms, sow bugs, earwigs, and 1 lb. pkg.,40c; 3-lb. pkg., 75c.

grasshoppers.

#### "Black Leaf No. 40"

Nicotine Sulphate—40 per cent Nicotine—
This is the insecticide that is so highly recommended by Experiment Stations. It destroys Aphis (plant lice) Thrips, Leaf-hoppers on all trees, bush and vine fruit, vegetables, field crops, flowers and shrubs, also Apple Red Bug, Pear Psylla and similar softbodied sucking insects—all without injury to foliage. to foliage.

You cannot go wrong by ordering "Black Leaf 40" for sucking insects. Prices: 1 oz., 35c; -½ lb., \$4.25; 2 lbs., \$3.50; 10 lbs., \$3.50; 10 lbs., \$43.50; 10 cz. makes 6 gallons; ½ lb., 40 to 60 gallons.

Carco

For Root Maggots—Use 1 before planting. For cut worms, grubs, and other worms—dilute one part CARCO to 125 parts wated and apply freely, preferably in the late afternoon. Important—Use a coarse spray, always.

Price—½ pint, 50c; pint, 75c; quart, \$1.25; gallon, \$2.75.

#### Cow Ease (Fly Driver)

Is a liquid preparation from non-poisonous materials, and will not gum the hair or blister the skin. A herd of mileh cows sprayed regularly through the fly season will yield on the average of 10 to 20 per cent more milk.

Price—Quart. 60c; weight 4 lbs.; ½ gallon, weight 8 lbs., \$1.00; gallon, weight 15 lbs., \$1.80.

#### Dusting Sulphur

The most common fungus diseases that annoy the gardener and orchardist are Early Blight on potatoes, Scab on apples and pears, and Brown Rot on Peaches. Dusting Sulphur is good for all these and can be used by itself or in combination with Arsenate of Lead, mixing the two in equal proportions. Price—1 lb., 20c; 5 lbs., 65c; 10 lbs., \$1.10; 100 lbs., \$7.50.

#### Cresote

Used extensively for disinfecting poultry yards and pens. 5 gal., \$2.75; 30 gal. bbl., \$15.50; 50 gal. bbl., \$25,00.

CARBOLA-SEE HEALTH PAINT

Kayso

A combined casein spreader and adhesive. Its use keeps spray from washing off and reduces arsenical injury. Kayso makes all spray solutions more effective. Use 1 tablespoonful Kayso to 5 gallons of solutions or 1½ pounds to 200 gallons. 2-lb. package, 50c.

Kellog's Ant Paste

"Rattle Cap"—A very effective remedy for control of ants affording a quick, temporary relief. 25c per bottle.

Melrosine

The only remedy—endorsed by leading authorities. The General Contact Insecticide that kills Rosebugs and other insects. Used with any good spray-pump, diluted with from 20 to 25 parts of water. Pleasant and harmless to use. Guaranteed effective when used according to directions on can. Gal., \$6.00; half gal., \$3.25; qt., \$1.75; pt., \$1.00; trial size, 50c.

Nico Dust No. 6

Especially prepared for garden pests 5 lbs., \$1.75; 25 lbs., \$5.85. Ask for quantity prices.

Nico Dust No. 10

Similar to No. 6 but containing more nicotine. \$2.00; 25 lbs., \$7.25. Write for quantity prices.

Rat Polson

"Gets Me Quick!"—Effective, remedy against Rats. Mice, Gophers, Ants, and Squirrels, Price, 50c.

"Sure Noxum"

No Sprayers, No Water, No Mixing. Dust on plants from sifter top carton or through burlap sack. "Sure Noxum" is the strongest garden insecticide of its type on the market—yet safe to use. Ideal to use on vegetables, flowers and shrubs of many kinds. The Bordeaux Mixture in "Sure Noxum" acts in a measure, as a fungleady of the confidence of the confiden cide. Lb. can, 30c.

Tobacco Dust

When dusted over young plants, it is very efficient in repelling many kinds of bugs and in keeping the foliage from Aphis and Lice.

Price—½ lb., 15c; lb., 25c; 10 lbs., \$1.40; 25 lbs., \$3.00; 100 lbs., \$9.50.

VOLCK

The demand for VOLCK is steadily increasing and it is constantly receiving more and more approval by growers and research men for control of a large number of commercial insect pests. To say that VOLCK is giving more satisfactory results with a greater variety of pests than any spray material ever known is stating the situation conservatively.

conservatively.

A very meritious new insecticide, the best remedy we know about for mealy bug which has heretofore been beyond control. It is effective, also, against Cyclamen Mite, Thrips, Red Spider, Aphis, White Fly, Rose Mildew and Scale Insects. Dilute one part "Volck" to 32 parts water for general use. Price—½ pint, 50c; pint, 75c; qt., \$1.00 gallon, \$3.00; 5 gal., \$12.50; 14 gal. drum, \$25.00; 28 gal. drum, \$40.00.

Weed Killers

There is nothing more annoying to the well-kept home There is nothing more annoying to the well-kept home grounds than weeds constantly coming up in the roadways, paths and gutters. This weed killer may be applied by means of a sprinkling apparatus of any kind.

Weedicide—Very effective. Price, \$1.75 per gallon.

Dilute with 10-25 parts of water.

Sodium Arsenite—Powerful destroying agent. Dilute with 30-150 parts of water according to toughness of the weed to be killed. Price, \$2.50 per gallon.

Whale Oll Soap

-Dissolve 2 ounces of soap to 1 gallon of water Fish Oilfor all small fruit. For large fruit trees, shade trees, etc., use 3 ounces of soap per gallon. Very effective as spreader for "Black Leaf 40," Nico-Fume, Liquid, etc. Price—¼ lb., 15c; ¼ lb., 20c; lb., 35c.

Revenge

A most effective powder for head lice and other vermin on Poultry, Hogs, Dogs, Cattle and Horses. "Revenge" gets them when other remedies fail. Apply direct as well as sprinkle in runs and bedding places 1½ lb. pkg., 65c; 3 lbs., \$1.00; 6 lbs., \$1.75; 50-lb. pall, \$6.25.

Health Paint

Health Paint is a white paint and a powerful disinfectant in powder form. Ready to use when mixed with water. Eastly and quickly applied to wood, brick, stone, cement, etc., and over whitewash. One pound will cover 100 square feet.

Low in cost and an excellent disinfectant white paint 5 lb. pkg., 85c; 10 lbs., \$1.50; 25 lbs., \$3.50; 50 lbs.. \$6.00; 100 lbs., \$11.00

## SEMESAN SEED DISINFECTANTS

#### AMERICA'S PREMIER AGRICULTURAL DISEASE TREATMENTS

The Seme-

and materials.

san disinfec-

tant family, comprising Semesan,

for general crops, Seme-

san Jr., for corn, and

Semesan Bel,

Seed disinfectant is now generally regarded as an essential requirement of profitable farming. It is only a few seasons since the four consecutive and disastrous years when plant diseases destroyed nearly 19 per cent of the United States white potato crop and over 32 per cent of its sweet potatoes.

Approximately every fifth of an acre of white potatoes and every third of an acre of sweet potatoes were a total loss. Had the infected acreages been disease-free and healthy bearing, farmers could have obtained from 20% to 35% larger crops, or they could have obtained the same yields

Check Semesan Untreated Treated

for potatoes, Semesan Controls Damping-Off Diseases has proved to be the grower's solution of the disease hazard in farm-

ing. Semesan provides the one effective method of controlling the various damping-off diseases as illustrated in the first picture above. It is being used with wonderful results in all sections of the country on grains, field crops, vegetables, flowers and ornamentals. Brown Patch of grasses, a disease whith swiftly destroys the expensive turf of golf greens, estate lawns and tennis courts, can be prevented, and, if treated soon enough, cured with Semesan.

Easily applied-little skill required-at a cost of only

4c to ic per pound of seed. The cheapest crop protection you can buy Semesan Jr. 8.9 dust disinfectant to control root and stalk

rots of corn. In tests conducted in both Illinois and Iowa by the Federal and State Govern-

ments, Seme-38%.

Applying Semesan to Prevent Brown Patch

creased yields from diseased seed varying amounts up to 38%. These tests confirm the experience of other agri-

cultural experts and practical farmers who report increased corn crop yields from Semesan Jr.-treated seeds of 20 to 40% or more. The 33% increase shown in the illustration below is the result of Semesan Jr. seed

Semesan Jr. is applied only as a dust, at the rate of 3

ounces per bushel of seed. The cost thereranges from only about an acre of field corn to 6 or 7c per acre of sweet corn. Send for Semesan Jr. Corn Pamphlet with full directions. Semesan Bel

used espec

Semesan Jr. Generally Increases Corn Crops

is used espec-ially for the seed disinfection of white and sweet potatoes. It is not recommended for the treatment of the common farm, flower and vegetable seeds as Semesan is more suited for these purposes. It has the remarkable property of destroying many disease germs and at the same time stimulating seed pieces to speedy germination, healthy growth, early maturity and the production of larger crop yields.

Semesan Bel is applied to whole or cut seed pieces as a whitawash like mixture by adding the proper amount of whitewash-like mixture by adding the proper amount of

water by thei instantaneous dip method. Because of its effective control of the common notato diseases a higher percentage OF potatoes of cerbe obtained than from any

other practical Semesan Bel Improves Potato Yields means. Ask for

Semesan Bel Potato Booklet.

## **CUPRO-JABONITE** (Copper Carbonate Dust)

U. S. Department of Agriculture recommends it. Convenient and easy to use. Smut is controlled, germination not impaired, stand is better, less seed required. It is conservatively estimated that the farmers of the Northwest alone lost five million dollars last year due to the ravages of smut.

There is no reason why the wheat grower should suffer such losses as this report shows, when it can easily be svoided by treating the seed with Cupro-Jabonite (Copper Carbonate—18-20%). During the last two or three seasons reports from experimental stations have shown that the use of the 18% to 20% Carbonate is equally as efficient as where the stronger grade is used. It has proven quite as beneficial and is available at a much less cost than the Pure Copper Carbonate. The usual way to use it is to put 4 oz. of the dry powder per bushel of seed grain for heavily smutted districts, 3 oz. per bushel for ordinary conditions and 2 oz. where smut is not bad and to tonic the stand. This mixing can be done at any time prior to planting, after which the seed can be allowed to remain with no fear of deterioration of any kind. The mixing can be done by hand with a shovel or in any kind of a mixing machine from a barrel churn to the large concrete mixerused by the wheat interests in the Northwest and Canada Lb., 30c: 5 lbs., \$1.50; 100 lbs., \$22.50; 250 lb., kegs \$52.50 each.

### FERTILIZERS AND SOIL BUILDERS

#### New Whizz Fertilizer

"New Whizz" fills a long felt want for rebuilding fertility in run down and poor soils. The formula for Whizz was carefully worked out by one of the leading Soil Experts of the West. It is scientifically right and its practical value has been fully proved. It not only contains the desired chemical elements so essential but these are combined with organic humus materials in such a manner to insure their being properly assimilated and taken up by plant life.

In the application of "Whizz" the soil is enriched not alone by the plant food elements in the fertilizer itself but also by chemical elements aready in the soil heretofore insouble, which, are now rendered available by the action of the materials contained in this meritorious

Fertilizer.

We unhesitatingly recommend "Whizz" as a fertilizer that fully measures up to general soil requirements in this region and as a leader for Lawns, Shrubbery,

Vegetable and Flower Gardens.

For lawns use at rate of three to five pounds per hundred square feet; it is so finely pulverized that it can be sown similar to seed.—After applying sprinkle immediately with water.

-12 oz. carton, 20c; 25 lbs., \$1.00; \$3.50 per Write for prices on ton lots. Prices-100 lbs.

#### "Plant Life" Lawn Special

This is a mixture especially for the lawn. A 25-pound package contains more available plant food (nitrogen, phosphoric acid and potash) than is found in 1,000 pounds of ordinary manure, without the disagreeable features connected with it, and at a lower cost. One 25-pound bag will cover a space of lawn 30-40 or 1,200 square feet, though larger applications will give increased

Prices—10-oz. carton, 25c; 10-lb., 90c; 25-lb., \$2.00; 50-lb., \$3.50; 100-lb., \$6.00; not prepaid.

STIM-U-PLANT is the only complete plant food in tab-

STIM-U-PLANT is the only complete plant food in tablet form. Guaranteed analysis 11 per cent Nitrogen, 12 per form. Guaranteed analysis 11 per cent Nitrogen, 12 per cent Phosphoric Acid, 15 per cent Potash—all of which elements are water-soluble and immediately available to the feeding root-hairs of the plant.

The tablet form is of great value because it gives an exact feeding unit, there is no messy mixing, no unpleasant odor, and gives a maximum efficiency because no food-value lost in scattering, leaching, or run-off of soil surface-water. Makes repotting of plants unnecessary as it replaces the food withdrawn by the growing plant. Easy to use, complete directions with every package. Order STIM-U-PLANT tablets with your seed and plant order. Price: 10 tablets, 15c; 30 tablets, 25c; 100 tablets, 76c; 1000 tablets, \$3.50. 1000 tablets, \$3.50.

Ground Bone Meal

An excellent fertilizer for all gardening purposes; particularly adapted for fruit trees, roses, and all nursery stock. Should be forked in the soil in the fall if possible. 5 lbs., 45c; 10 lbs., 75c; 25 lbs., \$1.25; 50 lbs., \$1.75; 100 lbs., \$3.25.

Fish and Meat Meal

Very much in demand for celery, lettuce and other garden crops. 25 lbs., \$1.50; 100 lbs., \$5.00. Write for quantity price

SULPHATE OF AMMONIA

Use only after plants are above the ground. If used in liquid form dilute 2 oz. to gallon of water and do not apply oftener than twice a week.

Apply 75 to 100 lbs. per acre; stimulates growth almost immediately. 5 lbs., 50c; 25 lbs., \$1.75; 100 lbs.

\$5.75.

Fertilizers are quoted f.o.b. Salt Lake unless otherwise noted, if by mail add extra for postage.

### THE MODERN LEGUME INOCULATOR

ODERN farmers demand modern methods of farming, and agree that all legume seed should be inoculated. McQueen's Inoculator is the modern legume inoculator—made for farmers—by farmers—to make farming pay. It is field bred and farm grown and is able to give fine results under your field conditions.

McQueen's Inoculator is the only nitrogen-fixing bacteria that is

#### ABSOLUTELY GUARANTEED

to give satisfactory results or your money back. This is for your protection. You are the judge of results.

Inoculate your Alfalfa, Sweet Clover, Soy Beans, Vetch, Peas, Beans and Clovers of all kinds with McQueen's guaranteed Inoculator that hastens maturity, increases the crop, improves its quality, enriches the soil and saves fertilizer bills.

Simple directions for mixing Inoculator with your seed are printed on each and every package of McQueen's. Only a few minutes of your time is required to inoculate your legume seed. Many Master Farmers use McQueen's Tremendous sales on McQueen's Inoculator enables us to offer this quality merchandise at the following

#### CAL-O-BATION THE WONDER MEAT FOOD

For Dogs, Cats, or any Carnivorous Animal

CAL-O-RATION is a cooked, canned, meat product, ready to feed, containing meats, cereals, vegetables and oils. It contains the necessary vitimins and the proper amount of calories necessary for the proper development of any species of Dogs, Cats or Foxes. The amount to feed is regulated by the size of the animal. Generally speaking, animals weighing 8 to 15 lbs, 3 meals in one can, 25 to 30 lbs, 2 meals in one can, 45 lbs. and over, 1 can per day. Best results will be obtained if CAL-O-RATION is fed once or twice a day. To afford the necessary change in diet for dogs, which the dog authorities advocate, is to mix with CALIFORNIA DOG FOODS. Price per can, 20c each; 3 for 50c; 1 case, 4 doz., \$7.80.

We stock Ken-L-Ration at the same price as Cal-O-Ration.

# OG SUPPLIES

post. Allow a little extra for weight of packing.
CALIFORNIA DOG FOODS are a prepared food containing all the ingredients necessary to maintain health and vigor in the dog. It does away with the cooking and the mess. Iff good health in your dog is to be maintained you must feed good, clean, wholesome food.

#### DOG BISCUITS

For Grown or Large Dogs, Feed California Meat-Bone Dog Biscuits once or twice a day. Observation is the only means of telling how only means of telling how many biscutts to feed at one meal. Don't feed too much, Dogs are in best condition when not too fat. The bis-Dogs are in best condition when not too fat. The biscuits can be fed dry or moist. If fed moist, cook them with vegetables or pour milk, gravy or soup over them. The dry biscuit keeps the teeth and gums in good condition. Gnawing on them produces the sallys so them produces the saliva so

#### LEG BANDS

Spiral Colored Bands—These are made of celluloid and in six different colors, black, red, green, yellow, cerise and dark blue. They can be taken off and put on very quickly and easily and will last a life-time. Birds cannot lose or remove them. They are made in sizes for every breed of poultry, pigeons and baby chicks. Please state breed when ordering. Prices of the four poultry sizes: 12 bands, 25c; 25 bands, 30c; 50 bands, 50c; 100 bands, 75c. Pigeon and day-old chick sizes: 12 bands, 15c; 25 bands, 25c; 50 bands, 40c; 100 bands, 65c; 1000 bands, \$5.50, post-paid.

Champion—Adjustable—Best adjustable leg band. Has neat, compact and smooth fastening, with no catching points; easily attached and absolutely secure. Prices, 12 for 20c; 25 for 30c; 50 for ouc; 100 for 75c, postpaid.

Smith's Sealed—Of aluminum and so constructed that the strength of the constructed that the constructed that the strength of the constructed that the constr

by simply crushing a soft rivet they are sealed on the bird's leg, and must be destroyed to be removed. Prices, 12 for 35c; 25 for 65c; 50 for \$1.15; 100 for \$1.75, postpaid. Plain sealers, 75c each.

#### CHICKEN MARKERS

Chicken Markers—All Postpaid.
Petty's Perfect Poultry Punch, small hole; each, 30c.
Moe's Ideal Poultry Punch, nickel plated, each, 50c.

#### **NEST EGGS**

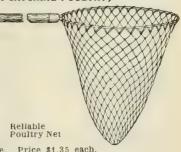

Lime Nest Egg—Preferred by many as they are un-breakable and more natural in shape and color. Price, 5c each; 40c per dozen. Wt., 2 lbs. per dozen. Postage extra. Porcelain—Best grade, strong and curable. Each, 5c; dozen, 40c; weight, 4-lb. per dozen.

#### CAPONIZING SETS

Caponizing has become very popular with the poultrymen, as it brings the highest prices in poultry. The capon makes quick, tender meat, and much of it. To make a profit in poultry raising all male birds should be made capons. Very easy to do after reading special book of instructions. Set complete, each, \$4.00, postpaid.

#### RELIABLE POULTRY NET (FOR CATCHING POULTRY)

This net is made stout cord attached to heavy galvanized wire 1' nches in diameter securely riveted to a wood handle 51 inches in length Users say "its the handlest tool out for catching 'em." It is equally serviceable as a fish net for landing the "big fellows" that heretofore have been left in the lake. Price \$1.35 each.

# Egg Scales

Reliable all weights required with the one shift, thereby taking the place of two scales. It has four steel knife-edge hearings, which guarantees a correct weight and long life. Price \$2.90 each.

Acme Is being used by thousands of poultry specialists, egg producers, managers of hatcheries and marketing associations, convincing evidence that the Acme is considered a most practical and efficient egg scale. The United States Government Poultry Specialists are using it as their official scale in establishing the standard grades of market eggs. Construction is very simple and durable. Operation is very quick and entirely automatic in indicating the grade of the egg. Price, \$3.50 each.

### **Moisture Guide**

(For Incubators)

The Patterson and Young Incubator Moisture Guide is composed of an Aluminum Holder, which is fastened in the incubator, and a glass tube which is filled with water when the eggs are set. The tube is scaled to show the correct evaporation of the eggs for each day of incubation, as well as for the total period. No incubator is properly equipped without a Moisture Guide as well as a thermometer. Millions of chicks die in the shells each year because of improper evaporation. Price complete, \$1.00 each \$1.00 each.

#### EGG-O-LATUM

Keeps fresh eggs for one year. Simply rubbed on, it seals the egg tight and is air, moisture, odor and germ proof. Eggs put down in August, September or October are as fresh in January, February or March as when first laid and are both worth double the price. Coat the palms of your hands with Egg-O-Latum and then roll and rub the eggs in your hands. You can do a dozen per minute

50c per jar—enough for 50 dozen eggs. Add 10c per jar if by mail. weight and long life. Price, \$2.90 each.

# **NEW ROYAL BROODER STOVES**

#### Burns Hard or Soft Coal or Coke

The Royal Coal Burning Brooder Stoves are made from the best grey iron castings and are furnished complete with one piece wire-bound extra heavy gauge galvanized iron canopies, extra heavy gauge galvanized iron canopies, which are riveted to heavy cast rings and fit tightly about the top of the stoves. They are guaranteed to burn the fuels listed above satisfactorily.

The No. 1 Stove requires a 4-inch pipe and all other sizes 5-inch.

All Royal Brooder Stoves are absolutely guaranteed to be satisfactory as to material and workmanship and are sold on a money back guarantee.

#### **Automatic Regulation**

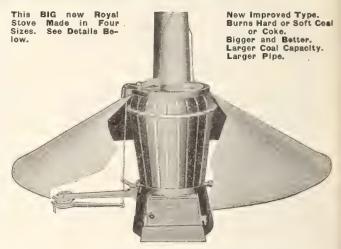

The fire is controlled by a check draft on the top of the stove and a direct draft below the grate, both automatically regulated by two wafer thermostats which are simple yet posi-tive in action and keep the fire under perfect control, insuring uniform temperature at all times.

#### Larger Coal Capacity

The most essential feature of the Royal Stoves is the shape and capacity of the fire-pots. The larger the body of fuel the less fuel is actually used and the more sure you are of having a constant, steady fire at all times. The Royal Stoves will carry fire through the night, long after smaller stoves, with unsatisfactorily designed fire-pots have gone out. Thousands of chicks are lost each year by brooder stoves not having sufficient capacity to carry fire throughout the night. carry fire throughout the night.

Rocker Type Grates

The grates in the Royal Brooder Stoves are all of the rocker type being much larger in diameter and about twice as thick as the grates put on the average brooder This insures more satisfactory and much longer service.

#### Burns Soft Coal Successfully

This statement in the past has been badly abused as many manufacturers have declared their brooder stoves would burn soft coal successfully when their construction was such as to not permit their doing so. We call your attention to three features which are necessary in burning soft coal.

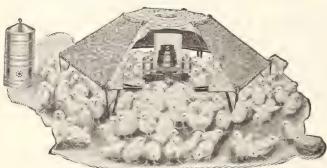

1st: Larger coal faster than hard coal. coal capacity, because soft coal burns

2nd: Larger pipe size and combustion chamber, to prevent clogging from coal tar or soot which accumulates from any slow burning fire, especially more so with soft coal.

3rd: More accurate draft control, because soft coal will check down much more rapidly than hard coal and requires an auxiliary draft to build it back up again.

#### Sizes and Prices F. O. B. Salt Lake City are as follows:

# Feeders and Racks for Poultry

Prices are not prepaid, please send postage if by mail.

DRY MASH HOPPER

The curved bottom of the Hopper keeps the feed within easy reach of the birds. The gradual enlargement from the top to base prevents clogging. The wire grid and the wires running from the flange through the wire grid prevent any chance of the fowls throwing out or wasting any of the feed. The sloping cover prevents the birds from roosting on the Hopper, and when covers e closed, it is rat and mouse proof. A trial will convince you that it is a Hopper of the greatest merit. Manufactured of heavy galvanized iron in three sizes.

# BABY FOOD FOR BABY CHICKS

A dozen years ago old chick raising methods were revolutionized by the introduction of **Pratts**,

# **Buttermilk Baby Chick Food**

the original "baby food for baby chicks." As a result it is today possible to raise every liveable chick by using this splendid feed for the first three or four weeks of a chick's life. That is the critical period when the use of Pratts Buttermilk Baby Chick Food will more than pay for itself in the extra chicks you save.

Pratts Buttermilk Baby Chick Food is made of the most carefully selected, high grade ingredients skillfully prepared so that it is mechanically predigested. It furnishes everything needed for health, growth and a sturdy foundation. Leg weakness, diarrhea and other chick troubles are unknown where Pratts is used.

Don't waste time, chicks or money on imitations of Pratts. We guarantee it will give complete satisfaction. In  $2\frac{1}{2}$  and  $5\frac{3}{4}$  lb. pkgs. and in 10, 14, 25, 50 and 100 lb. bags.

# Pratts, Buttermilk Baby Chick Food "Life Insurance for Chicks"

# PRATTS PREPARATIONS MEAN HEALTH

# For Health and Eggs Pratts, Poultry Regulator

has no equal. It is the world's original poultry regulator and has been the standard for over 50 years. Not a dope or stimulant but a natural tonic supplying numerous health necessities required by heavy laying hens and breeding stock. Tones up the system, regulates bowels, aids digestion, sharpens appetite, wards off disease and increases vitality. Added to

any mash it makes more eggs. Use it the year round and make bigger profits. Guaranteed to give satisfaction or your money back. 30c., 65c., \$1.65 packages; 25-lb. bag \$3.00; 25-lb. pail \$3.50; 100-lb bag \$10.50. Add extra for postage.

per pkg.

# Pratts, Condition Tablets

Not only for show birds but for all fowls that are out of condition and need toning up. Valuable for treating individual birds that are "off their feed." Efficient in treating colds, liver and digestive troubles. Always keep a box at hand. 30c. and 60c.

### Gape Compound

Made for external use. Effective and a safe and quick remedy for gapes in chicks. Use it as a preventive and avoid heavy losses from this trouble. Fully guaranteed 30c. and 60c. pkgs, post paid.

# Pratts, Powdered Lice Killer

A powerful and economical lice killer that quickly rids your fowls of these profit eating pests. Use it on the poultry, in the nests and dust boxes, etc. Also used to free horses, cows, sheep, dogs, cats, etc., from lice, fleas and other vermin. Easy, safe and effective to the highest degree.

In sifter top cans at 30c. weight 1-lb. and 60c-weight 2½-lbs. Add extra for postage.

#### Here's What Pratts Guarantee Means

Pratts are the oldest and largest manufacturers of stock and poultry preparations in America. They have had over half a century's experience and their remedies have been in successful world-wide use on the largest and smallest flocks and herds. Therefore every Pratt Remedy is guaranteed to give satisfaction or your money will be refunded.

# Pratts, Special Compound

For all sorts of digestive troubles commonly known as "cholera," such as indigestion, diarrhea, sour crop, dysentery, etc. this remedy offers a safe, sure and quick relief. Can be used as a preventive as well as remedy. Always have a package in your poultry medicine chest. 80c. and 60c. per pkg. Post Paid.

# POULTRY HEALTH MEANS PROFIT

### **Cleanliness Means Poultry Health**

# **Dratts**, Disinfectant

Insures poultry health. A cheap, powerful, non-poisonous disinfectant. Four times as effective as carbolic acid. A gallon makes a barrel of disinfecting solution. Use it freely. Spray it about the poultry houses, roosts, dropping boards, nests and wherever a strong disinfectant is needed. Acts as a deodorizer, germicide, and liquid lice killer. Effective in the treatment of roup, colds and contagious diseases. Quarts 65c., half-gallon, \$1.10.; gallon, \$1.75, weight 10lbs. Add extra for postage if by mail.

# Pratts,

### Roup Remedy

(Tablets or Powder)

use it as a treatment or pre ventive. An easy powerful remedy with a long record of success in the treatment of colds, roup, diphtheria, catarrh, etc. Keep a box always at hand, guaranteed to give satisfaction.

30c; 60c. and \$1.20 packages post paid

# Pratts,

### Diarrhea Tablets For Chicks

Use this in the chicks drinking water for the first ten days and you will avoid losses from white diarrhea and like bowel troubles. This is "life in-surance," for chicks that will save you dollars. Very easy to use and fully guaranteed. 30c; 60c. and \$1.20 pkgs. Post paid.

### **Poultry** Worm Powder

Rids poultry of round, tape and thread worms, is safe, sure,

easy to use and costs only a little over one cent to treat a fowl, 60c. and \$1.20 Pkgs. 25-lb. Pail, \$4.00, 100-lb. Bags \$11.00. Add extra for postage.

### Pratts, Red Mite Special

is a powerful preparation put up specially to rid flocks of red mites, ticks, blue bugs, fleas and like blood sucking vermin. It should be sprayed or painted on the roosts, dropping boards, nest boxes, and in all cracks. One application is effective for months. Many times more powerful and effective than ordinary liquid lice killers. 70c. a quart; \$1.20 a ½ gallon; \$1.85 a gallon. extra for postage

A safe, sure and powerful remedy that will prevent as well as cure this disease. Tones up the system, heals the sores and prevents spread of the disease. Easy to use, you should always keep a package in your chest so you can treat your hens promptly. It may mean saying your flock.

mean saving your flock. 35c. and 70c. pkgs. Post Paid

Pratts

# Pratts, Scaly Leg Ointment

A simple, strong, guaranteed ointment, easy to apply, that will quickly cure the most stubborn case of scaly leg. Don't have lame birds that don't lay, use this ointment and have a healthy flock. 35c. & 70c. a box p. p.

Use Pratts Powdered Lice Killer or Pratts
Lice Ointment.

#### RED MITES

Pale combs, weakness

Loss of weight

Use Pratts Red Mite
Special.

# P.-W.'s BABY CHICKS

Baby chicks are a great specialty with us. We recommend the raising of our day-old-chicks as the most satisfactory way of establishing a new flock of poultry, or of renewing an old flock, for utility purposes. It is really less expensive to buy chicks than to hatch them in small lots, and you are much more certain of having just the number that you want when you want them. You are saved all the bother of operating an incubator or caring for a setting hen, the expense of maintaining male birds which lower the value of the eggs for table use, and the expense of the incubator, or loss of body weight and time off from laying of the setting hen.

The regular utility grade of Baby Chicks that we offer are the product of free range flocks, pure bred, of standard type, carefully culled, and selected for their performance as layers. These flocks have been developed and maintained for years especially for the production of our Baby Chicks. They are the very highest quality of flock matings.

We list below the most popular breeds but are in touch with sources of supply of many other strains, so if you do not find what you want in the list below write us, and without doubt, we can supply you.

Terms on Chicks 25% deposit; Ducks, Turkeys and Goslings 50% deposit with order, balance C. O. D. Shipping charges prepaid. Live Delivery Guaranteed. We ship orders for 100 chicks and over direct from hatchery; time required for delivery three weeks to one month after order is received.

Prices below are in effect at the season's opening, subject to change without notice. Write for prices on larger numbers than below quoted.

| DAY | OLD | BABY | CHICKS ( | (Utility | Grade) |
|-----|-----|------|----------|----------|--------|
|-----|-----|------|----------|----------|--------|

| BREED                                     | 25     | 50     | 100     | 500     | 1000      |
